Evergreen and Deciduous Trees,
Shrubs and Vines

ABELIA grandiflora. 5'-6' Each Per 10 Per 100
Glossy Abelia

HALF-EVERGREEN. Dainty bell-shaped shell-pink flowers produced throughout summer. The glossy privet-like foliage will persist all winter in a protected spot. Neat shrub.

2	to	3	ft.	B. & B.....	1.00	9.00
3	to	4	ft.	B. & B.....	1.50	

ABIES concolor. 50'-60' White Fir

EVERGREEN. This "Queen of the Firs" is a handsome thing with large flat silvery-green needles that seem to become more blue with age. As a pyramidal accent plant it is splendid, as it withstands city conditions and drought.

15	to	18	in.	B. & B.....	1.75	15.00	135.00
1½	to	2	ft.	B. & B.....	2.75	22.50	200.00
2	to	2½	ft.	B. & B.....	3.75	32.50	275.00
2½	to	3	ft.	B. & B.....	4.50		

homolepis. 60'-80' Nikko Fir

EVERGREEN. From the youthful broad-based pyramid this stately fir develops into a bold round-topped tree. Has long lustrous green needles with silvery reverse. Very hardy.

2	to	2½	ft.	B. & B.....	3.25	27.50	
2½	to	3	ft.	B. & B.....	4.50	40.00	
3	to	4	ft.	B. & B.....	5.75	52.50	450.00
4	to	5	ft.	B. & B.....	7.50	70.00	625.00
5	to	6	ft.	B. & B.....	9.00	82.50	750.00

nordmanniana. 80'-100' Nordmann Fir

EVERGREEN. Wide rich deep-green needles make this a distinctive tree with a broad base. Altho a slow grower will, in a favorable spot, develop into a massive dense tree.

3	to	4	ft.	B. & B.....	10.00		
4	to	5	ft.	B. & B.....	12.00		

veitchi. 50'-60' Veitch Fir

EVERGREEN. A rather dainty narrow pyramid of soft green. The silvery under side of needles is quite marked.

2½	to	3	ft.	B. & B.....	4.00		
3	to	4	ft.	B. & B.....	6.00		

ACANTHOPANAX pentaphyllum 7'-8' Five Leaf Aralia

Particularly useful for covering rocky slopes. Good bright green shining foliage, graceful arching habit, most adaptable.

1½	to	2	ft.		.30	2.50	20.00
2	to	3	ft.		.40	3.50	25.00
3	to	4	ft.		.50	4.00	35.00

ACER ginnala. 15'-18' Amur Maple

Forms a large round twiggy shrub with fragrant flowers. Most glorious in autumn with its brilliant flaming foliage.

3	to	4	ft.		1.20	10.00	75.00
4	to	6	ft.		1.75	15.00	125.00

palmatum atropurpureum novum. 8'-10' Purple Japan Maple

The characteristic wine-red coloring is persistent throughout summer in this improved form. Makes a well-shaped, compact bush, and improves with age. Are very bushy plants.

12	to	15	in.,	3½" pots....	1.00	7.50	60.00
1	to	1½	ft.	B. & B.....	1.50	12.50	100.00
1½	to	2	ft.	B. & B.....	2.00	17.50	150.00
2	to	2½	ft.	B. & B.....	3.00	25.00	200.00
2½	to	3	ft.	B. & B.....	4.50	40.00	325.00
3	to	4	ft.	B. & B.....	6.50	60.00	
4	to	5	ft. specimens	B. & B.....	24.00		
5	to	6	ft. specimens,	B. & B.....	30.00		

ACER

Each Per 10 Per 100

palmatum aureum. 8'-10'**Goldenmoon Maple**

Really a golden yellow shrub that stays within bounds.

4 to 5 ft. B. & B..... 21.00

— crispum. 10'-12'**Crested Purple Japanese Maple**

The foliage is more deeply and irregularly cut and the coloring lighter and fresher. Unfortunately not well-known.

6 to 12 in., 2 yr. grafts 1.00 7.50 60.00

1 to 1½ ft. B. & B..... 1.50 12.50 100.00

1½ to 2 ft. B. & B..... 2.00 17.50 150.00

2 to 2½ ft. B. & B..... 3.00 25.00 200.00

2½ to 3 ft. B. & B..... 4.50 40.00

3 to 4 ft. B. & B..... 6.50 60.00

4 to 5 ft. B. & B..... 12.00

— dissectum. 5'-6'**Cutleaf Japanese Maple**

Deeply cut leaves impart a lacy, soft appearance to the flat-topped low spreading bush. Grows very slowly, but at maturity is a characterful billowy mound of fresh green.

6 to 12 in., 2-yr. grafts 1.00 9.00 75.00

1 to 1½ ft. B. & B..... 2.50

1½ to 2 ft. B. & B..... 4.00

2 to 2½ ft. B. & B..... 6.00

2½ to 3 ft. B. & B..... 7.50

— — purpureum. 5'-6'**Purple Cutleaf Maple**

Differs from the green, only in having wine-stained foliage.

6 to 12 in., 2 yr. grafts 1.00 9.00 75.00

1 to 1½ ft. B. & B..... 2.50 20.00 175.00

1½ to 2 ft. B. & B..... 4.00 35.00 300.00

2 to 2½ ft. B. & B..... 6.00

2½ to 3 ft. B. & B..... 7.50

— nigrum. 10'-12'**Darkest Purple Form**

This is nearest to a purple maple. Vigorous, holds color well.

6 to 12 in., 2-yr. grafts 1.00 7.50 60.00

1 to 1½ ft. B. & B..... 1.50 12.50 100.00

1½ to 2 ft. B. & B..... 2.00 17.50 150.00

2½ to 3 ft. B. & B..... 4.50 40.00

3 to 4 ft. B. & B..... 6.50

pennsylvanicum. 30'-35'**Striped Maple**

The green bark is lined with white stripes. Prefers moisture.

2 to 3 ft..... .75

3 to 4 ft..... 1.00

4 to 6 ft..... 1.50

6 to 8 ft..... 2.25

platanoides. 60'-80'**Norway Maple**

Probably the easiest tree to transplant successfully. Throws a dense shade, so must be trimmed high if grass is to grow under it. Holds its green foliage well until late in the fall.

6 to 8 ft..... 1.50 12.50 100.00

8 to 10 ft..... 2.00 16.50 125.00

14 to 16 ft., 3 to 3½ in..... 10.00

— globosum. 10'-12'**Globe Norway Maple**

Here is a really worth-while "standard" tree, far superior to and more permanent than the Catalpa. Has shapely tops.

5 yr. heads, 6 ft. stems..... 6.00

6 yr. " " 7.50

EachPer 10Per 100

ACER platanooides schwedleri. 60'-80'Schwedler Maple

The young leaves are bright red, but as summer approaches turn to a rich dark green with a suggestion of purple in them. This brightens up again in autumn. Grows easily.

10	to	12	ft., 1¾	to	2	in.....	4.50
10	to	12	ft., 2	to	2½	in.....	6.00

rubrum. 80'-100'Red Maple

A well-loved native so noticeable in spring, when the fiery red blossoms cover the branches, and again in autumn, when the vivid scarlet dress is a high spot. Ordinarily found in low places but succeeds well in high land too.

6	to	8	ft.....	1.50	12.50	100.00
8	to	10	ft.....	2.00	16.50	125.00
8	to	10	ft., 1¼ to 1½ in.....	2.50	20.00	150.00
9	to	10	ft., 1½ to 1¾ in.....	3.00	25.00	200.00
10	to	12	ft., 1¾ to 2 in.....	4.00	35.00	300.00
12	to	14	ft., 2 to 2½ in.....	5.00	45.00	400.00

saccharum. 100'Sugar Maple

Quite a princely tree dissatisfied with city life, but assumes noble proportions in clear atmosphere. The autumn colors ranging through all the fiery tones make this, for spectacularly beautiful foliage effects, the most glorious of all trees.

6	to	8	ft.....	1.50	12.50	100.00
8	to	10	ft.....	2.00	16.50	125.00
8	to	10	ft., 1¼ to 1½ in.....	2.50	20.00	150.00
9	to	10	ft., 1½ to 1¾ in.....	3.00	25.00	200.00
10	to	12	ft., 1¾ to 2 in.....	4.00	35.00	300.00
12	to	14	ft., 2 to 2½ in.....	5.00	45.00	400.00
12	to	14	ft., 2½ to 3 in.....	7.00	60.00	550.00
14	to	16	ft., 3 to 3½ in.....	11.00		

spicatum. 15'-20'Mountain Maple

If used only for its gay autumn dress, a well worth-while little tree. The bunches of red-winged fruits are interesting.

2	to	3	ft.....	.85	7.50	
3	to	4	ft.....	1.00		
4	to	5	ft.....	1.50		

ACTINIDIA arguta. Vine, 30'Bower Actinidia

Rich green leaves—greenish white flowers—yellow berries—and rapid growth are the main characteristics of this vine.

2	yr.....	.50	4.00	30.00
3	yr.....	.60	5.00	40.00

AESCULUS

hippocastanum rubicunda. 40'-50'Pink Horsechestnut

Great trusses of deep pink flowers are held aloft each spring decorating the formal roundish pyramid like a Christmas tree.

6	to	8	ft.....	4.50
---	----	---	---------	------

parviflora. 9'-10'Bottlebush Buckeye

Truly a handsome shrub. It gradually spreads into a large mound much broader than high over which the refined horsechestnut leaves are mantled, serving as an excellent foil for the erect spikes of creamy-white flowers. Slow but good.

1	to	1½	ft.....	1.50
---	----	----	---------	------

AKEBIA quinata. Vine, 15'-20'Five Leaf Akebia

A light lacy effect is produced by this dainty vine, and the subtle fragrance of the purple-brown flowers is attractive.

2	yr.....	.50	4.00	30.00
3	yr.....	.60	5.00	40.00

	Each	Per 10	Per 100
AMELANCHIER canadensis. 25' <i>Downy Shadblow</i>			
The flurry of pure white flowers is the forerunner of spring—most noticeable in our native woods where this dainty denizen is sparsely scattered. The birds relish the fruits.			
1½ to 2 ft.....	.60	5.00	40.00
2 to 3 ft.....	.80	7.00	60.00
stolonifera. 4'-5' <i>Dwarf Shadblow</i>			
This dwarf form develops by underground stems into a large mass. Has typical dainty pure white flowers, a beautiful picture in very early spring. Endures considerable shade.			
1½ to 2 ft.....	.60	5.00	
2 to 3 ft.....	.80	7.00	
AMPELOPSIS aconitifolia. Vine, 15'-20' <i>Monkshood Vine</i>			
Curiously shaped leaves somewhat similar to monkshood and orange berries are the features of this quick growing vine.			
2 yr.....	.50	4.00	30.00
heterophylla. Vine, 30'-40' <i>Porcelain Ampelopsis</i>			
Quite similar to Monkshood vine but has bright blue berries.			
2 yr.....	.50	4.00	30.00
3 yr.....	.60	5.00	40.00
quinquefolia engelmanni. Vine, 40' <i>Engelmann Creeper</i>			
A handsome woodbine used for autumnal effects. Vigorous.			
2 yr.....	.40	3.00	25.00
tricuspidata (veitchi). Vine, 40'-50' <i>Boston Ivy</i>			
Probably the most popular self-clinging vine. Striking in Fall.			
3 in. pots.....	.40	3.00	25.00
—lowi. Vine, 6'-8' <i>Geranium Creeper</i>			
A miniature edition of the Boston Ivy, clings closely and colors beautifully in fall. The thick-looking leaves are curiously twisted. Splendid on low walls for a permanent tracery.			
4 in. pots.....	.75	6.00	50.00
AMYGDALUS persica. 12'-15' <i>Double Flowering Peach</i>			
White			
Glorified double flowering forms of the peach. Forces well.			
6 to 7 ft.....	.90	7.50	
ARCTOSTAPHYLOS uva-ursi. 4''-6'' <i>Bearberry</i>			
EVERGREEN. Forms a mat of green on the hot sandy banks of South Jersey, but seems to prefer some shade in cultivation. When the large red berries are in evidence it is particularly attractive. Must have acid soil to develop naturally.			
2 in. pots.....	.35	3.00	25.00
3 in. pots.....	.50	4.00	35.00
4 in. pots.....	.70	6.00	50.00
5 in. pots.....	1.00	8.50	75.00
ARONIA arbutifolia. 8'-10' <i>Red Chokeberry</i>			
Most decorative red berried shrub, prefers a moist place.			
2 to 3 ft.....	.60	5.00	40.00
melanocarpa. 3'-4' <i>Black Chokeberry</i>			
This black fruited form is more bushy and the foliage assumes brighter tints in autumn. White flowers practically cover the branches in May. Unfortunately the berries shrivel.			
1½ to 2 ft.....	.40	3.00	25.00
2 to 3 ft.....	.50	4.00	30.00
3 to 4 ft.....	.60	5.00	40.00
4 to 5 ft.....	.75	6.50	60.00

ARONIA				Each	Per 10	Per 100
melanocarpa grandiflora. 8'-9'				Great Black Chokeberry		
This vigorous relative has slightly larger flowers and fruits and while taller is not quite so bushy or neat. Good in mass.						
3	to	4	ft.....	.60	5.00	40.00
4	to	5	ft.....	.90	7.50	60.00

AZALEA arborescens. 15'-18'					Sweet Azalea	
The exquisitely fragrant white or blush flowers are among the latest of Azaleas to be seen in June. Succeeds in moist or well drained places. Eventually becomes gnarled, interesting.						
15	to	18 in.	B. & B.....	2.00	17.50	150.00
1½	to	2 ft.	B. & B.....	2.50	22.50	200.00
2	to	2½ ft.	B. & B.....	3.25	27.50	
2½	to	3 ft.	B. & B.....	4.00	35.00	
3	to	3½ ft.	B. & B.....	5.00		

akebona. 6'-8'				Japanese Azalea	
HALF-EVERGREEN. Has surprisingly large lavender flowers and hairy leaves. Grows freely into an open shrub. Should be more widely known and used among conifers.					
2	to	2½ ft.	B. & B.....	4.50	40.00
2½	to	3 ft.	B. & B.....	7.50	60.00
3	to	3½ ft.	B. & B.....	9.00	75.00

amoena. 4'-6'

Amoena Azalea

EVERGREEN. Grows broader than tall with good compact habit. The small box like leaves take on a warm bronzy hue in winter, but in spring a mantle of magenta flowers is the striking feature. Most hardy evergreen form.

9	to	12	in.	B. & B.....	1.25	10.00	90.00
12	to	15	in.	B. & B.....	1.75	15.00	120.00
15	to	18	in.	B. & B.....	2.50	22.50	200.00
1½	to	2	ft.	B. & B.....	3.75	30.00	270.00
2	to	2½	ft.	B. & B.....	4.50	40.00	350.00
2½	to	3	ft.	B. & B.....	6.00	55.00	500.00
3	ft. spread specimens,			B. & B.....	10.00		

calendulacea. 10'-12'				Flame Azalea		
Possibly the most brilliant of our native shrubs, the flowers vary from orange to scarlet in late May. Rather dry acid soil.						
15	to	18 in.	B. & B.....	2.00	17.50	150.00
1½	to	2 ft.	B. & B.....	2.50	22.50	200.00
2	to	2½ ft.	B. & B.....	3.75	30.00	270.00
2½	to	3 ft.	B. & B.....	4.50	40.00	350.00
3	to	3½ ft.	B. & B.....	6.00		

fujimayo. 5'-6'				Japanese Azalea	
HALF-EVERGREEN. Best feature is the double lavender pink flowers. Happiest in a warm spot with rhododendrons.					
1½	to	2	ft.	B. & B.....	4.00 35.00
2	to	2½	ft.	B. & B.....	5.00 40.00
2½	to	3	ft.	B. & B.....	7.50 60.00
3	to	3½	ft.	B. & B.....	9.00 75.00

hinodegiri. 4'-5'

Hinodegiri Azalea

EVERGREEN. This is THE red Azalea which in May is actually covered in a blanket of vivid carmine flowers. The foliage is lighter green and larger than that of "Amoena" and has a richer bronzy color in winter. A fine spot plant.

12	to	15	in.	B. & B.....	2.25	20.00	150.00
15	to	18	in.	B. & B.....	4.00	35.00	300.00
1½	to	2	ft.	B. & B.....	5.50	50.00	450.00
2	to	2½	ft.	B. & B.....	7.50	70.00	600.00
2½	to	3	ft. specimens,	B. & B.....	11.00	100.00	

Each Per 10 Per 100

AZALEA kaempferi. 4'-5' *Torch Azalea*

From salmon-pink to orange-red, the flowers transform this shrub into a thing of beauty. In a slightly shaded sheltered spot, it is almost evergreen, and the color of the flowers is preserved. Has successfully withstood our worst winters.

12 to 15 in.	B. & B.....	2.00	17.50	150.00
15 to 18 in.	B. & B.....	2.50	22.50	200.00
1½ to 2 ft.	B. & B.....	3.00	27.50	250.00
2 to 2½ ft.	B. & B.....	4.00	35.00	300.00
2½ to 3 ft.	B. & B.....	5.50	45.00	
3 to 3½ ft.	B. & B.....	7.50		

— **hybrids. 3'-4'** *Carmen, Cleopatra, Fedora, Louise*

HALF-EVERGREEN. Generally speaking, these hybrids have a lower, more bushy habit and the brilliant orange tints are missing. 'Tis a gloriously handsome family tho!

12 to 15 in.	B. & B.....	2.75	22.50	200.00
15 to 18 in.	B. & B.....	3.00	27.50	225.00
1½ to 2 ft.	B. & B.....	4.00	35.00	
2 to 2½ ft.	B. & B.....	4.50	40.00	

macrantha. 3'-4' *Red Salmon Azalea*

EVERGREEN. A low growing form with single red flowers and clean shiny leaves—needs shelter for sure results.

12 to 15 in.	B. & B.....	2.25	20.00	
15 to 18 in.	B. & B.....	3.50	30.00	

mollis. 4'-5' *Chinese Azalea*

The mass of delicately shaded large bell-shaped flowers running through orange and red tones make a display worth waiting for each May. Succeeds best in sunny place.

9 to 12 in.	B. & B.....	1.50	13.50	120.00
12 to 15 in.	B. & B.....	2.25	20.00	150.00
15 to 18 in.	B. & B.....	3.00	27.50	

mucronulata. (dahuricum) 5'-6' *Dahurian Azalea*

A welcome sight in March is the exquisitely frilled rosy-purple flowers—in pleasing contrast to the yellow Forsythia.

2 to 2½ ft.	B. & B.....	4.50		
2½ to 3 ft.	B. & B.....	6.00		
3 to 4 ft.	B. & B.....	7.50		

nudiflora. 6'-7' *Pinxterbloom*

The fragrance of this "wild honeysuckle" quickly betrays its home in light woods where the variable pink flowers are eagerly sought in May. Does well in the open sun too.

15 to 18 in.	B. & B.....	2.00	17.50	150.00
1½ to 2 ft.	B. & B.....	2.50	22.50	200.00
2 to 2½ ft.	B. & B.....	3.75	30.00	270.00
2½ to 3 ft.	B. & B.....	4.50	40.00	350.00
3 to 4 ft.	B. & B.....	6.00	55.00	450.00
4 to 5 ft.	B. & B.....	7.50		

pontica. 6'-8' *Pontic Azalea*

A fine old kind with rich yellow trumpet-shaped fragrant flowers borne in clusters at the tips of the bare branches.

9 to 12 in.	B. & B.....	1.50	13.50	120.00
12 to 15 in.	B. & B.....	2.25	20.00	150.00
15 to 18 in.	B. & B.....	3.00	27.00	225.00
1½ to 2 ft.	B. & B.....	4.50	40.00	350.00

AZALEA

Each Per 10 Per 100

poukhanensis. 4'-5'

Korean Azalea

Almost a blue Azalea. Fine large blooms sweetly scented scattered over the spreading bush—effective with Forsythia.

12 to 15 in.	B. & B.....	3.00	27.50	225.00
15 to 18 in.	B. & B.....	4.00	37.50	325.00
1½ to 2 ft.	B. & B.....	4.75	45.00	
2 to 2½ ft.	B. & B.....	5.50	52.50	
2½ to 3 ft.	B. & B.....	6.50		

— yodogawa. 4'-5'

Yodogawa Azalea

In May this bush is actually a dense bouquet of double lavender-pink flowers with no foliage visible at all. Be sure to get the free-flowering type, about this we have been careful.

12 to 15 in.	B. & B.....	2.75	22.50	
15 to 18 in.	B. & B.....	3.25	27.50	
1½ to 2 ft.	B. & B.....	3.75		

rosea. 6'-7'

Downy Pinxterbloom

Possibly brighter pink and, with us, slightly more compact than "nudiflora," otherwise similar in leaf habit and flower. Thrives best in a slightly shaded moist spot with acid soil.

15 to 18 in.	B. & B.....	2.00	17.50	150.00
1½ to 2 ft.	B. & B.....	3.00	25.00	200.00
2 to 2½ ft.	B. & B.....	4.00	35.00	
2½ to 3 ft.	B. & B.....	5.00	45.00	

vaseyi. 10'-12'

Pinkshell Azalea

A most exquisite thing when the pure pink flowers open in early May—apparently just lightly resting in the bare twigs, its beauty is breath-taking. Happiest on margin of woods.

15 to 18 in.	B. & B.....	3.25	30.00	270.00

4	to	5 ft.	B. & B.....	4.50		

CHIMAPHILA maculata. 6"-8"

Pipsissewa

EVERGREEN. Essentially a shady woods plant where it revels in leaf mold, but soon establishes a home in a shady pocket in the rock garden. The handsome long narrow leaves are beautiful, marbled white with purple tinges throughout, and the loveliest white saucers are held up on long stems.

Nursery clumps30	2.50	18.00
----------------------	-----	------	-------

Each Per 10 Per 100

CHIONANTHUS virginica. 20'-25' *White Fringe*

Loose tassels of fragrant white flowers are effective against the bold dark green foliage; really handsome for "dominant" spots. Dark purple plum-like fruits are quickly eaten by birds.

2	to	3	ft.....	.75	6.00	50.00
3	to	4	ft.....	1.20	10.00	75.00
4	to	5	ft.....	1.50	13.50	120.00
5	to	6	ft.....	2.25	20.00	

CLADRASTIS lutea. 40'-50' *Yellow-wood*

Has loose bunches of fragrant white pea shaped flowers in June. The clear yellow autumn coloring is striking, too.

2	to	3	ft.....	1.50	13.50	120.00
3	to	4	ft.....	2.00	15.00	135.00
4	to	6	ft.....	3.00	27.50	225.00
6	to	8	ft.....	3.50		

CLEMATIS montana rubens. Vine, 20'-25' *Anemone Clematis*

Graceful, slender yet vigorous vine which in May is studded with blush star-like flowers, remains in good condition weeks.

2	yr.....	.60	5.00	40.00
---	---------	-----	------	-------

paniculata. Vine, 25'-30' *Sweet Autumn Clematis*

The sweet September fragrance of this old favorite indicates its presense long before the flower laden vine is seen; and the feathery seeds are also decorative. Belongs to the home.

3	yr.....	.40	3.00	25.00
---	---------	-----	------	-------

CLETHRA alnifolia. 7'-8' *Summer Sweet*

Useful for damp woodlands where the erect white flower spikes spice the air with a "peppery" odor all summer. Will grow contentedly even in poor soil or sun, best in half shade.

1½	to	2	ft.....	.45	3.50	25.00
2	to	3	ft.....	.50	4.50	35.00
3	to	3½	ft.....	.60	5.50	45.00
3½	to	4	ft.....	.80	7.00	60.00

COLUTEA arborescens. 10'-12' *Bladder Senna*

So called because the reddish seed pods are inflated, which follow the small bright yellow pea blossoms. Interesting.

3	to	4	ft.....	.50	4.00	
4	to	5	ft.....	.70	6.00	
5	to	6	ft.....	.80	7.00	
6	to	8	ft.....	1.00	9.00	

CORNUS alba (sibirica.) 8'-10' *Coral Dogwood*

Grows vigorously in moist places where the vivid red bark is strikingly evident throughout winter, particularly if used with the yellow twigged form. Birds quickly eat the berries.

3	to	4	ft.....	.50	4.00	
---	----	---	---------	-----	------	--

alternifolia. 15'-20' *Pagoda Dogwood*

Too seldom used, this handsome shrub is full of character, with flat spreading tiers of branches creating deep shadows.

2	to	3	ft.....	.60	5.00	
3	to	4	ft.....	.75	6.50	
4	to	5	ft.....	1.00	8.00	
5	to	6	ft.....	1.25		

amomum. 8'-10' *Silky Dogwood*

In autumn the bluish fruits are most ornamental and even in winter the purplish branches give color. Good for massing, particularly in swampy areas. Has large silky foliage.

2	to	3	ft.....	.40	3.00	
3	to	4	ft.....	.50	4.00	
4	to	5	ft.....	.60	5.00	40.00

Each Per 10 Per 100

CORNUS controversa. 25'-30' *Giant Dogwood*

Rarely seen and of no outstanding merit although the blue-black fruits are quite large and it develops character with age.

2	to	3	ft.....	.60		
3	to	4	ft.....	.80		

florida. 25'-30' *White Flowering Dogwood*

Surely everyone knows this splendid tree. Nothing is so spectacularly beautiful in spring as the banks of white flowers that border the woods. Then the profusion of glittering red berries and finally the brilliant autumn display of rich coloring, pink, crimson, scarlet, maroon. And in winter the twiggy intricate branch system forms a lacy network full of interest and beauty. Very adaptable and transplants readily.

2	to	3	ft.....	.60	4.50	30.00
3	to	4	ft.....	.75	6.00	50.00
4	to	5	ft.....	1.25	10.00	75.00
5	to	6	ft.....	1.75	15.00	125.00
6	to	8	ft.....	2.75	22.50	200.00
8	to	10	ft.....	4.50	40.00	

— rubra. 25'-30' *Red Flowering Dogwood*

Substitute pink flowers and you can imagine what a gorgeous effect can be made by using this form either alone or with the white type. Splendid free flowering specimens.

2	to	3	ft.....	1.50	12.00	100.00
3	to	4	ft. B. & B.....	2.00	15.00	125.00

8	to	9	ft. specimens, B. & B.....	16.50		

kousa. 15'-20' *Kousa Dogwood*

In this Japanese counterpart of our dogwood the white flowers are borne after the leaves have expanded and thus lengthens the "Dogwood season." Large crimson strawberry-like fruits are attractive to humans and birds alike.

2	to	3	ft.....	.75	6.00	50.00
3	to	4	ft.....	1.25	10.00	75.00
4	to	5	ft.....	1.75	15.00	125.00
5	to	6	ft.....	2.25	20.00	150.00
6	to	8	ft.....	2.75	24.00	

— chinensis. 15'-20' *Chinese Dogwood*

Has still larger flowers: and don't the birds relish the fruits!

3	to	4	ft.....	1.50	12.50	100.00
4	to	5	ft.....	2.00		

mas. 15'-20' *Cornelian Cherry*

Generally the first shrub to show color in spring when the twiggy branches are covered in a yellow mist that gradually becomes brighter. Later the cherry-like fruits are attractive, and palatable. Should be used extensively in border plans.

2	to	3	ft.....	.75	6.00	50.00
3	to	4	ft.....	1.00	7.50	60.00
4	to	5	ft.....	1.50	12.50	100.00
5	to	6	ft.....	2.25	20.00	

paniculata. 10'-12' *Gray Dogwood*

Here is the massing shrub "par excellence." Bordering swampy sections great mounds can be seen with the myriad clusters of white berries on red stems adding color to the countryside. A splendid foliage mass. Good in upland too.

1½	to	2	ft.....	.40	3.00	25.00
2	to	3	ft.....	.50	4.00	30.00
3	to	4	ft.....	.60	5.50	50.00

Each Per 10 Per 100

CORNUS stolonifera. 8'-10'**Red Osier Dogwood**

Valued chiefly for its bright red twigs, a welcome note in the dull winter landscape. Severe annual pruning will bring out the color. Will form a thicket eventually. Loves moisture.

2	to	3	ft.40	3.00
3	to	4	ft.50	4.00

— flaviramea. 6'-8'**Goldentwig Dogwood**

Surprisingly bright yellow bark brightens any corner where this fellow is planted. Smaller than, but good with red osier.

1½	to	2	ft.30	2.50
2	to	3	ft.50	4.00

COTONEASTER acutifolia. 8'-10'**Pekin Cotoneaster**

So hardy that in the colder middle West this shrub is used extensively as a hedge plant and it has just the right spreading twiggy habit to show off the numerous black berries.

2	to	3	ft.60	4.50	30.00
3	to	4	ft.75	6.00	45.00
4	to	5	ft.	1.00	7.50	

adpressa. 9'-12''**Creeping Cotoneaster**

Decidedly a rock plant, where the creeping branches weave in and around intricately forming an interesting mound. The glossy dark green wavy leaves show off the large bright red berries to perfection. Must have a sunny spot.

12	to	15	in., B. & B.	1.50		
----	----	----	--------------	-------	------	--	--

dielsiana. (applanata) 5'-6'**Diel's Cotoneaster**

Has slender arching branches, pinkish flowers and small foliage. Bright red fruits add to its beauty.

1½	to	2	ft.	B. & B.	1.00	7.50
2	to	3	ft.	B. & B.	1.25	10.00

divaricata. 4'-6'**Spreading Cotoneaster**

When studded with scarlet fruits this shrub justifies a choice position. Vigorous and spreading with good clean foliage. Another little known gem, useful as a hedge or specimen.

1½	to	2	ft.	B. & B.	1.50	12.50	110.00
2	to	3	ft.	B. & B.	2.00	15.00	125.00
3	to	4	ft.	B. & B.	2.25	20.00	150.00

foveolata. 8'-10'**Pitted Cotoneaster**

A big fellow with splendid autumn dress, which shows off the glittering black berries. Has interesting irregular growth.

1½	to	2	ft.	B. & B.	1.50	12.50
2	to	3	ft.	B. & B.	2.00	15.00
3	to	4	ft.	B. & B.	2.25	20.00

franchetti. 8'-10'**Franchet Cotoneaster**

HALF EVERGREEN. A handsome member of this splendid family. The deeply veined rich green leaves accentuate the orange-red berries. Red and orange autumn coloring of foliage remains in reasonably good condition almost till spring.

1½	to	2	ft.	B. & B.	1.25	11.00
2	to	3	ft.	B. & B.	1.50	13.50
3	to	4	ft.	B. & B.	2.25	20.00

horizontalis. 2'-3'**Rock Cotoneaster**

HALF EVERGREEN. The flat spray-like branches make an ideal cover for rocks or bank, especially when the deep green box-like leaves are bejewelled with the scarlet berries. Full open sunny place is best. Rather difficult to transplant.

3	in. pots75	6.00
---	----------	-------	-----	------

COTONEASTER

Each Per 10 Per 100

horizontalis perpusilla. 1'-2' Dwarf Rock Cotoneaster

HALF EVERGREEN. Smaller and neater than its parent, but even more effective in rock work. The bright red berries are generally larger, leaves are smaller, but more numerous.

4 in. pots.....	1.25	10.00	75.00
5 in. pots.....	1.50		

hupehensis. 5'-6' Hupeh Cotoneaster

Really a handsome flowering shrub, the willowy branches forming garlands of white in June and then are weighted down with numerous red fruits. Leaves yellow in autumn.

2 to 3 ft.	B. & B.....	2.00		
---------------------	-------------	------	--	--

microphylla thymifolia. 2' Thyme Rockspray

EVERGREEN. A good name, for the tiny leaves seem almost part of the thick twigs. Being very dwarf and compact it is a good rock plant. Red berries are comparatively large.

9 to 12 in.	B. & B.....	1.25	10.00	75.00
12 to 15 in.	B. & B.....	1.50	12.50	

racemiflora soongarica. 6'-7' Coral Fruited Cotoneaster

When seen in full fruit this lovely shrub never fails to excite admiration and cause superlative adjectives. The wide spreading branches are just loaded with coral berries, contrasting vividly with the round gray-green leaves. Plant in open and give space to develop, at least six feet apart.

4 to 5 ft.	B. & B.....	5.00		
5 to 6 ft.	B. & B.....	7.50		

rotundifolia. 6'-7' Roundleaf Cotoneaster

HALF EVERGREEN. Red berries in galore, clean attractive foliage and easily grown; there is no good reason why this shrub should not be extensively planted. Good for hedges.

2 to 3 ft.	B. & B.....	1.25	11.00	90.00
3 to 4 ft.	B. & B.....	1.50	12.50	

CRATAEGUS carrieri. 15'-20' Carrier Hawthorn

Very large round orange-red fruits persist nearly all winter. Has distinctive gray bark: open growth and rather round head.

4 to 6 ft.....	2.00			
6 to 8 ft.....	2.75			

coccinea. 10'-12' Thicket Hawthorn

That is right, a real thicket shrub, for the intricate maze of branches form a veritable barrier. The white May-flowers are large and give place to rather dull brown-red berries. Shiny bright green foliage is almost oval, good till late Fall.

3 to 4 ft.....	1.25	10.00	75.00	
4 to 5 ft.....	1.50	12.50	100.00	
5 to 6 ft.....	2.00	17.50	150.00	
6 to 8 ft.....	2.50	22.50	200.00	

cordata. 20'-25' Washington Thorn

Beginning in May with white flowers followed by brilliant scarlet fruits which last nearly all winter, and throughout its pageant of autumn color this is interesting and beautiful.

3 to 4 ft.....	1.25	10.00	75.00	
-------------------------	------	-------	-------	--

CRATAEGUS

Each Per 10 Per 100

crusgalli. 20'-25'**Cockspur Thorn**

Apart from the mass of white flowers this Thorn is valuable for the shiny rich green leaves that stay fresh until late autumn, then turn orange. If left by birds some fruits will persist until spring. A practical hedge, an interesting tree.

3	to	4	ft.....	1.25	10.00	75.00
4	to	5	ft.....	1.50	12.50	100.00
5	to	6	ft.....	2.00	17.50	150.00
6	to	8	ft.....	2.50	22.50	200.00

mollis. 20'-25'**Downy Hawthorn**

Has large light green thin leaves, showy white red-centered flowers, scarlet pear-shaped fruits. Vigorous and ornamental.

3	to	4	ft.....	1.25	10.00	75.00
4	to	5	ft.....	1.50	12.50	100.00
5	to	6	ft.....	2.00	17.50	150.00

10	to	12	ft. " "	B. & B.....	10.00		

CRYPTOMERIA**japonica dacrydioides. 15'-20'****Fern Cryptomeria**

EVERGREEN. An odd rarity with branches irregularly arranged, all covered with typical thick prickly "leaves" of brownish green. Develops more naturally in a sheltered spot.

3	to	4	ft.	B. & B.....	6.00		
4	to	5	ft.	B. & B.....	8.50		
5	to	6	ft.	B. & B.....	11.00		

— **lobbi. 50'-60'****Lobb Cryptomeria**

EVERGREEN. For this section undoubtedly the best form. It makes an irregular column of dark green, which changes to a warm purple bronze in winter. It wears so well that it has been most effectively used to replace native cedars that succumb to civilization. It is difficult to imagine any tree that has more dignity and inherent character than this. An avenue of large trees creates a most inspiring effect. A warm, moist, well-drained spot is ideal, grows late in Fall.

2	to	3	ft.	B. & B.....	2.25	20.00	150.00
3	to	4	ft.	B. & B.....	3.25	27.50	225.00

DAVIDIA *involucrata.* 40'-50'

Dove Tree

Eventually forms a pyramidal tree with large handsome foliage, but the chief distinction is the long graceful creamy white floral bracts hanging from the branches, a lovely picture that few have seen. Needs a sheltered spot, and worth it.

12	to	15 in. pot grown.....	10.00		
----	----	-----------------------	-------	--	--

DEUTZIA *gracilis.* 3'-4'

Slender Deutzia

One of the most useful of all low shrubs. A profusion of snow white flowers cover the round topped bush in May.

1½	to	2 ft.....	.40	3.00	25.00
2	to	2½ ft.....	.50	4.00	

magnifica. 6'-8'

Showy Deutzia

Really magnificent in bloom, has great clusters of white flowers, more showy and desirable than any other variety.

2	to	3 ft.....	.40	3.00	25.00
3	to	4 ft.....	.50	4.00	30.00

DEUTZIA				Each	Per 10	Per 100
scabra crenata. 6'-7'				Scallop leaf Deutzia		
Rather stiff branches set off the pinkish fringed flowers.						
2	to	3	ft.....	.40	3.00	25.00
3	to	4	ft.....	.50	4.00	30.00
— Pride of Rochester. 8'-9'				Pink Deutzia		
Deservedly popular, this husky fellow produces clouds of tassel-like flowers in May which last for some weeks. The usual blush coloring sometimes deepens to a real pink.						
2	to	3	ft.....	.40	3.00	25.00
3	to	4	ft.....	.50	4.00	30.00
4	to	5	ft.....	.60	5.00	40.00
DIERVILLA trifida. 3'-4'				Dwarf Bush Honeysuckle		
So called because the yellow mid-summer flowers somewhat resemble the honeysuckle. In landscape planting it is a most useful low bush for shade, where autumn color shows well. Soon forms a sightly mass by underground stems.						
1½	to	2	ft.....	.50	4.00	35.00
2	to	2½	ft.....	.60	5.00	
ELAEAGNUS longipes. 5'-6'				Gumi - Cherry Eleagnus		
Hot dry sunny place seems to perfect this shrub. Except for their fragrance the yellow flowers would be unnoticed, but the long stemmed orange-red fruits are most decorative.						
1½	to	2	ft.....	.50	4.00	30.00
2	to	3	ft.....	.60	5.00	40.00
umbellata. 10'-12'				Autumn Eleagnus		
As with the "Gumi" this big brother has gray-green leaves covered with a silvery dust. This same covering spreads even to the small encrusted red berries. Indifferent to drought.						
2	to	3	ft.....	.50	4.00	
3	to	4	ft.....	.60	5.00	
ENKIANTHUS campanulatus. 12'-15'				Redvein Enkianthus		
Something to enthuse over! Without artificial shaping will develop into a handsome large shrub well clothed with clean foliage which turns brilliant red in fall. Bunches of nodding flowers are borne on the whorled branches, and these red-veined white cups are quite unlike any other flower.						
2	to	3	ft. B. & B.....	3.50	30.00	
3	to	4	ft. B. & B.....	4.50	40.00	
EUONYMUS alatus. 7'-8'				Winged Euonymus		
Pink and crimson in autumn, interesting corky branches in winter, this handsome interesting shrub is all too little known.						
2	to	3	ft.....	.50	4.00	30.00
3	to	4	ft.....	.65	5.50	45.00
4	to	5	ft.....	.90	8.00	70.00
5	to	6	ft.....	1.25	10.00	90.00
europaeus. 15'-20'				European Burning Bush		
Has pink fruits, green bark, green leaves and good fall color.						
3	to	4	ft.....	.50	4.00	
4	to	5	ft.....	.65	5.50	
patens. 8'-10'				Spreading Euonymus		
HALF-EVERGREEN. If in doubt plant this shrub - it seems contented in all places and conditions. The glossy 3-inch wavy leaves become stained with purple as autumn progresses and the orange fruits hang on almost until spring. Makes a broad round specimen, perfectly shaped for hedges.						
15	to	18	in.....	.60	5.00	40.00
1½	to	2	ft.....	.70	6.00	50.00
2	to	3	ft.....	.80	7.00	60.00
3	to	4	ft.....	1.25	11.00	

EUONYMUS		Each	Per 10	Per 100
radicans. Vine, 15'-20'			Wintercreeper	
EVERGREEN. Makes good cover for wall or ground.				
2 yr.....		.40	3.00	25.00
— coloratus. 4'-6'			Purple Wintercreeper	
EVERGREEN. For a ground cover in shade there are few things to equal this. The long narrow leaves are rosy-purple underneath and the veins pencilled in gray. Most adaptable.				
2 yr.....		.40	3.00	25.00
— vegetus. Vine, 12'-15'			Bigleaf Wintercreeper	
EVERGREEN. Generally conceded to be the most reliable self-clinging evergreen vine in the north. From the shrubby bush long basal shoots climb on almost any support. Has thick dull green round leaves and orange fruits in profusion.				
2 yr.....		.40	3.00	25.00
3 yr.....		.50	4.00	30.00
4 yr.....		.75	6.00	45.00
EVODIA chinensis. 20'-25'			Evodia	
A small tree with compound leaves, tiny pinkish white flowers in small clusters followed by reddish seed pods. Scarce.				
1½ to 2 ft.....		.60	5.00	
2 to 3 ft.....		.90	7.50	
FAGUS americana. 80'-100'			American Beech	
Grows slowly, but a handsome native, whose clean gray-barked trunks are familiar in light woods. Prefers well drained alkaline soil and spring planting. Truly a beautiful tree.				
2 to 3 ft.	B. & B.....	2.00	15.00	125.00
3 to 4 ft.	B. & B.....	2.25	20.00	150.00
sylvatica. 80'-100'			European Beech	
Has smaller darker leaves and grows even more slowly than the native. Likes similiar treatment, shade while young.				
2 to 3 ft.	B. & B.....	2.00	15.00	125.00
3 to 4 ft.	B. & B.....	2.25	20.00	150.00
4 to 5 ft.	B. & B.....	3.00		
— asplenifolia. 60'-70'			Fernleaf Beech	
Well named for the deeply cut long narrow graceful leaves.				
2 to 3 ft.	B. & B.....	3.50	30.00	
— fastigiata. 40'-50'			Upright Beech	
Not considering time this would be an excellent substitute for the Lombardy Poplar. Inspiring when mature. Scarce.				
1½ to 2 ft	B. & B.....	2.75	22.50	
2 to 3 ft	B. & B.....	3.50	30.00	
— pendula. 50'-60'			Weeping Beech	
Of all "weeping" trees this is the finest, the branches descend to the ground in broad tortuous curves making a character specimen even in winter. Effective on rolling contours.				
2 to 3 ft.	B. & B.....	3.00		
3 to 4 ft.	B. & B.....	5.00		
4 to 5 ft.	B. & B.....	7.50		
— riversi. 70'-80'			Rivers Purple Beech	
The best purple leaf tree, grafted. Handsome and dignified.				
2 to 3 ft.	B. & B.....	3.00	25.00	225.00
3 to 4 ft.	B. & B.....	4.50	42.50	375.00
4 to 5 ft.	B. & B.....	6.50	57.50	500.00
5 to 6 ft.	B. & B.....	9.00	80.00	725.00

Each Per 10 Per 100

FORSYTHIA intermedia. 8'-9'**Border Golden Bell**

Almost synonymous with April, and the long branches are useful for winter forcing. This form has arching branches.

2	to	3	ft.....	.40	3.00	25.00
3	to	4	ft.....	.50	4.00	30.00
4	to	5	ft.....	.60	5.00	

— spectabilis. 8'-9'**Showy Border Golden Bell**

Here is the most spectacular member of the family, with larger deeper yellow flowers in profusion. Indispensable.

1 ½	to	2	ft.....	.30	2.50	20.00
2	to	3	ft.....	.40	3.00	25.00
3	to	4	ft.....	.50	4.00	30.00
4	to	5	ft.....	.60	5.00	40.00

suspensa. 6'-8'**Weeping Golden Bell**

Much more graceful, particularly if allowed to hang over a retaining wall. The willowy branches root at the tips and form an immense mass in a few years. Effective on walls.

1 ½	to	2	ft.....	.30	2.50	20.00
2	to	3	ft.....	.40	3.00	25.00
3	to	4	ft.....	.50	4.00	30.00
4	to	5	ft.....	.60	5.00	

viridissima. 8'-9'**Green Stem Forsythia**

The last to flower. Vigorous, upright stems have green bark.

1 ½	to	2	ft.....	.30	2.50	20.00
2	to	3	ft.....	.40	3.00	25.00
3	to	4	ft.....	.50	4.00	30.00
4	to	5	ft.....	.60	5.00	40.00

FRAXINUS americana. 80'-100'**White Ash**

Grows rapidly in moist lime soil. The compound leaves take on a distinct metallic purple hue before yellowing.

10	to	12	ft., 1 ½ to 2 in.....	3.00		
12	to	14	ft., 2 to 2 ½ in.....	4.50		

GAULTHERIA procumbens. 4"-6"**Wintergreen**

EVERGREEN. Beloved denizen of the cool woods, making a solid mat with its leathery inch long oval leaves, to display the waxy white nodding urn-shaped flowers followed by the familiar cherry-red aromatic berries. Acid soil, please.

Nursery clumps25	2.10	15.00
----------------------	-----	------	-------

GENISTA pilosa. 1'-2'**Silky Leaf Broom**

Will convert a hot, stony bank into a blanket of brilliant yellow in May and June. The dark, neat foliage is attractive.

3 yr., 9 to 12 in.....	1.25	9.00	75.00
------------------------	------	------	-------

sagittalis. 9"-12"**Arrowhead Broom**

Low almost prostrate flat jointed stems curve up to hold the little bunches of clear yellow pea-blossoms in June and July, and afterwards the silky seed pods hold attention.

3 yr90	7.50	60.00
------------	-----	------	-------

GINKGO biloba. 100'**Maidenhair Tree**

Full of interest, historically and physically, a grand old patriarch of a bygone age. Practically insect, dust and disease proof; good for city planting, but oh! how slowly it grows.

6	to	8	ft.....	3.50	30.00	
8	to	10	ft., 1 ¼ to 1 ½ in.....	4.50	40.00	

GYMNOCLADUS dioica. 60'-80'**Kentucky Coffee Tree**

Gnarled branchlets and thick branches create a picture of age.

2	to	3	ft.....	.90	7.50	
3	to	4	ft.....	1.25	11.00	
4	to	5	ft.....	1.50		

	Each	Per 10	Per 100
--	------	--------	---------

HALESIA tetraptera. 20'-25'*Great Silver Bell*

During May a lovely thing indeed. Myriads of little pearly bells dangle from the reaching branches, to be followed by interesting brown winged seeds. Will yet come into its own.

3	to	4	ft.....	.60	5.00	40.00
4	to	5	ft.....	.75	6.00	50.00
5	to	6	ft.....	.90	8.50	75.00
6	to	8	ft.....	1.35	12.50	100.00

HAMAMELIS mollis. 15'-25'*Chinese Witch Hazel*

Every February this glorious shrub surprises us with its fragrant ribbon-like flowers of spun gold draped throughout the branches. Always a cheerful spot in a drab winterscape, even in zero weather. In summer the handsome velvety gray-green foliage clothes this well shaped bush, which seems happiest in slightly moist place. Indispensable for the border.

1½	to	2	ft.....	.90	7.50	
2	to	3	ft.....	1.25	10.00	

vernalis*Vernal Witch Hazel*

Not so showy but sweetly fragrant these pale yellow flowers mature in January, opening and closing with warm and cold spells. The small foliage is smooth but deeply veined.

There is also a form with flowers stained with brownish-red.

1½	to	2	ft.....	.60	5.00	
2	to	3	ft.....	.75	6.00	

virginiana. 15'-25'*Witch Hazel*

The fringy light yellow flowers are conspicuous in November brightening our native woods. Splendid in mass when the rich yellow autumn color is effective bordering swamps.

1½	to	2	ft.....	.40	3.00	25.00
2	to	3	ft.....	.60	5.00	40.00
3	to	4	ft.....	.70	6.00	50.00
4	to	5	ft.....	.80	7.00	60.00

HEDERA helix. 60'-75'*English Ivy*

EVERGREEN. Where hardy the finest ground or wall cover. For this section it is best to plant where morning sun does not strike. In winter the rich green foliage is beautifully veined with white. Once established it becomes ageless.

3 in. pots30	2.50	20.00
------------	-------	-----	------	-------

— baltica. 30'-40'*Baltic Ivy*

Quite similar to the English Ivy, but has smaller leaves veined white, which in winter assume a purplish tone. Being really hardy this is more reliable for general use. Clings tightly.

4 in. pots60	5.00	40.00
------------	-------	-----	------	-------

— conglomerata. 1½'-2'*Bunchleaf Ivy*

The curiously twisted stems are crowded with small wavy leaves. Looks perfectly at home in the rock garden where it never grows out of bounds, introduces a weathered effect.

4 year75	6.00	
--------	-------	-----	------	--

— gracilis. 40'-50'*Small Leaf English Ivy*

A more refined offspring from the English Ivy. The slender vines are not so densely clothed with foliage which is deliciously marbled white and seems hardier than the type.

4 in. pots60	5.00	40.00
------------	-------	-----	------	-------

— Lexington form.

After many years of trial and observation this form can be pronounced as quite hardy as it withstands the severe weather of New England. It clings easily to almost any support and the rather small leaves make an attractive covering.

4 in. pots75	6.00	50.00
------------	-------	-----	------	-------

	Each	Per 10	Per 100
HIBISCUS syriacus. 10'-12' <i>Rose of Sharon</i>			
Has a characteristic upright habit useful in formal work. Plant in spring as it grows until late autumn. Flowers August.			
Ardens, Purple			
Rubens, Red			
3 to 4 ft.....	.50	4.00	
4 to 5 ft.....	.60	5.00	
Peoniflorus, Pink			
W. R. Smith, White, single			

HYDRANGEA**arborescens grandiflora. 4'-5'** *Snow Hill Hydrangea*

The rather straggling habit is more than offset in July and August by the fine display of white flowers borne in large bunches. Prune severely for best results. Useful in shade.

1½ to 2 ft.....	.30	2.50	20.00
2 to 3 ft.....	.40	3.00	25.00

paniculata grandiflora. 8'-10' *Peegee*

Almost everyone knows the great heads of white flowers that gradually turn pink when cut and dried for decoration.

2 to 3 ft.....	.50	4.00	30.00
3 to 4 ft.....	.60	5.00	

petiolaris. Vine, 35'-40' *Climbing Hydrangea*

Until it takes on some age the sterling character of this little known climbing shrub is not appreciated. The large round leaves shingle the wall forming a perfect background for the flat topped bunches of fragrant white flowers in early summer. The old stems have brown bark. Prefers north wall.

5 yr. B. & B.....	1.75	15.00	
-------------------	------	-------	--

quercifolia. 3'-4' *Oak Leaf Hydrangea*

Glorious in its autumn dress when the large oak-like leaves assume brilliant colors. The white flowers gradually turn purplish when old: worthwhile shrub, semi-shade or woods margin.

1 to 1½ ft.....	.50	4.00	30.00
1½ to 2 ft.....	.60	5.00	40.00
2 to 2½ ft.....	.75	6.50	55.00

HYPERICUM aureum. 3'-4' *Golden St. Johnswort*

Most welcome in July and August when the brilliant yellow flowers are at their best. Even in a dry rocky place will maintain its neat cheerful habit and covering of blue green foliage.

2 to 3 ft.....	.50	4.00	30.00
3 to 4 ft.....	.60	5.00	40.00

moserianum. 12"-15" *Goldflower*

HALF EVERGREEN. Many reddish arching stems arise from the ground, each well laden in midsummer with lovely golden yellow flowers with a soft brush-like centre. Will well repay a little shelter. Very useful in herbaceous border.

2 year.....	.40	3.00	25.00
-------------	-----	------	-------

patulum Forresti. 12"-18" *Forrest Goldflower*

Even larger flowers, two inches across, terminate the wiry stems, and the clean smooth leaves are larger too. The glorious golden flowers continue open from June to September.

2 year.....	.40	3.00	25.00
-------------	-----	------	-------

ILEX crenata. 12'-15' *Japanese Holly*

EVERGREEN. Has thick dark lustrous green leaves of variable size never larger than a privet, really quite unlike a holly. Forms a fine large bush for permanent planting and does not object to some shade. Black berries not noticeable.

1½ to 2 ft.	B. & B.....	2.75	22.50	200.00
2 to 3 ft.	B. & B.....	4.00	35.00	300.00
3 to 4 ft.	B. & B.....	5.25	45.00	

ILEX

EachPer 10Per 100

crenata bullata. 3'-4'

Boxleaf Japan Holly

EVERGREEN. Think of this as a dwarf boxwood which it resembles both in habit and foliage. Any plant lover cannot help but enthuse over an old specimen broader than high well clothed in roundish convex leaves that withstand the hardest winters. Eventually this will be the recognized substitute for dwarf boxwood edging in cold climates.

250.00 thousand

4 to 5 ft.	B. & B.....	6.50	60.00	
5 to 6 ft.	B. & B.....	9.00		

verticillata. 8'-10'

Common Winterberry

One of the few native shrubs that carries its bright red fruits practically throughout winter. While generally found in swampy ground it seems perfectly happy when high and dry. Plant in groups to insure a crop of berries. It's a holly!

1½ to 2 ft.....	.50	4.00	30.00
2 to 3 ft.....	.60	5.00	40.00
3 to 4 ft.....	.75	6.00	50.00
4 to 5 ft.....	1.00	9.00	75.00

INDIGOFERA amblyantha. 5'-6'

Pink Indigo

Beginning in July clusters of pink pea-blossoms bejewel the arching branches until October. Airy bright green foliage creates a soft effect often lacking in small border planting.

1½ to 2 ft.....	.60	5.00	45.00
2 to 3 ft.....	.75	6.50	
3 to 4 ft.....	.90		

INDIGOFERA

Each Per 10 Per 100

gerardiana. 3'-4'*Himalayan Indigo*

Rosy purple flowers and a compact much branching habit are main differences of this form. Will become almost herbaceous in cold exposures but improves every year.

2 year 1½ to 2 ft..... .75 6.50

kirilowi. 3'-4'*Kirilow Indigo*

Very small rose colored flowers in dense bunches brighten up the compact bush in July. Withstands drought and heat.

2 year 2 to 2½ ft..... .75 6.50

potanini. 5'-6*Potanin Indigo*

More upright and compact than the former with slightly larger pale pink flowers. An occasional freeze back helps.

1½ to 2 ft..... .60 5.00

2 to 3 ft..... .75 6.50

JASMINUM nudiflorum. 4'-5'*Winter Jasmine*

Most effective when the long slender viney branches are trained on a sunny wall to display the bright starry yellow bells in April and sometimes during a warm February. As a shrub the branches will root as they spread, into a mass.

2 yr..... .50 4.00 30.00

JUNIPERUS. ALL EVERGREEN.*Junipers and Cedars***chinensis.** 18'-20'*Chinese Juniper*

A formal narrow cone of gray-green foliage assuming more character with age. Reliable and useful even in cold climate.

2 to 2½ ft. B. & B..... 2.00 17.50 125.00

2½ to 3 ft. B. & B..... 2.50 22.50 175.00

8 to 10 ft. B. & B..... 12.00 110.00

JUNIPERUS. ALL EVERGREEN. Each Per 10 Per 100
chinensis fortunei. 12'-15' *Fortune Juniper*

Quite distinct with its informal broadly pyramidal outline, and gray-green foliage this is most useful in mixed planting.

1½ to 2 ft.	B. & B.....	1.50	12.50	100.00
2 to 2½ ft.	B. & B.....	2.00	17.50	125.00
2½ to 3 ft.	B. & B.....	2.50	22.50	175.00
3 to 4 ft.	B. & B.....	3.25	27.50	225.00
4 to 5 ft.	B. & B.....	4.50	40.00	
5 to 6 ft.	B. & B.....	6.00		

— **japonica. 4'-5'** *Japanese Juniper*

Being extremely hardy this low spreading bush retains its handsome rich green coloring throughout the coldest winter.

Grows slowly and looks at home in a large rock garden.

15 to 18 in.	B. & B.....	1.50	12.50	100.00
1½ to 2 ft.	B. & B.....	2.00	15.00	125.00
2 to 2½ ft.	B. & B.....	2.75	22.50	200.00
2½ to 3 ft.	B. & B.....	3.50	30.00	
3 to 3½ ft.	B. & B.....	4.50	40.00	

— — **globes** Formal compact spheres. *Trimmed Globes*

15 to 18 in.	B. & B.....	2.00	15.00	125.00
1½ to 2 ft.	B. & B.....	3.00	27.50	225.00

— — **aurea. 3'-4'** *Golden Japan Juniper*

Very bright yellow scaly leaves cover this little, slow grower.

12 to 15 in.	B. & B.....	2.00	15.00	
--------------	-------------	------	-------	--

— — **aureo variegata. 4'-5'** *Variegated Japan Juniper*

An odd form intermediate, both in color and growth, between the green type and golden variety.

12 to 15 in.	B. & B.....	1.50	12.50	
15 to 18 in.	B. & B.....	2.00	15.00	
1½ to 2 ft.	B. & B.....	2.75	22.50	
2 to 2½ ft.	B. & B.....	3.00	27.50	
2½ to 3 ft.	B. & B.....	4.50	40.00	

— **neaboriensis. 8'-10'** *Conical Chinese Juniper*

Possibly the most formal cone-shaped Juniper we have. Although never trimmed the neat tight pyramid always looks as though just "groomed." A perfect accent or tub plant.

2 to 2½ ft.	B. & B.....	2.00	17.50	125.00
2½ to 3 ft.	B. & B.....	2.50	22.50	175.00
3 to 4 ft.	B. & B.....	3.25	27.50	225.00
4 to 5 ft.	B. & B.....	4.50	40.00	350.00
5 to 6 ft.	B. & B.....	5.50	50.00	450.00
6 to 8 ft.	B. & B.....	7.50		

— **oblonga. 10'-12'** *Oblonga Juniper*

Known as "sylvestris" in the South this plant has a wide range for it is extremely hardy. From the broad round base a leader shoots up to form a feathery irregular pyramid. In winter the gray foliage is tinted with frosted purple-lavender.

2 to 2½ ft.	B. & B.....	2.00	17.50	125.00
2½ to 3 ft.	B. & B.....	2.50	22.50	175.00
3 to 4 ft.	B. & B.....	3.25	27.50	225.00
4 to 5 ft.	B. & B.....	4.50	40.00	350.00
5 to 6 ft.	B. & B.....	5.50	50.00	450.00
6 to 8 ft.	B. & B.....	7.50	65.00	600.00

JUNIPERUS. ALL EVERGREEN. Each Per 10 Per 100

chinensis pfitzeriana. 5'-6'

Pfitzer Juniper

Naturally develops into a low spreading vase-shaped bush formed by handsome plum-like branches. Being resistant to cold, dust, smoke and drought it is widely used in city plantings, and deserves its popularity. Another indispensable.

12 to 15 in.	B. & B.....	1.00	7.50	50.00
15 to 18 in.	B. & B.....	1.25	9.00	75.00
1½ to 2 ft.	B. & B.....	1.50	12.50	100.00
2 to 2½ ft.	B. & B.....	2.00	15.00	125.00
2½ to 3 ft.	B. & B.....	2.75	22.50	200.00
3 to 3½ ft.	B. & B.....	4.00	35.00	300.00
3½ to 4 ft.	B. & B.....	5.50	50.00	450.00
4 to 4½ ft.	B. & B.....	7.50	67.50	600.00

— *sargentii*. 2'-2½'

Sargent Juniper

Prostrate in habit, this hardy ground cover quickly forms a mat of bright grass-green foliage in a sunny spot. Very hardy.

12 to 15 in.	B. & B.....	1.50	12.50	100.00
15 to 18 in.	B. & B.....	1.75	15.00	125.00
1½ to 2 ft.	B. & B.....	2.25	20.00	150.00
2 to 2½ ft.	B. & B.....	3.00	27.50	225.00
2½ to 3 ft.	B. & B.....	4.50		

communis. 3'-4'

Common Juniper

Most effective in "natural" plantings in combination with upright cedars, black-haws and bayberry or in large masses.

12 to 18 in.	B. & B.....	.75	6.00	50.00
1½ to 2 ft.	B. & B.....	1.25	10.00	75.00
2 to 2½ ft.	B. & B.....	1.50	12.50	100.00
2½ to 3 ft.	B. & B.....	2.25	20.00	150.00
3 to 3½ ft.	B. & B.....	2.75	22.50	200.00

— *aurea*. 2'-2½'

Golden Common Juniper

Much lower habit this bright yellow form is often seen in "foundation" plantings where a transitional line is needed.

12 to 18 in.	B. & B.....	1.25	10.00	75.00
1½ to 2 ft.	B. & B.....	1.50	12.50	100.00
2 to 2½ ft.	B. & B.....	2.25	20.00	
2½ to 3 ft.	B. & B.....	2.75	22.50	

— *depressa (canadensis)*. 3'-4'

Canada Juniper

Rather a dusty green commonplace shrub: good for massing.

12 to 18 in.	B. & B.....	.75	6.00	50.00
1½ to 2 ft.	B. & B.....	1.25	10.00	75.00
2 to 2½ ft.	B. & B.....	1.50	12.50	100.00
2½ to 3 ft.	B. & B.....	2.25	20.00	150.00
3 to 3½ ft.	B. & B.....	2.75	22.50	200.00

— *hibernica*. 7'-8'

Irish Juniper

Little spires of green that effectively "break up" an otherwise monotonous effect. An occasional piece in rocks is good.

1½ to 2 ft.	B. & B.....	1.25	10.00	
2 to 2½ ft.	B. & B.....	1.50	12.50	

— *montana*. 1½'

Mountain Juniper

In its native rocky home the large perfectly flat carpets of cheerful green are strikingly effective. The prostrate branches just reach out horizontally about a foot off the ground and cover surprisingly large areas. This true variety is scarce.

12 to 18 in.	B. & B.....	1.25	10.00	75.00
1½ to 2 ft.	B. & B.....	2.00	15.00	
2 to 2½ ft.	B. & B.....	2.25	20.00	
2½ to 3 ft.	B. & B.....	3.00	25.00	

JUNIPERUS ALL EVERGREEN Each Per 10 Per 100**communis suecica nana. 3'-4'** *Dwarf Swedish Juniper*

Compact dwarf columus of light green. Good rock plant.

15	to	18 in.	B. & B.....	1.25	10.00	75.00
1½	to	2 ft.	B. & B.....	1.50	12.50	100.00
2	to	2½ ft.	B. & B.....	2.00	15.00	

conferta. 9"-12" *Shore Juniper*

For a Juniper has unusually large bloomy black berries and half inch spiny pointed leaves. Rather difficult to transplant but useful for seashore planting. Bright green in winter.

12	to	15 in.	B. & B.....	1.25	10.00	
15	to	18 in.	B. & B.....	1.75	15.00	

excelsa stricta. 5'-6' *Spiny Greek Juniper*

These blue-gray "blobs" are so often seen in window boxes formal gardens and mixed foundation plantings. Useful.

9	to	12 in.	B. & B.....	.85	6.50	50.00
12	to	15 in.	B. & B.....	1.00	7.50	65.00
15	to	18 in.	B. & B.....	1.50	12.50	85.00
1½	to	2 ft.	B. & B.....	1.75	15.00	100.00
2	to	2½ ft.	B. & B.....	2.25	20.00	135.00
2½	to	3 ft.	B. & B.....	3.00	25.00	200.00
3	to	4 ft.	B. & B.....	4.50	40.00	

horizontalis. 1'-2' *Creeping Savin*

Has long prostrate branches that crawl over and around stones to spread its green plumes. A sunny rocky slope with plenty of room is an ideal spot.

1	to	1½ ft.	B. & B.....	1.50	12.50	100.00
1½	to	2 ft.	B. & B.....	2.00	17.50	150.00
2	to	2½ ft.	B. & B.....	2.75	22.50	200.00
2½	to	3 ft.	B. & B.....	3.50	30.00	
3	to	3½ in.	B. & B.....	4.50	40.00	

— Bar Harbor. 6"-12" *Bar Harbor Juniper*

Of all ground Junipers we rate this first, it actually "hugs" the ground and makes a velvety mat of gray-green foliage which in winter changes to a most attractive metallic purple and lavender coloring. Made to order for the rock garden.

12	to	15 in.	B. & B.....	1.50	12.50	100.00
15	to	18 in.	B. & B.....	2.00	17.50	150.00
1½	to	2 ft.	B. & B.....	3.00	27.50	225.00

— douglasi. 1' *Waukegan Juniper*

Rather slow irregular growth, steely blue foliage turning purple in winter. Irregular trailing habit effective in rocks.

1	to	1½ ft.	B. & B.....	1.50	12.50	100.00
1½	to	2 ft.	B. & B.....	2.25	20.00	150.00
2	to	2½ ft.	B. & B.....	2.75	22.50	200.00
2½	to	3 ft.	B. & B.....	3.50	30.00	275.00
3	to	3½ ft.	B. & B.....	4.50	40.00	

— glauca. 1' *Blue Creeping Savin*

Quite an improvement upon the green type, both in neatness and coloring. In summer it is blue gray, purple in winter.

1	to	1½ ft.	B. & B.....	1.50	12.50	100.00
1½	to	2 ft.	B. & B.....	2.25	20.00	150.00
2	to	2½ ft.	B. & B.....	2.75	22.50	200.00
2½	to	3 ft.	B. & B.....	3.50	30.00	275.00
3	to	3½ ft.	B. & B.....	4.50	40.00	350.00
3½	to	4 ft.	B. & B.....	5.50		

JUNIPERUS ALL EVERGREEN Each Per 10 Per 100
horizontalis plumosa. 1'-2' *Plumed Spreading Juniper*

Even a single plant will make a neat low dense mat of soft silver-green which gradually takes on a rich deep lavender purple color with colder weather. Truly a handsome thing.

12 to 15 in.	B. & B.....	1.00	9.00	75.00
15 to 18 in.	B. & B.....	1.50	12.50	90.00
1½ to 2 ft.	B. & B.....	2.00	15.00	125.00
2 to 2½ ft.	B. & B.....	2.75	22.50	200.00
2½ to 3 ft.	B. & B.....	3.50	30.00	275.00
3 to 3½ ft.	B. & B.....	4.50	40.00	350.00
3½ to 4 ft.	B. & B.....	6.50	60.00	

hudsonica. 1'-2' *Hudson Juniper*

Generally similar to "plumosa" but not quite so well clothed.

1½ to 2 ft.	B. & B.....	2.00	15.00	125.00
2 to 2½ ft.	B. & B.....	2.25	20.00	150.00
2½ to 3 ft.	B. & B.....	3.00	22.50	200.00
3 to 3½ ft.	B. & B.....	4.50	40.00	350.00
3½ to 4 ft.	B. & B.....	6.00		

sabina. 5'-6' *Savin*

A vase shape bush of dark green, dependable in exposures.

12 to 15 in.	B. & B.....	1.00	7.50	60.00
15 to 18 in.	B. & B.....	1.50	12.50	90.00
1½ to 2 ft.	B. & B.....	2.00	15.00	125.00
2 to 2½ ft.	B. & B.....	2.25	20.00	

— **tamariscifolia. 1'-2'** *Tamarix Juniper*

Another spreading type useful for ground cover in open spots.

The gray-green foliage and short branchlets create a pleasing soft feathery texture. The peculiar flat effect is interesting.

12 to 15 in.	B. & B.....	1.50	12.50	100.00
15 to 18 in.	B. & B.....	2.00	15.00	125.00
1½ to 2 ft.	B. & B.....	2.25	20.00	150.00
2 to 2½ ft.	B. & B.....	3.00	27.50	225.00
2½ to 3 ft.	B. & B.....	3.50	30.00	275.00
3 to 3½ ft.	B. & B.....	4.50	40.00	350.00

squamata. 1'-2' *Scaly Leaf Juniper*

Stays "good" indefinitely and is one of the finest winter evergreens. All the creeping branches are well clothed with scaly gray-green foliage equally resistant to heat or cold.

12 to 15 in.	B. & B.....	2.00	15.00	125.00
15 to 18 in.	B. & B.....	2.75	22.50	200.00
1½ to 2 ft.	B. & B.....	3.50	30.00	275.00
2 to 2½ ft.	B. & B.....	4.50	40.00	350.00
2½ to 3 ft.	B. & B.....	5.50	50.00	

— **meyeri. 6'-8'** *Meyer Juniper*

Stiff banches and large "leaves" tend to create a coarse rugged texture quite unlike any other plant. Altho bushy it has an interesting outline and the silvery blue summer dress becomes tinged with a lavender sheen as winter approaches.

9 to 12 in.	B. & B.....	1.00	7.50	50.00
12 to 15 in.	B. & B.....	1.25	10.00	75.00
15 to 18 in.	B. & B.....	1.75	12.50	100.00
1½ to 2 ft.,	B. & B.....	2.25	20.00	150.00
2 to 2½ ft.	B. & B.....	3.50	30.00	275.00

— **variegata. 1'-2'** *Variegated Scaly Juniper*

But for the occasional sprays of creamy white, this variety is similar to the green type, remaining just as good in winter.

12 to 15 in.	B. & B.....	2.00	15.00	125.00
15 to 18 in.	B. & B.....	2.75	22.50	200.00
1½ to 2 ft.	B. & B.....	3.50	30.00	275.00
2 to 2½ ft.	B. & B.....	4.25	37.50	350.00
2½ to 3 ft.	B. & B.....	5.00	45.00	

JUNIPERUS ALL EVERGREEN. Each Per 10 Per 100

virginiana. 30'-50'
Redcedar

Our well loved native Cedar which has given rise to all the following variations. An occasional trimming will improve it.

5	to	6	ft.	B. & B.....	6.00	52.50
6	to	8	ft.	B. & B.....	7.50	67.50
8	to	10	ft.	B. & B.....	9.00	

— albospica. 12'-15'
Variegated Redcedar

Meaning that silvery white sprays are fairly evenly interspersed among the dark green foliage, a surprising effect.

4	to	5	ft.	B. & B.....	5.00	45.00
5	to	6	ft.	B. & B.....	6.50	60.00
6	to	8	ft.	B. & B.....	8.50	75.00
8	to	10	ft.	B. & B.....	10.00	

— burki. 12'-15'
Burk's Cedar

Forms a well shaped dense column of silvery gray until frost, then becomes overlaid with a flush of purple. Handsome.

2½	to	3	ft.	B. & B.....	2.50	22.50	175.00
3	to	4	ft.	B. & B.....	3.25	27.50	225.00
4	to	5	ft.	B. & B.....	4.50	40.00	350.00
5	to	6	ft.	B. & B.....	5.50	50.00	450.00
6	to	8	ft.	B. & B.....	7.50	67.50	600.00

— cannarti. 20'-25'
Cannart Cedar

Like a true aristocrat this handsome Cedar is unobtrusively dignified and dislikes any fussy trimming that would interfere with its natural character. Columnar in outline, the surface is broken by short lateral branches making black shadow spots on a very deep green mantle of foliage. In autumn when the crop of steely blue berries are in evidence, it is almost gay enough to be saved for Christmas decoration.

2	to	2½	ft.	B. & B.....	2.00	17.50	125.00
2½	to	3	ft.	B. & B.....	2.50	22.50	175.00
3	to	4	ft.	B. & B.....	3.25	27.50	225.00
4	to	5	ft.	B. & B.....	4.50	40.00	350.00
5	to	6	ft.	B. & B.....	5.50	50.00	450.00
6	to	8	ft.	B. & B.....	7.50		
8	to	10	ft.	B. & B.....	12.00		

— elegantissima. 15'-18'
Goldtip Redcedar

Well named from the bright yellow branchlets, turning bronzy in winter, really a warm color that doesn't look "dead."

2½	to	3	ft.	B. & B.....	2.50	22.50	
3	to	4	ft.	B. & B.....	3.25	27.50	225.00
4	to	5	ft.	B. & B.....	4.50	40.00	
5	to	6	ft.	B. & B.....	5.50	50.00	
6	to	8	ft.	B. & B.....	7.50		

— glauca. 20'-25'
Silver Redcedar

One might call this the blue counterpart of the Cannart Cedar. The whole irregular column is richly clad in a blue-gray mantle which among other evergreens gives a frosted effect.

1½	to	2	ft.	B. & B.....	1.75	12.50	100.00
2	to	2½	ft.	B. & B.....	2.00	17.50	125.00
2½	to	3	ft.	B. & B.....	2.50	22.50	175.00
3	to	4	ft.	B. & B.....	3.25	27.50	225.00
4	to	5	ft.	B. & B.....	4.50	40.00	350.00
5	to	6	ft.	B. & B.....	5.50	50.00	450.00
6	to	8	ft.	B. & B.....	7.50	67.50	
8	to	10	ft.	B. & B.....	12.00		

JUNIPERUS ALL EVERGREEN. Each Per 10 Per 100
virginiana globosa. 4'-5' *Globe Cedar*

Needs no trimming to keep it dwarf and compact. Some interesting shapes are assumed, as the plants mature.

12 to 15 in.	B. & B.....	2.25	20.00	150.00
15 to 18 in.	B. & B.....	3.00	27.50	
1½ to 2 ft.	B. & B.....	4.00	35.00	
2 to 2½ ft.	B. & B.....	5.00		
2½ to 3 ft.	B. & B.....	6.00		
3 to 3½ ft.	B. & B.....	7.50		

— **keteleeri. 18'-20'** *Keteleer Cedar*

Handsome dark green leaves set off large slaty blue berries which are unusually decorative in winter. Develops into a fairly thick column that is compact right to the broad base.

2 to 2½ ft.	B. & B.....	2.00	17.50	125.00
2½ to 3 ft.	B. & B.....	2.50	22.50	175.00
3 to 4 ft.	B. & B.....	3.25	27.50	225.00
4 to 5 ft.	B. & B.....	4.50	40.00	350.00
5 to 6 ft.	B. & B.....	5.50	50.00	450.00
6 to 8 ft.	B. & B.....	7.50	67.50	600.00

— **schotti. 20'-25'** *Schott Redcedar*

More formal and lighter green compact than Cannart's Cedar and with occasional trimming makes a handsome column.

3 to 4 ft.	B. & B.....	3.25	27.50	225.00
4 to 5 ft.	B. & B.....	4.50	40.00	350.00
5 to 6 ft.	B. & B.....	5.50	50.00	450.00
6 to 8 ft.	B. & B.....	7.50	67.50	600.00
8 to 10 ft.	B. & B.....	12.00		

— **smithi. 6'-8'** *Smith's Juniper*

Is quite unusual in habit and color; really an open but well furnished bush richly clad in a mantle of light grass-green foliage that remains fresh and bright throughout the winter.

2 to 2½ ft.	B. & B.....	2.25	20.00	
2½ to 3 ft.	B. & B.....	2.75	22.50	175.00
3 to 4 ft.	B. & B.....	3.25	27.50	225.00
4 to 5 ft.	B. & B.....	4.50	40.00	350.00

KALMIA latifolia. 6'-8' *Mountain Laurel*

EVERGREEN. Doubtless the most valuable and beautiful of our broadleaf evergreens. In July nothing can approach the glorious effect created by a mass of laurel with its great wealth of pink flowers. Even in zero weather the clean foliage retains its vigor and deep green color. While most adaptable to sun or shade the ideal location is slight shade.

12 to 15 in.	B. & B.....	1.25	10.00	85.00
15 to 18 in.	B. & B.....	1.50	13.50	120.00
1½ to 2 ft.	B. & B.....	2.00	15.00	135.00
2 to 2½ ft.	B. & B.....	2.75	22.50	200.00
2½ to 3 ft.	B. & B.....	4.00	35.00	300.00
3 to 4 ft.	B. & B.....	5.50	50.00	450.00

KERRIA japonica fl. pl. 4'-5' *Double Kerria or Globeflower*

Green stems and rich golden flowers that in May resemble "button" chrysanthemums combine to make this a most popular "old fashioned" useful shrub. Nice for winter color.

2 to 3 ft.....		.75	6.00	50.00
----------------	--	-----	------	-------

KOELREUTERIA paniculata. 25'-30' *Varnish Tree*

Most conspicuous when the large loose bunches of bright yellow flowers crown the trees in July. The compound foliage is pleasing and for dry city conditions is excellent.

3 to 4 ft.....		1.00	9.00	75.00
4 to 5 ft.....		1.50	12.50	100.00
5 to 6 ft.....		2.25	20.00	150.00
6 to 8 ft.....		3.00	27.50	

Each Per 10 Per 100

KOLKWITZIA amabilis. 5'-6'**Beauty Bush**

During late spring the common name is well deserved for the graceful slender branches are transformed to ropes of gay little pink bells. Improves with age, so don't expect many flowers on young shrubs. These are all well branched.

1	to	1½ ft.30	2.50	20.00
1½	to	2	ft.40	3.00
2	to	3	ft.50	4.00
						30.00

LABURNUM vulgare. 20'-25'**Golden Chain**

Golden yellow flowers hang from the green branches resembling a yellow wisteria. Plant in a favored sheltered spot.

2	to	3	ft.90	7.50	60.00
3	to	4	ft.	1.10	9.00	75.00
4	to	5	ft.	1.35	12.00	90.00
5	to	6	ft.	2.25	15.00	

LARIX europaea. 50'-60'**European Larch**

With its fresh yellow-green needles this tree is traditionally spring like; in fall the soft textured pyramid turns to gold.

3	to	4	ft.	B. & B.	1.50	13.50	120.00
4	to	5	ft.	B. & B.	2.00	15.00	135.00
5	to	6	ft.	B. & B.	2.75	22.50	200.00
6	to	8	ft.	B. & B.	4.00	35.00	300.00

leptolepis. 50'-60'**Japanese Larch**

Grows more rapidly, otherwise quite similar to the European.

5	to	6	ft.	B. & B.	2.75	22.50	200.00
6	to	8	ft.	B. & B.	4.00	35.00	
8	to	10	ft.	B. & B.	5.00	45.00	

LAUROCERASUS schipkaensis. 4'-6'**Cherry Laurel**

EVERGREEN. But rarely seen this handsome shrub should prove most useful for bold effects with its five inch lustrous green leaves. Best where morning sun does not strike.

12	to	15	in.	B. & B.	1.50	12.50	
----	----	----	-----	--------------	------	-------	--

LEIOPHYLLUM buxifolium. 1'-2'**Box Sand Myrtle**

EVERGREEN. Particularly attractive and cheerful in June when small pinkish flowers bejewel the branches. Although naturally irregular the cultivated specimens are generally well shaped little cushions with small boxwood-like leaves.

9	to	12	in.	B. & B.	2.00	15.00	125.00
12	to	15	in.	B. & B.	2.25	20.00	150.00
15	to	18	in.	B. & B.	3.00	27.50	

LESPEDEZA formosa. 6'-7'**Purple Bush Clover**

Reddish purple flowers just hide the clover-like leaves in July and August. Although the slender arching branches may freeze back, it quickly makes a handsome graceful shrub.

2	to	3	ft.40	3.00	25.00
3	to	4	ft.50	4.00	30.00
4	to	5	ft.60	5.00	40.00

LEUCOTHOE catesbaei. 3'-4'**Drooping Leucothoe**

EVERGREEN. What a glorious welcome sight the rich purple foliage makes in winter, and even in summer the thick shiny green five inch leaves, so regularly arranged on the arching branches are striking. Then in May, graceful sprays of fragrant white flowers hang from the branches, giving the effect of a flowering fern. Handsome as Christmas decorations. Useful for shady ground cover work. Moist acid soil is ideal. Truly needed in "natural" work.

1	to	1½ ft.	B. & B.....	1.00	8.50	75.00
1½	to	2 ft.	B. & B.....	1.50	13.50	120.00
2	to	2½ ft.	B. & B.....	2.25	20.00	150.00

Each Per 10 Per 100

LIGUSTRUM ibota. 8'-9'*Ibota Privet*

HALF EVERGREEN. Has spreading arching branches clothed with clean foliage which remains good until mid-winter. The bunches of shiny black berries are decorative.

3	to	4	ft.....	.40	3.00	25.00
---	----	---	---------	-----	------	-------

— regelianum. 4'-6'*True Spreading Regal Privet*

HALF EVERGREEN. Either as a hedge plant or for the shrubbery border this is a good subject with low branches.

1½	to	2	ft.....	.30	2.50	20.00
2	to	2½	ft.....	.40	3.00	25.00

ovalifolium. 10'-15'*California Privet*

HALF EVERGREEN. In addition to being "the hedge plant supreme" this shrub is splendid for mass planting.

Per 10 Per 100 Per 1000

1½	to	2	ft.....	1.50	6.00	50.00
2	to	3	ft.....	2.00	9.00	60.00
3	to	4	ft.....	2.50	12.00	90.00

Each Per 10 Per 100

LIQUIDAMBAR styraciflua. 100'*Sweet Gum*

The swampy places where this pyramidal tree grows are transformed into beauty spots in early autumn by the blazing scarlet coloring of the star shaped leaves. Even when the corky barked branches are bare they are very interesting.

4	to	6	ft.....	2.00	17.50	150.00
6	to	8	ft.....	3.00	27.50	225.00
8	to	10	ft.....	4.00	35.00	300.00
10	to	12	ft.....	5.00	45.00	

LIRIODENDRON tulipifera. 150'*Tulip Tree*

Greenish yellow tulip-like flowers top the branchlets in June, and the unique "cut-off" shape of the leaves is remarkable. Makes a magnificent tree with clean straight 100 foot trunk.

6	to	8	ft.....	1.50	13.50	120.00
8	to	10	ft., 1¼ to 1½ in.....	2.25	20.00	150.00

12	to	14	ft., 2 to 2½ in.....	4.00	35.00	

LITHOSPERMUM prostratum, Heavenly Blue. 4-6" Gromwell

EVERGREEN. Wiry tortuous trailing stems slowly form irregular mats of deep green in which are studded the bluest of blue flowers from May to August. Acid soil, half shade.

3 in. pots.....	.75	6.00	50.00
-----------------	-----	------	-------

LONICERA fragrantissima. 6'-8'*Winter Honeysuckle*

HALF EVERGREEN. So called because of persistent foliage and the early appearance of the deliciously fragrant flowers on bare branches in March. Red berries in summer.

2	to	3	ft.....	.50	4.50
---	----	---	---------	-----	------

heckrotti. Vine, 15'-20'*Everblooming Honeysuckle*

A twining vine-like shrub which in July until September is bedecked with attractive tubular flowers of purplish-rose outside and old gold within. Floriferous, handsome and hardy.

2 yr.....	.50	4.00	30.00
-----------	-----	------	-------

henryi. 15'-20'*Henry Honeysuckle*

HALF EVERGREEN. Has narrow two inch rich green leaves, reddish flowers and black fruits. Attractive neat vine.

2 yr.....	.50	4.00	30.00
-----------	-----	------	-------

LONICERA

Each Per 10 Per 100

japonica halliana. Vine, 20'-25' Hall's Japan Honeysuckle

HALF EVERGREEN. Wherever planted this old favorite takes possession with its tropical luxuriant growth, whether as ground cover, trellis vine or bank planting, but the sweetly fragrant handsome creamy flowers are best on a support.

2 yr.....	.30	2.50	20.00
3 yr.....	.40	3.00	25.00

korolkowi floribunda. 8'-10' Broad Blueleaf Honeysuckle

Forms a large intricately branched mound of blue-gray foliage bespangled in early summer with cheery pink bells which give place to an abundance of glittering red berries.

1½ to 2 ft.....	.50	4.00	30.00
-----------------	-----	------	-------

maacki podocarpa. 10'-12' Late Honeysuckle

Rather straggling, but a vigorous habit. Brilliant red fruits.

2 to 3 ft.....	.50	4.00	30.00
3 to 4 ft.....	.60	5.00	40.00

minutiflora. 8'-10' Bunchberry Honeysuckle

When in full fruit the orange berries transform this into a lovely shrub. Unfortunately little known. One of the best.

2 to 3 ft.....	.40	3.00	25.00
3 to 4 ft.....	.50	4.00	30.00
4 to 5 ft.....	.60	5.00	40.00

morrowi. 7'-8' Morrow Honeysuckle

Distinct useful shrub of wide spreading habit handsome in June when the creamy flowers expand, and again when the bright red berries ripen. Clean gray-green foliage, vigorous.

1½ to 2 ft.....	.30	2.50	20.00
2 to 3 ft.....	.40	3.00	25.00
3 to 4 ft.....	.50	4.00	30.00
4 to 5 ft.....	.60	5.00	

periclymenum belgica. Vine, 15'-20' Dutch Woodbine

Good healthy looking glossy foliage clothes the long vines, making excellent foil for the fragrant cream-purple flowers.

2 yr.....	.50	4.00	30.00
-----------	-----	------	-------

syringantha wolffi. 4'-5' Wolf Honeysuckle

Short twiggy branches, some prostrate, are densely covered with small dusty green leaves, brightened up by fragrant rosy-lilac flowers and then by red fruits. Handsome shrub.

1½ to 2 ft.....	.60	5.50	50.00
2 to 3 ft.....	.75	6.00	

tatarica. 8'-10' Tatarian Honeysuckle

Most adaptable old favorite. The best form has pink flowers in early June followed by a generous crop of scarlet fruits.

3 to 4 ft.....	.50	4.00	30.00
----------------	-----	------	-------

thibetica. 3'-4' Tibetan Honeysuckle

For dry rocky slopes this is not only a useful but a handsome shrub; pale purple flowers are followed by red berries.

1 to 1½ ft.....	.50	4.50	
1½ to 2 ft.....	.65	5.50	

trichosantha. 4'-5' Slender Honeysuckle

Slender spreading branches are studded with small yellowish flowers in June and later with bright red berries.

2 to 3 ft.....	.60	5.00	
3 to 4 ft.....	.75	6.00	

Each Per 10 Per 100

MAGNOLIA acuminata cordata. 15'-20' Yellow Cucumber Tree

The only yellow flowering Magnolia; also distinct by reason of its heart shaped leaves. Thrives best in a protected spot.

3 in. pots.....	2.00	15.00	125.00
-----------------	------	-------	--------

conspicua. 30'-35'**Yulan Magnolia**

Has a certain dignified beauty that marks the tree as an aristocrat. Sweetly scented six inch white flowers are proudly held up by bare branches in April. Good summer foliage.

3 in. pots	1.50	12.50	100.00
------------------	------	-------	--------

1½ to 2 ft.	B. & B.....	3.50	30.00

2 to 3 ft.	B. & B.....	4.50	40.00
------------	-------------	------	-------

3 to 4 ft.	B. & B.....	6.50	60.00
------------	-------------	------	-------

glauca. 15'-20'**Sweet Bay**

HALF EVERGREEN. Altho rather sparingly produced during May and June, the creamy white three inch flowers are so fragrant as to permeate the air for a good distance around with a delicious gardenia-like scent. Naturally rather loose the shrub can be improved by judicious pruning while young. Handsome lustrous leaves, mealy white underneath and red seed pods add to its interest. Best in moist places.

1½ to 2 ft.	B. & B.....	1.50	12.50	100.00
-------------	-------------	------	-------	--------

2 to 3 ft.	B. & B.....	2.00	17.50	135.00
------------	-------------	------	-------	--------

3 to 4 ft.	B. & B.....	2.75	22.50	200.00
------------	-------------	------	-------	--------

4 to 5 ft.	B. & B.....	4.50	40.00
------------	-------------	------	-------

5 to 6 ft.	B. & B.....	6.50	60.00
------------	-------------	------	-------

kobus. 30'-35'**Kobus Magnolia**

The hardy form we have "borealis" is a symmetrical fast growing tree that must acquire age before blooming freely but the semi-double starry white flowers are indeed beautiful.

1½ to 2 ft.	B. & B.....	1.50	12.50	100.00
-------------	-------------	------	-------	--------

2 to 3 ft.	B. & B.....	2.00	17.50	135.00
------------	-------------	------	-------	--------

------------	-------------	------	-------	--------

5 to 6 ft.	B. & B.....	13.50	120.00
------------	-------------	-------	--------

MAGNOLIA

Each Per 10 Per 100

soulangeana. 18'-20'*Saucer Magnolia*

Here is the spectacular member of the glorious family. Every branch plays its part in effectively covering the whole shrub with great purplish pink cups in early spring. In small plants the white innerside of the flowers give a bicolor effect. When trained in one stem as a tree the large bold foliage is effective.

1½ to 2	ft.	B. & B.....	1.50	12.50	100.00
2 to 3	ft.	B. & B.....	2.00	17.50	135.00
3 to 4	ft.	B. & B.....	2.75	22.50	200.00
4 to 5	ft.	B. & B.....	4.25	37.50	325.00
5 to 6	ft.	B. & B.....	7.00	60.00	525.00
6 to 8	ft.	B. & B.....	10.00	90.00	750.00
8 to 10	ft.	B. & B.....	15.00	135.00	

— *alexandrina*. 18'-20'*Alexander Magnolia*

Quite similar in general appearance to the *Saucer Magnolia* but the flowers appear a little earlier and are of a rosy color.

1½ to 2	ft.	B. & B.....	2.75	22.50	200.00
2 to 3	ft.	B. & B.....	4.00	35.00	300.00
3 to 4	ft.	B. & B.....	6.00	52.50	450.00
4 to 5	ft.	B. & B.....	10.00		

— *lennei*. 15'-18'*Lenne Magnolia*

A handsome fellow satisfied with fewer flowers, but each one a perfect rosy-purple pear shaped cup, firmly held erect, the broad thick petals are surprisingly white on the inside and flowering late are rarely damaged by frost. Even the big leathery leaves alone make this a worth while specimen.

3 in. pots.....			1.50	12.50	100.00
1½ to 2	ft.	B. & B.....	2.75	22.50	200.00
2 to 3	ft.	B. & B.....	4.00	35.00	300.00
3 to 4	ft.	B. & B.....	6.00	52.50	450.00
4 to 5	ft.	B. & B.....	7.50	67.50	600.00
5 to 6	ft.	B. & B.....	12.00	110.00	
6 to 8	ft.	B. & B.....	15.00		

— *norbertiana*. 15'-18'*Norbert Magnolia*

Differs from the Mother plant in having slightly smaller upright flowers thus giving a more formal "staccato" effect.

1½ to 2	ft.	B. & B.....	2.75	22.50	200.00
2 to 3	ft.	B. & B.....	4.00	35.00	300.00
3 to 4	ft.	B. & B.....	6.00	52.50	450.00
4 to 5	ft.	B. & B.....	7.50	67.50	600.00

speciosa alba. 12'-15'

Except for a purple stained stripe on the outside the numerous flowers are white. Grows vigorously and forms a neat bush.

1½ to 2	ft.	B. & B.....	2.75	22.50	200.00
2 to 3	ft.	B. & B.....	4.00	35.00	
3 to 4	ft.	B. & B.....	6.00	52.50	

stellata. 10'-12'*Star Magnolia*

Appropriately named for dazzling white semi-double flowers which on bare twiggy branches herald the parade of its larger brothers. Occasionally a flush of tender pink will emphasize the purity of the narrow wavy petals. Delightfully fragrant.

15 to 18	in.	B. & B.....	2.00	15.00	135.00
1½ to 2	ft.	B. & B.....	2.25	20.00	150.00
2 to 2½	ft.	B. & B.....	3.00	27.50	225.00
2½ to 3	ft.	B. & B.....	4.50	42.50	375.00
3 to 4	ft.	B. & B.....	7.50	67.50	600.00
4 to 5	ft.	B. & B.....	12.00		

MAGNOLIA

Each Per 10 Per 100

tripetala. 30'-40'**Umbrella Magnolia**

Big in every way, leaves two feet long, white flowers ten inches across and a clean trunk. Tropical looking but hardy.

3	to	4	ft.....	1.25	10.00	75.00
4	to	6	ft.....	1.50	13.50	120.00
6	to	8	ft.....	2.25	20.00	150.00

MAHONIA aquifolium. 3'-4'**Oregon Holly Grape**

EVERGREEN. Thin wavy holly-like leaves vary in color from deep green to rich purple-red, especially noteworthy in winter. When happily placed not too exposed, will perfect pretty yellow flowers followed by little grape-like bunches of black fruits. A rather loose, many stemmed bush for half shade.

12	to	15	in.	B. & B.....	.85	7.50
15	to	18	in.	B. & B.....	1.00	9.00

6	to	8	ft.....	2.00		
8	to	10	ft. specimens.....	4.00		

sieboldi. 12'-15'**Toringo Crab**

In the bud deep rose is predominant but the open flowers fade to white. Large golden yellow or reddish apples in autumn.

2	to	3	ft.....	.75	6.00	50.00
3	to	4	ft.....	1.00	7.50	60.00
4	to	5	ft.....	1.25	10.00	75.00
5	to	6	ft.....	1.50	12.50	
6	to	8	ft.....	2.00	15.00	

— calocarpa. 12'-15'**Thick Fruited Crab**

Particularly handsome while the cherry like fruits abundantly decorate the branches. The bloomy covering at first hides the brilliant scarlet coloring of these little apples but they persist until midwinter. The spring display of large pink and white flowers seem to become more beautiful each year.

5	to	6	ft.....	1.50	12.50	
6	to	8	ft.....	2.75	22.50	

MALUS

Each Per 10 Per 100

spectabilis. 12'-15'**Chinese Flowering Crab**

Fragrant semi-double delicate pink flowers distinguish this beautiful upright form which for flower effect alone easily ranks among the best. Small yellow fruits are not showy.

2	to	3	ft75	6.00	50.00
3	to	4	ft	1.00	7.50	60.00
4	to	5	ft	1.25	10.00	75.00
5	to	6	ft	1.50	12.50	100.00
6	to	8	ft	2.00	15.00	125.00

theifera. 15'-18'**Tea Crab**

Even for a crab apple this is amazingly floriferous for the whole stiffly branching structure is buried under a heavy cloud of red buds and blush white flowers. The formal outline and floral effect resembles that of a cherry tree.

3	to	4	ft	1.50	12.50	100.00
4	to	5	ft	2.00	15.00	125.00
5	to	6	ft	2.25	20.00	
6	to	8	ft	2.75	22.50	

MITCHELLA repens. 2''**Partridge Berry**

EVERGREEN. Round half inch white veined dark green leaves are formally arranged on the wiry little vines which hug the ground, an effective carpet in shady woods. Fragrant white flowers are followed by well known bright red berries. A gem for the rock garden and in terrariums.

3 in. pots25	2.10	15.00
------------	-------	-----	------	-------

MORUS alba pendula. 8'-10'**Tea's Weeping Mulberry**

Grafted on five to six foot stems. Picturesque when old.

2 yr. heads	1.50	12.50	100.00
3 yr. heads	2.00	15.00	125.00

MYRICA carolinensis. 5'-6'**Northern Bayberry**

Few things will grow in such poor dry soil as this bayberry. The gray wax berries crowded on stiff branches last just as well when cut and dried for inside deco ation as they do outside. Quickly acquires a look of age Aromatic foliage.

1½	to	2	ft60	5.00	40.00
2	to	2½	ft75	6.00	50.00
2½	to	3	ft90	7.50	65.00
3	to	3½	ft	1.10	9.00	85.00

NEILLIA sinensis. 8'-10'**Tube Neillia**

Slender clusters of pink tassels hang from almost every twig. Graceful spreading habit. Green leaves often flushed bronze.

1	to	1½	ft75	6.00	
1½	to	2	ft	1.00	9.00	

NYSSA sylvatica. 60'-70'**Tupelo—Sour Gum**

Wavy, knotted interlacing branches give this native peculiar interest in winter but it is the brilliant scarlet autumn color that stands out. Prefers moist location, dislikes transplanting.

2	to	3	ft	1.25	10.00	90.00
3	to	4	ft	1.50	12.50	
4	to	5	ft	2.25	20.00	

OXYDENDRUM arboreum. 30'-35'**Sorrel Tree—Sourwood**

Throughout the year a handsome tree with thick shiny leaves that turn vivid scarlet early in Fall and remain colored until winter. The long bunches of white summer flowers are not to be overlooked and even the gray fruits are conspicuous.

12 to 14 ft., 2 to 2½ in.....	4.50	40.00	
PHILADELPHUS coronarius. 8'-10' <i>Mock Orange</i>			
Vigorous and long lived this old fashioned "Sweet Syringa" is often found planted near the door or windows of farm-houses where the delicious fragrance of its white flowers could be enjoyed in May and June. Endures some shade.			
2 to 3 ft.....	.50	4.00	30.00
lemoinei. 4'-5' <i>Lemoine Mock Orange</i>			
The sweet fragrance has been retained in this neat compact hybrid. Needs practically no pruning, but remains within bounds indefinitely; the small leaves hidden by the flowers.			
1½ to 2 ft.....	.40	3.00	20.00
2 to 3 ft.....	.50	4.00	30.00
3 to 4 ft.....	.60	5.00	
— Avalanche. 4'-5' <i>Avalanche Mock Orange</i>			
Similar to "Lemoine" but more vigor, fragrance and flowers.			
1½ to 2 ft.....	.40	3.00	20.00
2 to 3 ft.....	.50	4.00	30.00
— Mont Blanc. 4'-5' <i>White Mountain Mock Orange</i>			
These hybrids are most useful small shrubs that succeed in spite of many adverse conditions. None are more cheerful and dazzling than this when its annual June show is given.			
1½ to 2 ft.....	.40	3.00	20.00
2 to 3 ft.....	.50	4.00	30.00
3 to 4 ft.....	.60	5.00	
— Virginal. 7'-8' <i>Virginal Mock Orange</i>			
Few shrubs have caused a greater stir of admiration than this introduction. Each flower, mostly quite double, is almost two inches across and large clusters just weigh down each branch so as to create a "heavy snowfall." The sheer white blossoms just glisten in sun or moonlight and throughout the whole summer you can enjoy the delicious fragrance from the continually open flowers. Prune out all old wood.			
1½ to 2 ft.....	.30	2.50	20.00
2 to 3 ft.....	.40	3.00	25.00
3 to 4 ft.....	.50	4.00	30.00

PHOTINIA

Each Per 10 Per 100

villosa. 12'-15'**Christmas Berry**

Unsung and little known but particularly handsome in autumn when the bold leathery foliage turns almost as red as the bright berries thickly strung over the bush all winter.

1½	to	2	ft.....	.50	4.00	30.00
2	to	3	ft.....	.60	5.00	40.00
3	to	4	ft.....	.75	6.00	50.00
4	to	5	ft.....	.90	8.00	70.00

PHYSOCARPUS opulifolia nana. 3'-4'**Dwarf Ninebark**

One of the good small shrubs that will add interest to the border with flat-topped bunches of creamy flowers in June.

1½	to	2	ft.....	.40	3.00	25.00
2	to	3	ft.....	.50	4.00	30.00
3	to	4	ft.....	.60	5.00	40.00

PICEA canadensis. 50'-60'**White Spruce**

ALL EVERGREEN. Seems happiest in coldest New England where it naturally grows right down to the shore line. Forms a shapely compact tree densely clothed with short silvery green needles. Grows slowly here, compact specimens.

1	to	1½	ft.	B. & B.....	.90	7.50	60.00
1½	to	2	ft.	B. & B.....	1.25	11.00	90.00
2	to	3	ft.	B. & B.....	1.75	15.00	125.00
3	to	4	ft.	B. & B.....	2.75	22.50	
4	to	5	ft.	B. & B.....	4.00	35.00	
5	to	6	ft.	B. & B.....	5.25		

— excelsa. 80'-100'**Norway Spruce**

Generally regarded as more valuable for windbreaks and hedges than as a decorative tree, although while young the dark green symmetrical pyramid is most useful as a Christmas tree or tub specimen. Grows rapidly, well shaped plants.

1	to	1½	ft.	B. & B.....	.75	6.00	50.00
1½	to	2	ft.	B. & B.....	.90	7.50	65.00
2	to	2½	ft.	B. & B.....	1.25	10.00	85.00
2½	to	3	ft.	B. & B.....	1.50	12.50	115.00
3	to	4	ft.	B. & B.....	2.25	20.00	150.00
4	to	5	ft.	B. & B.....	3.50	30.00	275.00
5	to	6	ft.	B. & B.....	5.25	45.00	
6	to	8	ft.	B. & B.....	7.50		

— aurea. 30'-40'**Golden Spruce**

The exposed side of the needles turns light yellow in spring deepening to bronze in autumn, otherwise similar to the type.

5	to	6	ft.	B. & B.....	12.00		
---	----	---	-----	-------------	-------	--	--

— clanbrasiliana. 4'-5'**Barry Spruce**

Forms a broad billowy mass of light green. Extremely hardy and grows more quickly than most of the dwarf forms.

9	to	12	in.	B. & B.....	2.25	20.00	125.00
12	to	15	in.	B. & B.....	2.75	22.50	
15	to	18	in.	B. & B.....	3.50	30.00	
1½	to	2	ft.	B. & B.....	4.50	40.00	

— conica. 6'-8'**Arrowhead Norway Spruce**

Without any trimming forms a perfectly symmetrical dense cone, admirable for formal work or "foundation plantings."

9	to	12	in.	B. & B.....	1.50	13.50	125.00
12	to	15	in.	B. & B.....	2.25	20.00	150.00
15	to	18	in.	B. & B.....	3.00	27.50	225.00
1½	to	2	ft.	B. & B.....	4.00	35.00	300.00
2½	to	3	ft.	B. & B.....	6.00	55.00	

— maxwelli. 1½'-2'**Maxwell Spruce**

A broad dense cushion with a sturdy structure of intricate stubby brown branchlets covered all around with pale green thick sharply pointed needles. Truly a gem for rock gardens.

6	to	9	in.	B. & B.....	2.50		
12	to	15	in.	B. & B.....	5.00		

PICEA. ALL EVERGREEN. Each Per 10 Per 100
excelsa pendula. 20'-25' *Weeping Spruce*

Creates a curious sad effect with the inverted branches growing toward the ground. The grotesque lines look well among large boulders or in exotic gardens, especially when old.

2 to 3 ft. B. & B..... 4.50

— *procumbens.* 2' *Prostrate Norway Spruce*

In youth this little fellow has the shape of a flat pumpkin but slowly covers a broader area without adding to its height, and all through its long life is neat, well defined and beautifully clothed with short rich green needles. Quite a favorite.

9 to 12 in. B. & B..... 3.00 27.50

12 to 15 in. B. & B..... 4.50 42.50

15 to 18 in. B. & B..... 6.00 55.00

— *pumila.* 3'-4' *Dwarf Norway Spruce*

More globular than most, but very dense. Needs a little protection from winter sun but able to stand low temperatures.

6 to 9 in. B. & B..... 2.25 20.00

12 to 15 in. B. & B..... 4.50 40.00

— *pyramidalis.* 40'-50' *Pyramidal Norway Spruce*

All the branches ascending to form a narrow shapely pyramid.

5 to 6 ft. B. & B..... 7.50

6 to 8 ft. B. & B..... 9.00

8 to 10 ft. B. & B..... 12.00

— *repens.* 1½' *Creeping Norway Spruce*

Wide spreading prostrate branches make a thick irregular blanket of interesting texture, perfectly at home among rocks.

6 to 9 in. B. & B..... 2.25 20.00 150.00

2 to 2½ ft. B. & B..... 7.50

glauca conica. 5'-6' *Dwarf Alberta Spruce*

A perfect miniature reproduction of a tall forest tree, having branches crowded into a compact narrow cone with a rugged old look about it. Very thin slatey green foliage makes an exceedingly fine texture. Best where slightly shaded.

6 to 9 in. B. & B..... .80 6.00 50.00

9 to 12 in. B. & B..... 1.25 10.00 85.00

12 to 15 in. B. & B..... 1.50 13.50 125.00

15 to 18 in. B. & B..... 2.25 20.00 150.00

2½ to 3 ft. B. & B..... 7.50

koyamai. 40'-50' *Koyamai Spruce*

When young a broad-based cone, but lengthens into a narrow pyramid with husky looking branches and thick needles.

3 to 4 ft. B. & B..... 5.00 45.00

4 to 5 ft. B. & B..... 6.00

omorika. 60'-80' *Serbian Spruce*

We rate this as the King of Spruces, handsome from a foot high to its lofty maturity. On the under side the flat needles are lustrous green with white stripes above, giving a bicolor effect. Its narrow pyramidal outline is maintained and the severest climate does not influence its slow but sure growth.

1½ to 2 ft. B. & B..... 4.00 35.00 300.00

2 to 2½ ft. B. & B..... 5.00 45.00

4 to 5 ft. B. & B..... 13.50

5 to 6 ft. B. & B..... 18.00

6 to 8 ft. B. & B..... 22.50

PICEA. ALL EVERGREEN. Each Per 10 Per 100**orientalis. 60'-70'** *Oriental Spruce*

Graceful widespreading branches sweep the ground merging into a central spire which rises with classic outline to pierce the sky. Glossy blackish green needles increase its sombre dignity—a picture of aristocratic beauty. Quite useful in small plantings owing to its slow growth and rich color.

1	to	1½ ft.	B. & B.....	3.50	30.00	275.00
1½	to	2 ft.	B. & B.....	4.00	35.00	300.00
2	to	2½ ft.	B. & B.....	5.00	45.00	
2½	to	3 ft.	B. & B.....	7.00		
6	to	7 ft.	B. & B.....	21.00		

polita. 60'-75' *Tigertail Spruce*

Is the most distinct of all Spruces by reason of the thick rigid spiny needles sparsely distributed around the stubby branches.

1	to	1½ ft.	B. & B.....	1.50	12.50	
---	----	--------	-------------	------	-------	--

pungens. 70'-80' *Colorado Spruce*

A bold native Spruce with dull gray-green thick needles. Quite symmetrical and handsome when young, but becomes picturesque in old age when the lower branches disappear.

1	to	1½ ft.	B. & B.....	.60	5.50	45.00
1½	to	2 ft.	B. & B.....	1.25	10.00	75.00
2	to	2½ ft.	B. & B.....	2.00	15.00	125.00
2½	to	3 ft.	B. & B.....	2.75	22.50	200.00
3	to	4 ft.	B. & B.....	4.00	35.00	300.00
4	to	5 ft.	B. & B.....	5.50	50.00	450.00
5	to	6 ft.	B. & B.....	7.50	67.50	

— glauca. 70'-80' *Colorado Blue Spruce*

From the variable seedlings has been selected this intensely "blue" form, so popular even in very small sizes. Well shaped.

1	to	1½ ft.	B. & B.....	1.50	12.50	
1½	to	2 ft.	B. & B.....	2.25	20.00	
3	to	4 ft.	B. & B.....	5.00		
4	to	5 ft.	B. & B.....	7.50		
5	to	6 ft.	B. & B.....	12.00		

— kosteri. 50'-60' *Koster's Blue Spruce*

Probably the most widely known of all evergreens, due to the brilliant silvery blue foliage, which is kept uniform by grafting selected specimens. Spectacular as a lawn specimen and ideal for the color climax or contrast in mixed plantings.

3 yr. grafts.....				1.50	12.50	100.00
12	to	15 in.	B. & B.....	2.75	22.50	200.00

7	to	8 ft.	B. & B.....	30.00		

PIERIS floribunda. 4'-5' *Mountain Andromeda*

EVERGREEN. Both for foliage and floral effect this hardy native is well nigh indispensable. Dark green leathery privet-like leaves remain untouched in zero weather and serve splendidly as background for the upright clusters of waxy white flowers in May. Acid soil, half shady spot preferred.

15	to	18 in.	B. & B.....	3.00	25.00	225.00
1½	to	2 ft.	B. & B.....	3.75	32.50	300.00
2	to	2½ ft.	B. & B.....	4.50	42.50	375.00

Each Per 10 Per 100

PIERIS japonica. 6'-7'
Japanese Andromeda

EVERGREEN. Almost the ideal shrub without a flaw. In early spring graceful pendants of waxy white urnshaped flowers are prettily interspersed among the lustrous deep green foliage. Then comes the tender green young growths beautifully winestained until the wavy leaves mature into their leathery texture defying both extreme heat and cold. In midwinter the rugged character of the bush is emphasized by the young unopened flower buds held aloft unharmed by wind and weather to again play their part in a glorious display in May.

12 to 15 in.	B. & B.....	1.50	13.50	120.00
15 to 18 in.	B. & B.....	2.25	20.00	150.00
1½ to 2 ft.	B. & B.....	3.00	27.50	225.00
2 to 2½ ft.	B. & B.....	4.00	35.00	300.00
2½ to 3 ft.	B. & B.....	5.50	50.00	

PINUS cembra 30'-40'
Swiss Stone Pine

ALL EVERGREEN. Slow growing so it may be safely used in low plantings. Generally seen as a blunt compact pyramid clothed in soft textured coat of bluish-green needles, but eventually becomes a picturesque round topped tree.

6 to 9 in.	B. & B.....	1.50	13.50	
3 to 4 ft.	B. & B.....	10.00		

densiflora. 50'-60'
Japanese Red Pine

A rapid grower that quickly gives evidence of its mature irregular outline. Has bright green needles, orange brown branches.

4 to 5 ft.	B. & B.....	4.00	35.00	
5 to 6 ft.	B. & B.....	5.00	45.00	
6 to 8 ft.	B. & B.....	6.00	55.00	

— umbraculifera. 8'-10'
Japanese Umbrella Pine

"Tanyosho" is a vivid green flat topped cushion that very slowly expands with age. An occasional "bobbing" of the new growth in Spring will increase its neat formal appearance.

12 to 15 in.	B. & B.....	1.25	11.00	90.00
15 to 18 in.	B. & B.....	1.50	13.50	120.00

2½	to	3	ft.	B. & B.....	5.50	50.00	
3	to	3½	ft.	B. & B.....	9.00		

nigra. 50'-60'

Austrian Pine

One of the most dignified of the family, with stiff dark green six inch needles covering the vigorous up curving branches. Succeeds on poor land even down to the seashore. Handsome.

2	to	3	ft.	B. & B.....	2.75	22.50	200.00
3	to	4	ft.	B. & B.....	3.50	30.00	275.00
4	to	5	ft.	B. & B.....	4.50	42.50	375.00
5	to	6	ft.	B. & B.....	6.00	55.00	500.00
6	to	8	ft.	B. & B.....	9.00	75.00	675.00

resinosa. 60'-70'

Red Pine

For this section doubtless the best pine for reforestation as it succeeds on the poorest land and soon prevents erosion of a barren hillside. Vigorous in any well drained location, its dark green needles make a good background and windbreak.

2	to	3	ft.	B. & B.....	2.75	22.50	200.00
3	to	4	ft.	B. & B.....	3.50	30.00	275.00
4	to	5	ft.	B. & B.....	4.50	42.50	
5	to	6	ft.	B. & B.....	6.00	55.00	
6	to	8	ft.	B. & B.....	9.00	75.00	675.00
8	to	10	ft.	B. & B.....	12.00	110.00	900.00

strobis. 80'-100'

White Pine

Truly a noble native, handsome in its formal youth and typically picturesque in its independent old age. Extremely hardy, most adaptable. Splendid hedges can be made by clipping

2	to	3	ft.	B. & B.....	1.50	13.50	120.00
3	to	4	ft.	B. & B.....	2.25	20.00	150.00
4	to	5	ft.	B. & B.....	4.00	35.00	275.00
5	to	6	ft.	B. & B.....	6.00	50.00	450.00
6	to	8	ft.	B. & B.....	9.00	75.00	
8	to	10	ft.	B. & B.....	12.00	110.00	
10	to	12	ft.	B. & B.....	18.00		

— fastigiata. 35'-40'

Upright White Pine

Stiffly ascending branches form a narrow columnar tree, clothed with the same soft green mantle of needles as the parent.

1½	to	2	ft.	B. & B.....	2.25	20.00	
----	----	---	-----	-------------	------	-------	--

sylvestris. 40'-50'

Scotch Pine

Quite happy in any except a wet location the Scotsman withstands drought, cold and heat, growing with equal vigor, to assume a gnarled picturesque appearance. Impoverished soil has no effect on the husky twisted gray green needles so is often used for reclamation, as well as landscape planting.

3	to	4	ft.	B. & B.....	2.75	22.50	
4	to	5	ft.	B. & B.....	4.00	35.00	
5	to	6	ft.	B. & B.....	5.00	45.00	
6	to	8	ft.	B. & B.....	6.50	60.00	525.00
8	to	10	ft.	B. & B.....	10.00	90.00	

PINUS ALL EVERGREEN

Each Per 10 Per 100

thunbergi. 60'-70'*Japanese Black Pine*

Undoubtedly the best pine for planting near the seaside where spray has no effect on the stiff bright green needles. Develops an interesting irregular outline. Support where too exposed.

5	to	6	ft.	B. & B.....	6.00	55.00	
6	to	8	ft.	B. & B.....	8.50	75.00	
8	to	10	ft.	B. & B.....	12.50	110.00	

PLATANUS occidentalis. 100'*American Plane Tree*

Seems to prefer a river bank or moist place, where the towering white trunk with its ragged gaunt branches typify independence. Unfortunately doesn't take kindly to cultivation.

8	to	10	ft	1.50	12.50	
8	to	10	ft., 1¼ to 1½ in.....		2.00	15.00	125.00
10	to	12	ft., 1½ to 1¾ in.....		2.25	20.00	150.00
12	to	14	ft., 1¾ to 2 in.....		3.00	27.50	

orientalis. 70'-80'*European Plane Tree*

For general use a far superior tree with broad leaves that resist insects, dust and smoke. Notwithstanding rapid growth the "Sycamore" attains a fabulous age. The shapely head casts comfortable shade allowing grass to grow freely, so makes a splendid lawn tree, but whether at the seashore or on the city street it "carries on" successfully. Splendid trees.

8	to	10	ft., 1¼ to 1½ in.....		1.50	12.50	100.00
10	to	12	ft., 1½ to 1¾ in.....		2.00	15.00	135.00
10	to	12	ft., 1¾ to 2 in.....		2.75	22.50	200.00
12	to	14	ft., 2 to 2½ in.....		3.50	30.00	275.00
12	to	14	ft., 2½ to 3 in.....		5.00	45.00	

POLYGONUM auberti. Vine, 40'-50'*Chinese Fleece Vine*

Vigorous climber that grows amazingly fast. Will effectively cover or screen undesirable objects with a dense mantle of handsome light green leaves, topped in July and August with an airy webbing of fleecy white flowers. Needs sunlight.

6 in. pots.....	.90	7.50	
-----------------	-----	------	--

POPULUS bolleana. 40'-50'*Bolle Poplar*

A slender shaft with rather handsome foliage, dark green above and almost white reverse. Gray bark attractive in winter.

4	to	6	ft.....	.75	6.00	45.00
6	to	8	ft.....	1.00	8.50	60.00
8	to	10	ft.....	1.25	10.00	90.00

nigra italica. 60'-80'*Lombardy Poplar*

Familiar as the exclamation point of landscape design, the graceful spires of restless light green leaves are most useful for grouping, formal lines, screening and even narrow streets.

6	to	8	ft.....	1.00	7.50	60.00
8	to	10	ft.....	1.25	10.00	90.00

simoni. 30'*Simon Poplar*

Slightly broader but otherwise comparable to the Lombardy. Nice clean shiny green foliage, disease resistant. Vigorous.

6	to	8	ft.....	1.00	7.50	60.00
---	----	---	---------	------	------	-------

POTENTILLA fruticosa. 3'-4'*Shrubby Cinquefoil*

Cheerful yellow single flowers bejewel the compact round bush all summer even during the hottest dryest season.

1	to	1½	ft.....	.40	3.00	25.00
1½	to	2	ft.....	.50	4.00	30.00

POTENTILLA

Each Per 10 Per 100

tridentata. 1'**Wineleaf Cinquefoil**

EVERGREEN. Really a groundcover as the "trefoil" leaves will in slightly shaded spots make a handsome shiny blanket of dark green dotted in May with tiny white flowers.

2 yr..... .40 3.00

PRUNUS cerasifera pissardi. 10'-12'**Purple Leaf Plum**

Annual pruning of old wood will intensify the reddish purple coloring of the peach like leaves. Pink flowers hardly noticed.

6 to 8 ft..... 1.25 10.00

glandulosa. 4'-5'**Double Flowering Almond**

Every willowy branch becomes a fairy wand of pure pink in very early spring. A real domestic indispensable favorite.

1½ to 2 ft..... .60 5.00 40.00

— alba. 4'-5'**White Almond**

Very double white flowers are the only point of difference.

1½ to 2 ft..... .50 4.00 35.00

2 to 3 ft..... .60 5.00 45.00

maritima. 8'-10'**Beach Plum**

Frail dainty white blossoms lightly sprinkled over the bush serve to accentuate the bare erratic stiff branches which never seem so happy as when in large drifts at their seashore home.

1 to 1½ ft..... .50 4.00 30.00

1½ to 2 ft..... .60 5.00 40.00

2 to 3 ft..... .70 6.00 50.00

3 to 4 ft..... .90 7.50

serrulata. 30'-40'**Oriental Cherry**

Has typical smooth chestnut brown cherry-bark with semi-double white flowers, which in May are apt to be outshone by the exquisite pageantry of its many offsprings here named.

6 to 8 ft..... 2.25

— Amanogawa. 20'-25'**Upright Cherry**

A distinct form with a Lombardy Poplar style of growth.

Semi-double pink flowers gracefully hang in dense clusters.

3 to 4 ft. B. & B..... 1.50 12.50

4 to 5 ft. B. & B..... 2.25 20.00

5 to 6 ft. B. & B..... 3.00 25.00

— Beni-Higan. 30'-40'**Single Pink**

Great clouds of pale pink single flowers begin to expand in March and gradually envelop the whole tree. Vigorous growth.

5 to 6 ft. B. & B..... 3.00

6 to 8 ft. B. & B..... 5.25

8 to 10 ft. specimens B. & B..... 9.00

— Fugenzo (Kofugen) (James H. Veitch) 30' Double Pink

One of the latest to bloom; the unusually large double pink flowers expand with the coppery young foliage, a nice contrast. Probably one of the most popular and reliable sorts.

3 to 4 ft. B. & B..... 2.00 15.00 125.00

4 to 5 ft. B. & B..... 2.25 20.00 150.00

5 to 6 ft. B. & B..... 3.00 25.00

8 to 10 ft. specimens B. & B..... 9.00

10 to 12 ft. specimens B. & B..... 13.50

— Gyoiko 30'-40'**Double Light Green**

The green double flowers are more unique than pretty.

8 to 10 ft. specimens B. & B..... 9.00

10 to 12 ft. specimens B. & B..... 13.50

PRUNUS				Each	Per 10	Per 100
serrulata Kwanzan. 30'					<i>Double Pink</i>	
Large very double deep pink flowers, almost red in bud, and bronze young growth coupled with its rapid growth justify the highest rating to this good form. Well formed, vigorous.						
3	to	4	ft.	B. & B.....	2.00	15.00 125.00
4	to	5	ft.	B. & B.....	2.25	20.00 150.00
5	to	6	ft.	B. & B.....	3.00	25.00
— Mikurumagaeshi. 25'-30'					<i>Double Light Pink</i>	
Perhaps the prettiest with its bunches of frilled tassel-like flowers strung along the thick branches. The shell pink shading is just as delicate as the elusive fragrance. Scarce.						
4	to	5	ft.	B. & B.....	2.25	
5	to	6	ft.	B. & B.....	3.00	
6	to	8	ft.	B. & B.....	5.25	
— Mount Fuji (Shirotae) 30'					<i>Double White</i>	
Undoubtedly the finest double white. Large and pure in color the flowers blanket the well formed tree as would snow.						
3	to	4	ft.	B. & B.....	2.00	15.00
4	to	5	ft.	B. & B.....	2.25	20.00
5	to	6	ft.	B. & B.....	3.00	25.00
6	to	8	ft.	B. & B.....	5.25	
— Naden. 30'-40'					<i>Siebold Cherry</i>	
Very floriferous and showy when literally smothered in pale pink semi-double blossoms arranged in short stemmed clusters.						
3	to	4	ft.	B. & B.....	2.00	15.00
4	to	5	ft.	B. & B.....	2.25	
5	to	6	ft.	B. & B.....	3.00	
— sachalinensis. 30'-40'					<i>Yama Cherry</i>	
More vigorous and showy than the Mother tree, having large white to pink single flowers covering bare branches in April.						
4	to	5	ft.	B. & B.....	2.00	
5	to	6	ft.	B. & B.....	2.25	
6	to	8	ft.	B. & B.....	3.00	
— Shirofugen. 30'					<i>Double Blush Pink</i>	
Pink in bud, the very large double flowers become white, then gradually assume a blush as they mature. Vigorous.						
3	to	4	ft.	B. & B.....	2.00	15.00 125.00
4	to	5	ft.	B. & B.....	2.25	20.00 150.00
5	to	6	ft.	B. & B.....	3.00	25.00
6	to	8	ft.	B. & B.....	5.25	
8	to	10	ft. specimens	B. & B.....	9.00	
— Yoshino (Yedoensis). 40'-50'					<i>Single Blush Pink</i>	
Because of its conspicuous position around the Tidal Basin in Washington, D. C. this species is widely known, and also it is the "advance guard" of the gorgeous display during cherry blossom season. The single pink flowers become flushed with purple before falling. An excellent shade tree.						
3	to	4	ft.	B. & B.....	2.00	15.00
4	to	5	ft.	B. & B.....	2.25	20.00
5	to	6	ft.	B. & B.....	3.00	25.00

----	----	-------	-------------	------	-------	--------

3	to	4 ft.	B. & B.....	7.00	65.00	
---	----	-------	-------------	------	-------	--

RHODODENDRON

Each Per 10 Per 100

maximum (Nursery Grown) 12'-15' *Rosebay Rhododendron*

EVERGREEN. Essentially a shade plant, the "Great Laurel" forms the backbone of most woods plantings, where the leathery six inch leaves are of even greater landscape value than the pale pink flowers. Late May and June is "laurel season" but if happily placed in acid soil, preferably in masses, the rich foliage effect is pleasing and dignified the year round.

1	to	1½ ft.	B. & B.....	2.00	17.50	150.00
1½	to	2 ft.	B. & B.....	2.75	22.50	200.00
2	to	2½ ft.	B. & B.....	3.00	27.50	225.00
2½	to	3 ft.	B. & B.....	4.00	35.00	300.00
3	to	4 ft.	B. & B.....	5.50	50.00	450.00
4	to	5 ft.	B. & B.....	8.00	75.00	675.00
5	to	6 ft.	B. & B.....	11.00		
6	to	8 ft.	B. & B.....	13.50		

minus (*punctatum*). 6'-8' *Piedmont Rhododendron*

Rather a loose open grower with much smaller leaves than "Rosebay." Attractive rosy-pink flowers are almost hidden by the young growth in June. Half shade and acid soil.

1½	to	2 ft.	B. & B.....	4.00	35.00	
2	to	3 ft.	B. & B.....	4.50	40.00	
3	to	4 ft.	B. & B.....	5.50	50.00	

RHODODENDRON HYBRIDS (ALL EVERGREEN.)

That is, the grafted named varieties flower much more freely than any others. The individual flowers are larger, more brilliantly colored than Catawba and are produced in enormous bunches held erect about the canopy of splendid bold foliage. Altho acid soil is necessary these grafted hybrids do quite well in open sunlight but prefer light shade. All bushy.

album elegans. 10'-12'

Grows quickly into tall narrow bush; white flushed pink.

catawbiense album. 6'-8' (Up to 2½ to 3 ft.)

Splendid foliage, vigorous grower, large pure white flowers.

Everestianum. 5'-6'

Prettily frilled lilac-pink flowers, compact, reliable, handsome.

maximum roseum. 8'-10' (Up to 1½ ft.)

Deeper pink and more profuse than type. Same large foliage.

maximum superba. 8'-10'

Really a glorified "Rosebay", deeper pink flowers, large leaves.

President Lincoln. 6'-8' (Up to 2 to 2½ ft.)

Large rosy-lavender flowers, good foliage, compact habit.

roseum elegans. 8'-10'

The most reliable and vigorous of all hybrids. Bright rose-pink flowers in great clusters almost hide handsome foliage.

12	to	15 in.	B. & B.....	2.00	17.50	135.00
15	to	18 in.	B. & B.....	2.75	22.50	210.00

2½	to	3 ft.	B. & B.....	7.50	67.50	
3	to	3½ ft.	B. & B.....	10.00	90.00	
3½	to	4 ft.	B. & B.....	13.50		
4	to	5 ft.	B. & B.....	18.00		

Atrosanguinea. 6'-8' (Up to 2 to 2½ ft.)

Blood-red flowers, vigorous compact habit, one of the best.

Caractacus. 6'-8'

A popular old kind with gorgeous rich crimson flowers.

Charles Bagley. 7'-8'

Brilliant cherry-red flowers in big bunches. A reliable grower.

Chas. Dickens. 6'-8'

Rich dark crimson, handsome but disappointing in growth.

Cunningham's White. 5'-6' (Up to 2 to 2½ ft.)

Rather narrow lustrous green leaves just smothered in a blanket of pure white flowers in early May. Easily grown.

Delicatissimum. 6'-8'

A tall grower besprinkled with dainty bells of tenderest pink.

RHODODENDRON HYBRIDS—continued

E. S. Rand. 6'-8' (Up to 2½ to 3 ft.)

Has very large rich crimson flowers with a darker eye.

Henrietta Sargent. 6'-8'

Red flowers in large trusses and attractive wavy foliage.

Ignatius Sargent. 6'-8'

(Up to 2 to 2½ ft.)

Rosy scarlet flowers in enormous trusses. Splendid foliage.

Lady Armstrong. 6'-8'

Light pink spotted with green and maroon. Open in growth.

Mrs. C. S. Sargent. 6'-8'

Very large glowing pink flowers; handsome wavy foliage.

Parson's rubrum. 6'-8'

Deep purplish red, very hardy and dependable for flowers.

Purpureum elegans. 6'-8'

In bud a rich deep purple opening to deep lavender, handsome.

2 to 2½ ft.	B. & B.....	10.00	90.00	

RHODOTYPOS kerrioides. 5'-6'

Jetbead

A compact well furnished shrub studded in May and June with four-petal flowers that are as intensely white as the bead-like fruits are glittering jet black. These persist all winter.

2 to 3 ft.....	.40	3.50	30.00
3 to 4 ft.....	.50	4.50	

RHUS canadensis. 4'-5'

Fragrant Sumach

Clusters of yellow spiny flowers precede the glistening little grape-like bunches of coral-red globules that ripen in June. The aromatic foliage turns brilliant orange and scarlet in autumn. Vine-like habit is particularly useful for dry slopes.

1½ to 2 ft.....	.50	4.00	30.00
2 to 3 ft.....	.60	5.00	40.00
3 to 4 ft.....	.70	6.00	50.00
4 to 5 ft.....	.85	7.50	

cotinoides 20'

American Smoke Tree

Larger but less showy than the following except in autumn when the large round leaves turn brilliant scarlet and orange.

2 to 3 ft.....	.60	4.50	
3 to 4 ft.....	.75	6.00	

cotinus. 12'-15'

Smoke Tree

Until the filmy purplish cloud of fruit cluster becomes so noticeable in July we are apt to overlook the fine qualities of this handsome shrub. The clean flat round leaves are stained pink while young, then mature with yellow and purple tones in fall. As a specimen few shrubs can equal its bold rugged outline which is accentuated as the thick branches become gnarled with great age. These are fine bushy plants.

2 to 3 ft.....	.60	5.00	40.00
3 to 4 ft.....	.75	6.00	55.00
4 to 5 ft.....	1.10	9.00	75.00
5 to 6 ft.....	1.25	11.00	90.00
6 to 8 ft.....	1.50	13.50	120.00

SPECIMENS 7x5 ft. B. & B..... 5.00 to 10.00

Each Per 10 Per 100

ROBINIA hispida. 6'-8'**Rose Acacia**

Clusters of bright rose colored sweet pea-like flowers hang from the slender branches in May. By means of spreading underground stems a mass is quickly formed and this habit is utilized for holding slopes. Thrives on poor soil and drought.

2	to	3	ft.....	.75	6.00
3	to	4	ft.....	.90	7.50

ROSA rugosa 5'-6'**Red Rugosa Rose**

Handsome as a massed shrub with rich green glossy foliage and surprisingly large single crepe-like deep pink flowers that scent the air with fragrance. The large yellow and red hips are decorative, too. A useful shrub for seaside exposures.

1½	to	2	ft.....	.40	3.00	25.00
2	to	3	ft.....	.60	5.00	40.00

— alba. 4'-5'**White Rugosa Rose**

Exquisitely dainty white flowers are produced all summer.

1½	to	2	ft.....	.40	3.00	25.00
2	to	3	ft.....	.60	5.00	

— Max Graf. 4'-5'**Hybrid Rugosa Rose**

Excellent as a ground cover when the long growth forms a rich green blanket of rugosa-like leaves bejewelled in June with shiny pink flowers. Rambles happily on a slope.

2	to	3	ft.....	.60	5.00	40.00
---	----	---	---------	-----	------	-------

spinosissima altaica. 4'-5'**Altai Rose**

A vigorous upstanding shrub armed with thorns and airily clad with small fine foliage. The large single white flowers are deliciously fragrant.

3	to	4	ft	2.00	15.00
---	----	---	----------	------	-------

wichuriana. Vine. 8'-10'**Memorial Rose**

Most useful as a ground cover on sunny slopes where the small glossy green leaves effectively hide the long stringy vines, which root where they touch the ground. Small single white flowers brighten the picture in July. Has red fruits.

2	yr.....	.40	3.00	25.00
---	---------	-----	------	-------

ROSES, Climbing or Ramblers

2	yr60	5.00	40.00
---	----------	-----	------	-------

Bess Lovett. Large double crimson red flowers sweetly fragrant.

Christine Wright. Beautiful wild rose pink double flowers on long stemmed sprays opening early and of lasting quality.

Dorothy Perkins. Brilliant shell pink flowers in drooping clusters. Reliable free grower. Keep surplus old wood cut out.

Dr. W. Van Fleet. Pale pink beautifully formed buds freely produced on long stems. Perfect foliage, most vigorous.

Excelsa. Has light red flowers in profusion. (Red Dor. Perkins)

Mary Lovett. Large fragrant waxy white flowers beautifully formed, borne singly and few flower clusters. Glossy foliage.

Mary Wallace. Vivid pink kind with large fragrant handsome flowers in small clusters and excellent foliage. Vigorous.

Paul's Scarlet Climber. Great clusters of blazing scarlet flowers are freely borne on stiff erect branches. Good foliage.

Silver Moon. Long creamy buds open to great snowy semi-double flowers. Perfect flowers and extraordinarily vigorous.

Tausendschon. Pink in various shades with cream and white blend delightfully in the ruffled petals of this vigorous rose.

SALIX babylonica. 30'-40' Each Per 10 Per 100
Babylon Weeping Willow

Long stringy branches droop vertically to the ground, and with the narrow light green leaves create a soft velvety texture. Grows rapidly especially when close to water.

4	to	6	ft.....	1.50	13.50	125.00
6	to	8	ft.....	2.00		

elegantissima. 50'-60' *Thurloew Weeping Willow*

Although not quite so pendulous the graceful wider spreading branches display the graceful curving green branchlets to splendid advantage. Even quicker growing and more vigorous than "Babylon" willow. Should be planted more freely.

6	to	8	ft.....	1.50	13.50	
8	to	10	ft.....	2.00	15.00	

SCIADOPITYS verticillata. 20'-25' *Umbrella Pine*

EVERGREEN. So called because the thick four inch leaves are arranged in whorls similar to the ribs of an umbrella. These dark green glossy needles handsomely clothe the branches which make a dense pyramidal head. Growing very slowly it can be safely used in low plantings. Drainage is essential for this unique beautiful conifer. Excellent spot plant.

3	to	4	ft.....	12.50		
4	to	5	ft.....	18.00		
5	to	6	ft.....	22.50		
6	to	7	ft.....	27.50		

SOPHORA japonica. 60'-70' *Chinese Scholar Tree*

Improves with age as the tortuous branches assume interesting shapes, and the crop of greenish yellow pea-shaped flowers increases. Really a fine tree that should be used for avenue or specimen purposes. Easily satisfied as to soil.

2	to	3	ft.....	1.25	10.00	90.00
3	to	4	ft.....	1.50	12.50	

viciifolia. 5'-6' *Vetch leaf Sophora*

Clusters of porcelain blue or pale violet pea blossoms appear in June to decorate this shrub. Thrives in dry sunny spot.

1½	to	2	ft.....	.60	5.00	
2	to	3	ft.....	.90	7.50	
3	to	4	ft.....	1.25		

SORBARIA arborea glabrata. 12'-15' *Tree Spirea*

All too rarely is this bold handsome August blooming shrub seen. The feathery bunches of flowers are often two feet long, gracefully held aloft or extended at ends of arching branches. Large compound leaves add to the tropical effect.

2	to	3	ft.....	.60		
3	to	4	ft.....	.75		

sorbifolia. 5'-6' *Ural False Spirea*

Quickly spreads by suckers to make a handsome clump well clothed with refined ash-like foliage, topped in August by creamy panicles of fuzzy flowers. Will grow almost anywhere.

1½	to	2	ft.....	.40	3.00	25.00
2	to	3	ft.....	.50	4.00	30.00

SORBUS aucuparia. 25'-30' Each Per 10 Per 100
European Mountain Ash

Ideal for the small lawn, the Rowan tree is extremely popular in Europe, where the great clusters of orange-red fruits figure in song and story, but here they serve the more practical purpose of food for robins. Good drainage is a necessity.

6	to	8	ft.....	1.25	11.00	90.00
8	to	9	ft.....	2.00	15.00	125.00
9	to	10	ft. 1 1/4 to 1 1/2 in.....	2.75	22.50	200.00

12	to	14	ft. 2 1/2 to 3 in.....	5.25		

— pendula. 10'-12' *Weeping Mountain Ash*

Curiously curved inverted branches bear the same handsome compound foliage and red berries as the type.

5 yr. heads,	2	to 2 1/4 in.....	5.00	45.00	
--------------	---	------------------	------	-------	--

quercifolia. 25'-30' *Oakleaf Mountain Ash*

As the name indicates, the leaves bear a resemblance to a chestnut oak, but it does not seem to flower or fruit so freely.

6	to	8	ft.....	1.50	13.50	
8	to	10	ft.....	2.00	15.00	
10	to	12	ft.....	2.25	20.00	

SPIRAEA Anthony Waterer. 3' *Waterer Spirea*

Flat topped heads of rose pink flowers are produced all summer. Compact useful shrub for "facing" tall border shrubs.

1 1/2	to	2	ft.....	.50	4.00	30.00
2	to	3	ft.....	.60	5.00	40.00

arguta. 4'-5' *Garland Spirea*

Very small grass green foliage creates a fine textured mass which in May is delicately dotted with many white flowers.

2	to	3	ft.....	.50	4.00	
3	to	4	ft.....	.60		

thunbergi. 4'-5' *Thunberg Spirea*

Even finer than "arguta" this feathery light green shrub is a bank of snow in April when every twig bears its quota of white flowerlets. Striking orange and scarlet autumn coloring.

1 1/2	to	2	ft.....	.40	3.00	25.00
2	to	3	ft.....	.50	4.00	

trichocarpa. 5'-6' *Korean Spirea*

Quite similar but coarser than Van Houtte which flowers about three weeks before this neat broad spreading bush.

2	to	3	ft.....	.50	4.00	30.00
3	to	4	ft.....	.60	5.00	

triloba. 3'-4' *Three lobe Spirea*

Has unfortunately been eclipsed by the offspring "Van Houtte" to which it is similar but smaller in every part. Really very beautiful and useful as a low "facing shrub."

1	to	1 1/2	ft.....	.40	3.50	
---	----	-------	---------	-----	------	--

van houttei. 6'-8' *Van Houtte Spirea*

Generally "overdone" but nevertheless very beautiful in June, when the arching branches are transformed into snowy garlands which defy description. Fortunately no special soil or location is needed but space it must have and please don't prune formally or "bob" its growth. No pruning needed.

2	to	3	ft.....	.40	3.00	25.00
3	to	4	ft.....	.50	4.00	30.00
4	to	5	ft.....	.60		

			Each	Per 10	Per 100
STEPHANANDRA flexuosa. 5'-6'			<i>Cutleaf Stephanandra</i>		
Graceful arching branches well clothed with finely cut bright green leaves changing to reddish purple in autumn. Never grows "out of hand" so is very useful to face tall shrubs.					
1½	to	2 ft.....	.40	3.00	25.00
2	to	3 ft.....	.50	4.00	30.00
3	to	4 ft.....	.60	5.00	40.00
4	to	5 ft.....	.75	6.00	50.00

STRANVAESIA davidiana. 12'-15'

EVERGREEN. Handsome indeed where the loose bunches of orange scarlet berries shine out against the rich deep green broad leaves. Given a sheltered spot it will well repay one.

1½	to	2 ft.	B. & B.....	1.00
2	to	2½ ft.	B. & B.....	1.50

STYRAX japonica. 18'-20'*Japanese Snowbell*

To say merely "a beautiful tree" is almost a travesty on this comparatively unknown subject. In July the wide spreading branches are closely strung with nodding pure white bells, an exceedingly handsome picture. Specimens or lawn plants are more effective than in mass. Spring planting is best.

2	to	3 ft60	5.00	40.00
3	to	4 ft.....	.75	6.00	50.00
4	to	5 ft.....	.90	7.50	60.00
5	to	6 ft.....	1.25	11.00	90.00
6	to	8 ft.....	2.00	15.00	

obassia. 25'-30'*Fragrant Snowbell*

Strikingly large round handsome leaves partially hide the well shaped white flowers but the fragrance causes one to look up and see the loose bunches along the branches. Rarely seen but a splendid thing that will be appreciated when known.

5	to	6 ft.	B. & B.....	6.00
6	to	8 ft.	B. & B.....	7.50
8	to	10 ft. specimens,	B. & B	12.00

SYMPHORICARPOS chenaulti 3'-4'*Chenault Coralberry*

Quite an improvement on the Coralberry of which this is a hybrid. Always neat and well furnished in appearance particularly handsome when the slender branches are laden with the bunches of coral red fruits, which last until midwinter.

2	to	3 ft.....	.40	3.50
3	to	4 ft.....	.50	4.50

racemosus. 4'-5'*Snowberry*

Well loved for the large white berries which weigh down the willowy branches in September, widely used for inside decorations. Happiest in half shady spot but most adaptable.

1½	to	2 ft.....	.30	2.50	20.00
2	to	3 ft.....	.40	3.00	25.00
3	to	4 ft.....	.50	4.00	30.00
4	to	5 ft.....	.60	5.00	40.00

vulgaris. 4'-5'*Coralberry*

Like the Snowberry is not fastidious as to soil and location, in fact does well even in a dry shady place where the bunched coral berries remain bright until early Spring. Somewhat straggling but splendid for massing and naturalizing.

1½	to	2 ft30	2.50	20.00
2	to	3 ft.....	.40	3.00	25.00
3	to	4 ft.....	.50	4.00	30.00

SYMPLOCOS paniculata 20'-25' Each Per 10 Per 100
Turquoise Berry

Just imagine a well grown Hawthorn heavily laden with turquoise blue berries and you have an idea of what this rarity looks like in autumn, a magnificent sight. In spring white flowers are quite conspicuous and an intricate arrangement of branches show in winter. A grand thing, not common.

1 to 1½ ft..... .75

SYRINGA chinensis. 12'-15' *Chinese Lilac*

Slender graceful branches terminate in compact clusters of purple lilac flowers. This hybrid form is generally conceded as better than its parent "persica" for general uses and cutting.

2 to 3 ft..... .40 3.00 25.00
 3 to 4 ft..... .60 5.00 40.00

— **saugeana. 12'-15'** *Purple Chinese Lilac*

An even better variety with glowing purple-red flowers and far better foliage. Grows more vigorously too. Both are at their best in May and develop into handsome specimens.

2 to 3 ft..... .40 3.00 25.00
 3 to 4 ft..... .60 5.00 40.00
 4 to 5 ft..... .75 6.00 50.00
 5 to 6 ft..... .90 7.50

persica. 8'-10' *Persian Lilac*

Doubtless will always be popular for its fragrant pale lilac flowers which are loosely arranged on thin arching branches.

1½ to 2 ft..... .50 4.00
 2 to 3 ft..... .60 5.00

— **alba. 7'-8'** *White Persian Lilac*

The white flowers are faintly tinged blue before fully expanded.

1½ to 2 ft..... .50 4.00 30.00
 2 to 3 ft..... .60 5.00 40.00
 3 to 4 ft..... .75 6.00

vulgaris. 12'-15' *Common Purple Lilac*

A great old commoner, the mere mention of which never fails to recall the delicious fragrance of May by close association with man from early days, has become an institution. No matter where you place it the lovely flowers will smile at you every year, so don't fuss about a particular spot.

1½ to 2 ft..... .30 2.50 20.00
 2 to 3 ft..... .40 3.50 25.00
 3 to 4 ft..... .50 4.00 30.00

— **alba. 12'-15'** *Common White Lilac*

Is the white form more fragrant? Just try them side by side.

1½ to 2 ft..... .40 3.00 25.00
 2 to 3 ft..... .50 4.00 30.00
 3 to 4 ft..... .60 5.00 40.00
 4 to 5 ft..... .75 6.00

LILACS, French. 8'-15' *Hybrid Lilac*

1½ to 2 ft..... .50 4.00 30.00
 2 to 3 ft..... .60 5.50 45.00
 3 to 4 ft..... .90 7.50 60.00
 4 to 5 ft..... 1.50 12.50

Alphonse Lavalle. Medium sized, double flowers, bluish lilac.

Charles X. Single reddish violet flowers in long sprays.

Congo. Great panicles of dark purple, single flowers.

Jan van Tol. Pure white, single flowers in long slender trusses.

LILACS, French, continued

Jean Mace. Large double flowers of pinkish blue, in irregular compact panicles. One of the finest of the newer varieties.

Katherine Havemeyer. Gorgeous big clusters of double flowers almost pure blue-violet. Never have enough of this.

Ludwig Spaeth. Large, narrow clusters of dull purple flowers.

Marie Le Graye. Single white medium sized narrow clusters.

Michael Buchner. Double, pinkish flowers in slender clusters.

Mme. Lemoine. Snow white double. Good reliable old kind.

Paul Thirion. Large, double, slaty purple flowers in enormous panicles. That excites admiration in any flower lover.

President Grevy. Soft blue-violet double flowers in large pyramidal clusters. Old but ever true and hard to beat.

President Poincare. Huge clusters of rich, double, pinkish lilac flowers. Is generally rated in the first twelve.

Wm. Robinson. Large double mauve pink flowers in loose irregular panicles that are freely produced—an attractive shade.

TAXODIUM distichum. 70'-80' Bald Cypress

Peculiarly soft fern-like foliage airily covers the tall narrow pyramid, supported by a straight broad based trunk tapering to a spear like leader. In its swampy home no care is necessary but some shelter will help in establishing this unique deciduous conifer here. Has some resemblance to the Larch.

3	to	4	ft.	B. & B.....	3.00	27.50	225.00
4	to	6	ft.	B. & B.....	4.00	35.00	
6	to	8	ft.	B. & B.....	5.00	45.00	

TAXUS baccata compacta. 10'-12' Compact English Yew

ALL EVERGREEN. Shaped like an enormous black-green egg standing on broad end, filled with stiff ascending branches.

1	to	1½	ft.	B. & B.....	1.50	13.50	
1½	to	2	ft.	B. & B.....	2.00	15.00

3½	to	4 ft.	B. & B.....	10.00	90.00	

— **Anderson form. 12'-15'** *Anderson Yew*

Grows even more freely but needs the knife. A fine hedge.

15	to	18 in.	B. & B.....	1.50	12.50	
1½	to	2 ft.	B. & B.....	2.00	15.00	
2	to	2½ ft.	B. & B.....	3.00	27.50	225.00
2½	to	3 ft.	B. & B.....	4.50	42.50	400.00

— **capitata. 20'-25'** *Tree Form Japan Yew*

This is really the typical Japanese Yew from which the spreading bush form has sprung. Handsome indeed are the broad well filled pyramids so effectively used in formal gardens or a lawn specimen, and even as tub plants. Perfectly adapted for the taller hedge. Very striking with young growth in Spring.

15	to	18 in.	B. & B.....	2.00	15.00	125.00
1½	to	2 ft.	B. & B.....	2.25	20.00	175.00
2	to	2½ ft.	B. & B.....	3.00	27.50	225.00

3	to	4 ft.	B. & B.....	6.00	57.50	525.00
4	to	5 ft.	B. & B.....	10.00		

— **nana (brevifolia). 5'-6'** *Dwarf Japanese Yew*

Conservative and careful, it takes time for this member to assume proportions becoming the dignity of such an aristocrat.

Irregularly spreading in growth it will merge with rock garden planting or is excellent for permanent low effects. Intense blackish green leaves are enhanced by the coldest winter.

1 yr.	2¼ in.	pots.....		.25	2.00	18.00

3½	to 4 ft. B. & B.....	12.00	100.00	
TEUCRIUM chamaedrys. 12"-15"		Germander		
EVERGREEN. Interesting rock garden shrub with glossy deep green leaves and rose-purple flowers in loose spikes.				
3 in.	pots.....	.35	3.00	25.00
THUYA occidentalis. 30'-35'		American Arborvitae		
Certainly a most prolific species giving rise to many handsome widely differing forms. Too often is this "Tree of Life" prejudged in its infancy, for surely does it assume its natural place among the patriarchs of the tree world. Generally useful for hedging or formal work, its well clothed pyramidal outline can be sheared severely without hurt. Brown inside foliage can be vigorously shaken out in early spring. Most Arborvitae prefer a moist place where they see the sun all day.				
2	to 3 ft. B. & B.....	1.00	8.00	60.00
3	to 4 ft. B. & B.....	1.50	12.50	100.00

6	to	8 ft.	B. & B.....	5.25	50.00	450.00

— **globosa. 3'-4'** *Globe Arborvitae*

A little ball of light dusty green just made for formal designs.

12	to	15 in.	B. & B.....	.75	6.00	50.00
----	----	--------	-------------	-----	------	-------

— **hoveyi. 3'-4'** *Hovey Arborvitae*

Broadly oval in outline, bright green foliage, fresh in spring.

1½	to	2 ft.	B. & B.....	1.50	12.50	
2	to	2½ ft.	B. & B.....	1.75	15.00	
2½	to	3 ft.	B. & B.....	2.25	20.00	

— **Little Gem. 2'-3'** *Little Gem Arborvitae*

Apparently has been overlooked for whenever seen this appropriately named little fellow rarely fails to excite admiration and desire to possess. Hugging the ground all through life it slowly spreads and expands in billowy humps creating an age old effect. For edging, a low informal hedge, rock garden or any low planting decidedly fitting and permanent.

6	to	9 in.	B. & B.....	.75	6.00	50.00
9	to	12 in.	B. & B.....	1.25	10.00	85.00
12	to	15 in.	B. & B.....	1.50	12.50	100.00
15	to	18 in.	B. & B.....	2.00	17.50	150.00

THUYA. ALL EVERGREEN. Each Per 10 Per 100

occidentalis lutea. 12'-15' *Geo. Peabody Arborvitae*

Conspicuous at all times with bright yellow foliage throughout the well shaped pointed column. Helped by trimming.

1½ to 2 ft.	B. & B.....	1.00	8.00	60.00
2 to 2½ ft.	B. & B.....	1.25	10.00	75.00
2½ to 3 ft.	B. & B.....	1.50	12.50	100.00
3 to 4 ft.	B. & B.....	2.00	15.00	125.00
4 to 5 ft.	B. & B.....	2.75	22.50	200.00
5 to 6 ft.	B. & B.....	4.00	35.00	300.00
6 to 8 ft.	B. & B.....	5.25	50.00	450.00

— **pumila. 3'-4'** *Dwarf Arborvitae*

In juvenile stage practically a globe but eventually become a notably round topped bush withstanding very severe climate.

1 to 1½ ft.	B. & B.....	.75	6.00	50.00
1½ to 2 ft.	B. & B.....	1.25	10.00	75.00

— **pyramidalis. 25'-30'** *Pyramidal Arborvitae*

Is a narrow column clothed with lively green foliage that retains its color throughout winter. Useful alike in formal or informal planting for the spire like shafts or as a hedge.

1½ to 2 ft.	B. & B.....	1.00	8.00	60.00
2 to 2½ ft.	B. & B.....	1.25	10.00	75.00
2½ to 3 ft.	B. & B.....	1.50	12.50	100.00
3 to 4 ft.	B. & B.....	2.00	15.00	125.00
4 to 5 ft.	B. & B.....	2.75	22.50	200.00
5 to 6 ft.	B. & B.....	4.00	35.00	300.00
6 to 7 ft.	B. & B.....	5.25	50.00	450.00
8 to 10 ft.	B. & B.....	7.50	67.50	600.00

— **riversi. 10'-12'** *Rivers Arborvitae*

With a broad base this well defined pyramid is always well furnished with pleasing soft green foliage quite bright in spring.

2 to 3 ft.	B. & B.....	1.25	10.00
3 to 4 ft.	B. & B.....	2.00	17.50
4 to 5 ft.	B. & B.....	3.00	

— **rosenthali. 8'-10'** *Rosenthal Arborvitae*

Decidedly worthy of wider use, as it grows slowly and its knobby rugged appearance improves with age, maturing as a "weathered" column of dark green, good even in winter.

15 to 18 in.	B. & B.....	1.00	8.00	60.00
1½ to 2 ft.	B. & B.....	1.25	10.00	75.00
2 to 2½ ft.	B. & B.....	1.50	12.50	100.00
2½ to 3 ft.	B. & B.....	2.00	17.50	150.00
3 to 4 ft.	B. & B.....	2.75	22.50	200.00
4 to 5 ft.	B. & B.....	3.50		

— **umbraculifera. 3'-4'** *Umbrella Arborvitae*

Low spreading branches soon form a luscious looking rich green mushroom shaped bush. A worthwhile low form.

1½ to 2 ft.	B. & B.....	1.50	12.50	100.00
2 to 2½ ft.	B. & B.....	1.75	15.00	125.00
2½ to 3 ft.	B. & B.....	2.00	17.50	

— **vervaeneana. 10'-12'** *Vervaeen Arborvitae*

Another broad pyramid of exceptional vigor and hardiness. The foliage varies from green to yellow and bronze in winter.

2 to 2½ ft.	B. & B.....	1.25	10.00	75.00
2½ to 3 ft.	B. & B.....	1.50	12.50	100.00
3 to 4 ft.	B. & B.....	2.00	15.00	125.00
4 to 5 ft.	B. & B.....	2.75	22.50	200.00
5 to 6 ft.	B. & B.....	4.00	35.00	300.00
6 to 8 ft.	B. & B.....	5.25	50.00	450.00

THUYA. ALL EVERGREEN. Each Per 10 Per 100
occidentalis wareana. 12'-15' *Siberian Arborvitae*

Exceedingly hardy this dense growing form makes a splendid hedge altho as a spot plant its rugged broad pyramid is worthy of consideration. Is long lived and improves with age.

15	to	18 in.	B. & B.....	1.00	7.50	50.00
1½	to	2 ft.	B. & B.....	1.25	10.00	75.00
2	to	2½ ft.	B. & B.....	1.50	12.50	100.00
2½	to	3 ft.	B. & B.....	2.00	17.50	150.00
3	to	4 ft.	B. & B.....	2.75	22.50	200.00
4	to	5 ft.	B. & B.....	3.50	30.00	

— **woodwardi. 3'** *Woodward Arborvitae*

Difficult to detect any difference between this and "globosa".

12	to	15 in.	B. & B.....	.75	6.00	50.00
----	----	--------	-------------	-----	------	-------

orientalis (BIOTA) 25'-30' *Oriental Arborvitae*

Flat fan like branches pressed together "on end" form at first an oval shape column brilliantly clothed in emerald green foliage. Eventually develops into a bushy pyramidal tree.

1½	to	2 ft.	B. & B.....	.75	6.00	45.00
2	to	3 ft.	B. & B.....	1.00	7.50	60.00
3	to	4 ft.	B. & B.....	1.50	12.50	100.00
4	to	5 ft.	B. & B.....	2.75	22.50	

— **aurea conspicua (BIOTA) 10'-12'** *Goldspire Arborvitae*

Gayly dressed in bright yellow foliage that deepens to glowing old gold and warm brown in winter. Broad colorful column.

1½	to	2 ft.	B. & B.....	1.50	12.50	100.00
2	to	2½ ft.	B. & B.....	2.00	17.50	150.00
2½	to	3 ft.	B. & B.....	3.00	27.50	225.00
3	to	4 ft.	B. & B.....	4.00	35.00	300.00
4	to	5 ft.	B. & B.....	5.25	45.00	
5	to	6 ft.	B. & B.....	6.75		

— — **nana (BIOTA) 4'-5'** *Berckman Golden Arborvitae*

From the "bed plant" to old age the same compact neat egg-shape mass is retained, changing from the brilliant yellow high lights of spring to warm reddish brown tones, tipped with gold in winter. A favorite for window boxes, edgings.

9	to	12 in.	B. & B.....	.75	6.00	50.00
12	to	15 in.	B. & B.....	1.00	8.00	70.00
15	to	18 in.	B. & B.....	1.50	12.50	100.00
18	to	21 in.	B. & B.....	2.00	17.50	150.00
21	to	24 in.	B. & B.....	3.00		

— **bakeri (BIOTA) 5'-6'** *Baker Arborvitae*

From a low oval bush will lengthen out to a broad column of soft green. Succeeds in a hot dry place and it's hardy.

1	to	1½ ft.	B. & B.....	.75	6.00	50.00
1½	to	2 ft.	B. & B.....	1.25	10.00	75.00
2	to	2½ ft.	B. & B.....	1.00	12.50	100.00
2½	to	3 ft.	B. & B.....	2.00	17.50	150.00

— **compacta (BIOTA) 4'-5'** *Siebold Arborvitae*

Except for its vivid constant green foliage is similar to "Berckman." A most useful member when color isn't wanted.

15	to	18 in.	B. & B.....	1.25	10.00	75.00
1½	to	2 ft.	B. & B.....	1.50	12.50	100.00
2	to	2½ ft.	B. & B.....	2.25	20.00	150.00
2½	to	3 ft.	B. & B.....	2.75	22.50	200.00
3	to	3½ ft.	B. & B.....	3.50	30.00	275.00

THUYA. ALL EVERGREEN. Each Per 10 Per 100

or. elegantissima (BIOTA) 10'-12' Yellow Column Arborvitae

In outline a broad swelling column, quite compact and well furnished. Few if any conifers can compare favorably to this handsome bush for warm rich coloring throughout the year. Spring covers the surface with sparkling yellow tips ripened by the summer sun to golden brown, and winter even sub-zero temperature, brings out the rich reddish bronze coat flecked with yellow brilliants, with vivid green inside.

1½ to 2	ft.	B. & B.....	1.25	10.00	75.00
2 to 2½	ft.	B. & B.....	1.50	12.50	100.00
2½ to 3	ft.	B. & B.....	2.25	20.00	150.00
3 to 4	ft.	B. & B.....	2.75	22.50	200.00
4 to 5	ft.	B. & B.....	4.00	35.00	300.00
5 to 6	ft.	B. & B.....	6.75	60.00	

plicata atrovirens (lobbi) 35'-40' Giant Arborvitae

Lustrous green fleshy leaves clothe the branchlets assuming warm bronze tones in winter. Given a sunny reasonably moist spot will quickly develop into a splendid dignified irregular tree. Quite unlike any other arborvitae, handsome.

2 to 3	ft.	B. & B.....	1.25	10.00	90.00
3 to 4	ft.	B. & B.....	2.00	17.50	150.00
4 to 5	ft.	B. & B.....	3.00	27.50	225.00
5 to 6	ft.	B. & B.....	4.25	40.00	350.00
6 to 8	ft.	B. & B.....	5.75	50.00	450.00
8 to 10	ft.	B. & B.....	7.50	65.00	600.00

standishi. 12'-15' Standish Arborvitae

Rather sorrowful but provides a welcome "break" with its open branches irregular pyramidal habit and coarse growth. The south side tones down to a warm bronze in winter.

2 to 3	ft.	B. & B.....	2.00	17.50	150.00
3 to 4	ft.	B. & B.....	2.75	22.50	200.00
4 to 5	ft.	B. & B.....	4.00	35.00	300.00
5 to 6	ft.	B. & B.....	5.25	50.00	450.00

TILIA americana. 80'-90' American Linden

In a fairly moist location this native Basswood will, once started, quickly develop into a large limbed round topped tree, handsome in its dress of great heart shaped leaves, conspicuous in June when the fragrant flowers attract bees.

9 to 10	ft., 1¼ to 1½ in.....	3.00	27.50
10 to 11	ft., 1½ to 1¾ in.....	4.00	35.00
11 to 12	ft., 1¾ to 2 in.....	4.50	42.50
12 to 14	ft., 2 to 2½ in.....	6.00	52.50

platyphyllos (grandiflora) 80'-100' Bigleaf European Linden

Maybe not as popular as the small leaved brother but a robust handsome fellow that has made famous the stately avenues of Europe. Both types are often formally clipped.

9 to 10	ft., 1¼ to 1½ in.....	4.50	40.00
10 to 11	ft., 1½ to 1¾ in.....	5.50	50.00
11 to 12	ft., 1¾ to 2 in.....	6.50	60.00
12 to 14	ft., 2 to 2½ in.....	8.50	75.00

— pyramidalis. 40'-50' Pyramidal Linden

For narrow avenues or even an accent tree this would be a good choice as the clean branches all grow upward scarce.

6 to 8	ft.....	3.00
--------	---------	------

TILIA.

Each Per 10 Per 100

vulgaris. 70'-80'**European Linden**

Generally conceded the best form for street planting as the dark green leaves remain good until late autumn. The compact low branched head is particularly fitted to lawn purposes where the branches make a natural canopy, fragrant in June.

12	to	14 ft., 2 1/2	to 3 in.....	12.00		

TSUGA canadensis. 70'-80'**Canada Hemlock**

EVERGREEN. Grace, dignity and beauty have conspired successfully to make this American a living example of magnificent stateliness. With plenty of space the tree claims right to its noble forest stature, but is willing to be clipped into hedges—splendid walls of close textured green. Half shade or a north slope is preferred but sun is alright too.

1 1/2	to	2 ft.	B. & B.....	1.25	10.00	75.00
2	to	2 1/2 ft.	B. & B.....	1.50	12.50	100.00

4	ft. x	3 ft.	B. & B.....	20.00		

caroliniana. 40'-50'**Carolina Hemlock**

EVERGREEN. Compared with the "Canada" Hemlock, this southerner has longer yew-like foliage, irregularly disposed on the twigs, and the spreading half drooping branches are so arranged as to create splendid shadow patterns. Absolutely hardy, in fact the foliage seems proof against sun scalding.

1 1/2	to	2 ft.	B. & B.....	2.00	15.00	125.00

8	to	10 ft.	B. & B.....	21.00		

ULMUS americana. 100'**American Elm**

Almost wherever you go the lofty arching branches silently pronounce a benediction on the traveller. No tree it would seem can be more majestic than our dear old American Elm, a tower of strength, grace and beauty. Plant an Elm.

8	to	10 ft., 1 1/4	to 1 1/2 in.....	1.50	12.50	100.00
10	to	12 ft., 1 1/2	to 1 3/4 in.....	2.00	15.00	125.00

14	to	16 ft., 3	to 3 1/2 in.....	7.50	67.50	

ULMUS

Each Per 10 Per 100

americana molini. 80'-100'**Moline Elm**

Unexpected in the Elm family, nevertheless a most useful and handsome member is this vigorous youngster of broad conical outline clad in splendid large leaves. Ideal for narrow streets.

6	to	8 ft.	1.50	12.50	100.00
8	to	10 ft.	2.00	15.00	125.00
8	to	10 ft., 1¼ to 1½ in.	2.25	20.00	150.00
10	to	12 ft., 1½ to 1¾ in.	2.75	22.50	200.00
10	to	12 ft., 1¾ to 2 in.	4.00	35.00	300.00
12	to	14 ft., 2 to 2½ in.	5.25	45.00	

— Vase shaped. 80'-100'**Vase Elm**

Selected to emphasize the graceful lines of the vase shape top, and it has handsome foliage to boot. Where uniform shape is desired these budded trees must be used—not seedlings.

6	to	8 ft.	1.50	12.50	100.00
8	to	10 ft.	2.00	15.00	125.00
8	to	10 ft., 1¼ to 1½ in.	2.25	20.00	150.00
10	to	12 ft., 1½ to 1¾ in.	2.75	22.50	200.00
10	to	12 ft., 1¾ to 2 in.	4.50	35.00	300.00
12	to	14 ft., 2 to 2½ in.	5.25	45.00	400.00

campestris. 80'-100'**English Elm**

The handsome leaves remain green long after the native Elm is bare. Straight clean stems and a strong oak-like structure of branches makes this a splendid practical street tree.

8	to	10 ft., 1¼ to 1½ in.	3.75	35.00	
10	to	12 ft., 1½ to 1¾ in.	4.50	40.00	

glabra (montana.) 70'-80'**Scotch Elm**

Has a clean smooth bark and a wide irregular head somewhat like a glorified Carolina Poplar, without disadvantages.

12	to	14 ft., 2 to 3 in.	6.00		
----	----	--------------------	-------	------	--	--

VACCINEUM corymbosum. 6'-8'**Highbush Blueberry**

Apart from the delicious "huckleberries", here is a beautiful shrub of many uses. In sour swampy places brilliant coloring of the foliage is an annual pageant and even the clusters of waxy white bell flowers are remarkable, good winter color.

2	to	3 ft.	B. & B.	1.75	15.00	
3	to	4 ft.	B. & B.	2.25	20.00	

VIBURNUM acerifolium. 5'-6'**Maple Leaved Viburnum**

Altho not striking, the heads of white May flowers result in bunches of glittering black berries that in autumn stand out against the gorgeous pink to purple foliage. Naturally a shade lover and even dense in woods, great masses abound.

1½	to	2 ft.50	4.00	30.00
2	to	3 ft.60	5.00	40.00

americanum. 10'-12'**American Cranberry Bush**

Bright scarlet berries persist nearly all winter, handsome shrub.

1½	to	2 ft.40	3.00	25.00
2	to	3 ft.50	4.00	30.00
3	to	4 ft.60	5.00	40.00
4	to	5 ft.75	6.00	50.00

carlesi. 4'-5'**Fragrant Viburnum**

Waxy pink, deliciously fragrant flowers appear in little round clusters as the leaves are unfolding. Not easily grown it is well worth a select well drained sunny spot where you can keep it moist in the summer. Has greater spread than height.

1	to	1½ ft.	B. & B.90	7.50	60.00
1½	to	2 ft.	B. & B.	1.50	12.50	100.00
2	to	2½ ft.	B. & B.	2.00		

VIBURNUM

Each Per 10 Per 100

cassinoides. 6'-8'*Witherod*

Color starts in June with the large clusters of white flowers, preceding green berries which in turn change to pink and finally blue black. Leathery leaves adds their touch of crimson and purple in autumn. Compact habit, prefers moist spot.

1½ to 2	ft.....	.50	4.00	30.00
2 to 3	ft.....	.60	5.50	45.00
3 to 4	ft.....	.80	7.00	60.00
4 to 5	ft.....	1.00	8.00	70.00

dentatum. 10'-12'*Arrow Wood*

Has creamy white flowers in May and black berries later. Purple and red shades are typical for autumn dress, seen to best advantage when massed in half shady moist spot.

2 to 3	ft.....	.50	4.00	30.00
3 to 4	ft.....	.60	5.00	40.00
4 to 5	ft.....	.75	6.00	

dilatatum. 8'-10'*Linden Viburnum*

Here again time is needed to bring out the real fine character of this shrub. Handsome rough foliage, six inch clusters of creamy flowers and glittering scarlet berries all winter are a few of its assets. Practically no pruning is necessary.

1½ to 2	ft.....	.75	6.00	50.00
2 to 3	ft.....	.80	7.00	60.00
3 to 4	ft.....	1.00	8.50	

lantana. 12'-15'*Wayfaring Tree*

Becomes most attractive when the handsome foliage turns red and the fruits change from crimson to black in autumn. Apparently at home in a lime soil. Useful for bold accents.

1½ to 2	ft.....	.40	3.00	25.00
2 to 3	ft.....	.50	4.00	30.00
3 to 4	ft.....	.60	5.50	45.00
4 to 5	ft.....	.75	6.00	55.00
5 to 6	ft.....	1.00	7.50	

lentago. 20'-25'*Nannyberry*

Almost a tree eventually, having clean looking foliage that becomes rich purple and crimson in Fall. Black berries are decorative all winter too. Extremely hardy, prefers moist place.

2 to 3	ft.....	.50	4.00	30.00
3 to 4	ft.....	.60	5.00	40.00
4 to 5	ft.....	.75	6.00	50.00
5 to 6	ft.....	1.00	8.00	70.00
6 to 8	ft.....	1.25	10.00	

opulus. 10'-12'*European Cranberry*

Runner-up to the American variety to which it is similar.

2 to 3	ft.....	.50	4.00	30.00
3 to 4	ft.....	.60	5.00	40.00
4 to 5	ft.....	.75	6.00	50.00

— nanum. 1'-2'*Dwarf Cranberry*

Forms a dense globular affair packed with shoots and foliage but rarely blooms, a stunning plant for edging or hedging.

6 to 9	in.....	.40	3.50	30.00
9 to 12	in.....	.50	4.50	40.00
12 to 15	in.....	.60	5.50	50.00
15 to 18	in.....	.70	6.50	

Each Per 10 Per 100

VIBURNUM prunifolium. 12'-15'*Black Haw*

A sturdy clean cut, shrub with few stiff upright stems and a maze of horizontal branches. Attractive pure white May flowers give place to large bunches of pink fruits turning to black. Decidedly best in masses when the intricate branches form one vast clump beautifully softened with smallish leaves, purple in fall. Effective when combined with cedars.

1½ to 2	ft.50	4.00	30.00
2 to 3	ft.60	5.00	40.00
3 to 4	ft.80	7.00	60.00
4 to 5	ft.	1.00	8.50	

rhytidophyllum. 8'-10'*Leatherleaf Viburnum*

EVERGREEN. Rough deeply veined Rhododendron-like leaves quickly distinguish this bold southerner. If the brilliant red berries are to mature a sheltered half shady spot is needed.

15 to 18	in.	B. & B	1.00	9.00	75.00
1½ to 2	ft.	B. & B	1.50	12.50	100.00
2 to 3	ft.	B. & B	2.25	20.00	150.00
3 to 4	ft.	B. & B	3.00	27.50	225.00

sieboldi. 8'-10'*Siebold Viburnum*

Tree-like, few stemmed shrub with handsome dark green lustrous foliage, creamy flowers and berries that start out green changing to pink to black. Certainly a "dominant" shrub.

1½ to 2	ft.40	3.00	25.00
2 to 3	ft.50	4.00	30.00
3 to 4	ft.60	5.00	40.00
4 to 5	ft.80	7.00	

tomentosum. 8'-10'*Doublefile Viburnum*

The Beau-Brummel of the family whose neatness is of little note beside the handsome spectacle afforded by a well grown specimen in full bloom. The flat topped clusters of pure white flowers are thickly strung along the top of the horizontal branches so as to resemble a fall of snow. The purple foliage color is distinctive too. By all means an indispensable.

1½ to 2	ft.40	3.00	25.00
2 to 3	ft.50	4.00	30.00
3 to 4	ft.60	5.00	40.00
4 to 5	ft.85	7.50	60.00

— plicatum. 7'-8'*Japanese Snowball*

In June the familiar white three inch "Snowballs" are generously studded over a well clothed shrub, a cheerful picture; no fruits.

2 to 3	ft.40	3.50	25.00
3 to 4	ft.60	5.00	35.00
4 to 5	ft.75	6.00	50.00
5 to 6	ft.	1.00	8.00	

wrighti. 8'-10'*Wright Viburnum*

Somewhat like dilatatum with the same brilliant scarlet fruit.

1½ to 2	ft.50	4.00	35.00
2 to 3	ft.60	5.00	

VINCA minor*Periwinkle*

EVERGREEN. Accepted as THE ground cover, its close blanket of dark green foliage is well known. Shade is best but a sunny spot is alright too, if not too dry and hot.

3 in pots	90.00 thousand	1.50	12.00	
-----------	-------	----------------	------	-------	--

VITEX macrophylla. 5'-6'*Bigleaf Chaste Tree*

A dainty shrub with branching spikes of very attractive lavender blue flowers in September beautifully offset by the star shaped gray green leaves. Must have sun, prune in spring.

1½ to 2	ft.50	4.00	30.00
2 to 3	ft.60	5.00	40.00

				Each	Per 10	Per 100
WEIGELA candida. 6'-8'				Snow Weigela		
Creamy white trumpets try to outnumber the young leaves in May. Vigorous upstanding subject. Prune out the old wood.						
2	to	3	ft.....	.40	3.00	25.00
3	to	4	ft.....	.50	4.00	30.00
4	to	5	ft.....	.60	5.00	40.00
— Eva Rathke. 4'-5'				Red Flowering Weigela		
Almost continuously throughout the summer the short branches are actually covered with reddish carmine blossoms.						
1½	to	2	ft.....	.40	3.00	25.00
2	to	3	ft.....	.50	4.00	30.00
3	to	4	ft.....	.60	5.00	
— Feerie. 6'-8'						
If you plant only one take this which opens a little earlier than Venusta and is even more profuse, and a shade lighter.						
2	to	3	ft.....	.50	4.00	
3	to	4	ft.....	.75	6.00	
— Venusta. 6'-8'				Venus Weigela		
Really an improvement on the old sorts, with large rose trumpet bells just crowded on the long sturdy branches.						
1½	to	2	ft.....	.40	3.00	25.00
2	to	3	ft.....	.50	4.00	30.00
3	to	4	ft.....	.75	6.00	50.00
rosea. 6'-8'				Pink Weigela		
After the long term of admirable service should be retired in favor of its lovely daughters. Just as vigorous as any.						
1½	to	2	ft.....	.30	2.50	20.00
2	to	3	ft.....	.40	3.00	25.00
3	to	4	ft.....	.50	4.00	30.00
WISTERIA multijuga. Vine, 25'-30'				Longcluster Wisteria		
Properly trained the three foot sprays of purple flowers can never be forgotten. Even in May the fragrance is noteworthy.						
2	yr. grafts,	6 in. pots.....		.75	6.00	
3	yr., field grown75	6.00	50.00
sinensis. 30'-40'				Chinese Wisteria		
Shorter and therefore more compact sprays of the beautiful pea blossoms open a little before "Longcluster". That same delectable scent thrills the senses. Sun, drainage needed.						
2	yr. grafts,	6 in. pots.....		.75	6.00	
3	yr., field grown75	6.00	50.00
YUCCA filamentosa. 2'-3'				Adam's Needle		
EVERGREEN. Much abused, poorly used, but withal a handsome exotic when the six foot spikes of creamy nodding bell flowers force attention in July. Try it in masses among dry rocky outcroppings, or in the wide flower border.						
3	yr.....			.40	3.00	25.00
4	yr.....			.60	5.00	40.00
ZANTHORHIZA apiifolia. 2'-2½'				Yellow Root		
For under planting with leggy shrubs no better selection could be made. Either in sun or shade, moist or dry places it will quickly spread to form a light ground cover and open its curious brownish purple flowers. Will not thrive in lime soil.						
9	to	12	in.....	.30	2.50	20.00.

Alyssum rostratum, 6''
Alyssum saxatile compactum, 1'
Alyssum spinosum, 6''
Androsace lactiflora, 4''
Androsace lanuginosa, 6''
Androsace sarment. chumbyi 3,,
Anemone huphensis, 1½'
Anemone pulsatilla, 1'
Anemone pulsatilla alba, 1'
Anemone pulsatilla rubra, 1'
Anemone sylvestris, 9''
Anemone vernalis, 3''
Antennaria dioica, 6''
Anthemis styriaca, 4''
Aquilegia alpina 1'
Aquilegia ecalcarata, 1'
Aquilegia flabellata nana alba, 9''
Aquilegia glandulosa, 15''
Aquilegia pyrenaica, 6''
Arabis albida, 6''
Arabis albida flore-plena 7''
Arabis albida nana compacta, 4''
Arabis alpina
Arabis alpina rosea
Arabis kelleri, 3''
Arabis procurrens 6''-9''
Arenaria montana, 4''
Arenaria purpurea cens, 2''
Arenaria caespitosa, 1''
Artemisia frigida, 4''
Aster alpinus, 8''
Aster alpinus albus, 8''
Aster subcaeruleus, 1'
Aster yunnanensis, 9''
Aubrietia in variety, 6''
Bellis rotundifolia caerulescens, 4''
Bellis sylvestris, 6''
Calamintha alpina, 6''
Campanula barbata, 8''
Campanula carpatica. 6''
Campanula carpatica alba, 6''
Campanula garganica, 3''
Campanula portenschlagiana, 3''
Campanula pusilla, 3''
Campanula rotundifolia, 1'
Carlina acaulis, 6''
Cerastium tomentosum, 6''
Chimaphila maculata, 9''-12''

PLANTS FOR SHADED SITUATIONS

Deciduous Trees and
Small Shrubs

Acanthopanax pentaphylla, 7'-8'
Amelanchier canadensis, 12'-15'
Amelanchier stolonifera, 4'-5'
Aronia arbutifolia, 6'-8'
Aronia melanocarpa, 8'-10'
Azalea arborescens, 10'-12'
Azalea nudiflora, 6'-8'
Azalea vaseyi, 5'-6'
Azalea viscosa, 4'-5'
Benzoin aestivalis, 10'-12'
Calycanthus floridus, 4'-5'
Cephalanthus occidentalis, 5'-6'
Cercis canadensis, 12'-15'
Chionanthus virginica, 15'-18'
Clethra alnifolia, 4'-5'
Cornus alternifolia, 15'-18'
Cornus amomum, 8'-9'
Cornus florida, 15' 25'
Cornus florida rubra, 15'-20'
Cornus mas, 15'-20'
Halesia tetraptera, 12'-15'
Hamamelis mollis, 15'-20'
Hamamelis vernalis, 8'-10'
Hamamelis virginiana, 15'-20'
Hydrangea arbores. grand, 4'-5'
Hydrangea quercifolia, 3'-4'
Hypericum aureum, 3'-4'
Ligustrum ibota regelian., 5'-6'
Lonicera fragrantissima, 6'-8'
Lonicera morrowi, 7'-8'
Lonicera tatarica, 9'-10'
Oxydendrum arboreum, 25'-30'
Philadelphus, 9'-10'
Rhodotypos kerrioides, 4'-5'
Symphoricarpos chenaulti, 4'-5'
Symphoricarpos racemosa, 5'-6'
Symphoricarpos vulgare, 4'-5'
Viburnum acerifolium, 4'-5'
Viburnum dentatum, 10'-12'
Viburnum lentago, 18'-20'
Viburnum molle, 10'-12'
Zanthoriza apiifolia, 2'-3'

Evergreens

Azalea amoena, 2½'-3'
Azalea hinodegiri, 3'-4'
Buxus sempervirens suf., 12'-15'
Epigaea repens, 4''-6''
Euonymus radicans color. 6''-9''
Gaultheria procumbens, 4''-6''
Ilex crenata microphylla, 6'-8'
Ilex glabra, 5'-6'

Ilex opaca, 25'-30'
Juniperus communis, 2½'-3'
Kalmia latifolia, 5'-7'
Leucothoe catesbaei, 3'-4'
Mahonia aquifolium, 4'-5'
Mitchella repens, 3''-4''
Pachysandra terminalis, 6''-8''
Pieris floribunda, 3'-4'
Pieris japonica, 4'-5'
Rhododendron catawb., 6'-9'
Rhododendron hybrids, 3'-8'
Rhododendron maxim., 8'-12'
Taxus canadensis, 2'-2½'
Taxus cuspidata, 4'-5'
Tsuga canadensis, 75'-90'

Herbaceous Perennials

Aconitum (all)
Ajuga genevensis
Ajuga reptans
Anemone japonica
Aquilegia
Chimaphila maculata
Cimicifuga
Convallaria majalis
Dicentra cucullaria
Dicentra formosa
Dicentra spectabilis
Digitalis
Eupatorium fraseri
Hepatica
Heuchera (all)
Hosta (all)
Iberis sempervirens
Lithospermum prostratum
Lobelia cardinalis
Lobelia syphilitica
Lychnis chalcedonica
Lythrum
Menthella requieni
Myosotis scorpiodes
Physalis
Platycodon grandiflorum
Polemonium
Primula (all listed)
Saxifraga trifurcata ceratophylla
Sedum kamtschaticum
Sedum oreganum
Sedum sarmentosum
Sedum spurium
Sedum ternatum
Thalictrum
Vinca minor
Viola

PLANTS FOR BINDING AND COVERING SOIL
ON STEEP BANKS

Shrubs

Acanthopanax pentaphyll., 7'-8'
Berberis thunbergi, 4'-5'
Forsythia suspensa, 5'-6'
Lonicera spinosa alberti, 3'-4'
Lonicera tatarica, 9'-10'
Myrica carolinensis, 4'-5'
Rhus canadensis, 4'-5'
Rosa nitida, 12''-18''
Rosa rugosa, 4'-5'

Rosa setigera, 5'-6'
Symphoricarpos racemos., 5'-6'
Symphoricarpos vulgare, 4'-5'
Zanthoriza apiifolia, 2'-3'

Vines

Celastrus scandens, 20'-25'
Lonicera halliana, 15'-20'
Rosa lucida, 5'-6'
Rosa wichuriana, 15'-20'

PLANTS FOR DRY SOIL

Trees

DECIDUOUS

Betula populifolia, 30'-40'
Phellodendron amurense, 40'-50'
Quercus alba, 100'

EVERGREEN

Juniperus virginiana, 30'-50'
Pinus resinosa, 80'-100'
Pinus strobus, 80'-100'
Pinus sylvestris, 70'-80'

Shrubs

DECIDUOUS

Acanthopanax pentaphyl., 7'-8'
Colutea arborescens, 8'-10'
Cornus paniculata, 10'-12'
Hypericum prolificum, 2½'-3'
Lespedeza formosum, 5'-6'
Myrica carolinensis, 4'-5'
Prunus maritima, 9'-10'
Rhamnus cathartica, 9'-10'
Rhus canadensis, 4'-5'
Rosa setigera, 10'-12'
Symphoricarpos racemos., 5'-6'
Vaccinium corymbosum, 5'-6'
Viburnum acerifolium, 4'-5'
Viburnum lantana, 15'-18'

EVERGREEN

Arctostaphylos uva-ursi, 6''
Juniperus sargentii, 2'-2½'
Juniperus communis, 2'-2½'
Juniperus comm. depressa, 1½'
Juniperus comm. montana, 1½'
Juniperus horizontalis, 1'-1½'
Juniperus sabina, 6'-7'

Mahonia aquifolium, 4'-5'
Pachysandra terminalis, 8''
Pinus montana mughus, 2½'-3'

Herbaceous Perennials

SUNNY PLACES

Achillea ptarmica, The Pearl
Achillea tomentosa
Anthemis tinctoria
Armeria in variety
Asclepias tuberosa
Baptisia australis
Cerastium tomentosum
Dianthus barbatus
Euphorbia corollata
Gypsophilla paniculata
Helianthemum
Helianthus
Lavendula vera
Linum perenne
Lupinus polyphyllus
Oenothera youngi
Pentstemon barbatus
Phlox subulata
Sedum
Sempervivum

SHADY PLACES

Ajuga genevensis
Aquilegia canadensis
Aquilegia chrysantha
Aster alpinus
Heuchera sanguinea
Iberis sempervirens
Liatris pycnostachya
Platycodon grandiflorum
Sedum Spectabile

PLANTS FOR WET OR MARSHY PLACES

Deciduous Trees

Acer rubrum, 50'-75'
Betula nigra, 50'-60'
Larix leptolepis, 50'-60'
Liquidamber styraciflua, 50'-60'
Quercus palustris, 75'-90'
Quercus phellos, 75'-90'
Salix babylonica, 50'-60'
Taxodium distichum, 100'
Ulmus americana, 80'-100'

Shrubs

Aronia arbutifolius, 6'-8'
Aronia melanocarpa, 8'-10'
Azalea viscosa, 4'-5'
Benzoin aestivalis, 10'-12'
Calycanthus floridus, 4'-5'
Cephalanthus occidentalis, 4'-5'
Clethra alnifolia, 4'-5'
Cornus amomum, 8'-9'
Cornus stolonifera, 7'-8'
Ilex glabra, 5'-6'
Ilex verticillata, 6'-8'
Rhododendron canadense, 4'
Sorbaria sorbifolia, 5'-6'
Viburnum cassinoides, 5'-6'
Viburnum dentatum, 10'-12'
Viburnum lentago, 18'-20'

Herbaceous Perennials

Aruncus sylvestris
Asclepias tuberosa
Aster novae-angliae
Boltonia latisquama
Caltha palustris
Cimicifuga racemosa
Helenium autumnale
Hemerocallis
Hibiscus moscheutos
Iris chrysographes
Iris forrestii
Iris kaempferi
Iris sibirica
Liatris spicata
Lobelia cardinalis
Lobelia siphilitica
Lythrum salicaria roseum
Myosotis scorpioides (palustris)
Physostegia virginica
Primula cachemiriana
Primula japonica
Primula japonica, Red Hugh
Primula pulverulenta
Trollius europaeus
Trollius, Orange Globe

PLANTS FOR WALL-GARDENING

Achillea lewisi	Erysimum pulchellum
Achillea tomentosa	Geranium sanguineum & varieties
Aethionema (all)	Gypsophila repens
Alyssum (all listed)	Helianthemum in variety
Androsace chumbyi	Hypericum coris
Androsace lanuginosa	Hypericum repens
Antennaria dioica	Hypericum reptans
Arabis in variety	Leontopodium alpinum
Arenaria montana	Lithospermum prostratum, Heavenly Blue
Aubrietia in variety	Oenothera missouriensis
Calamintha alpina	Oenothera speciosa
Campanula garganica	Phlox subulata and varieties
Campanula portenschlagiana	Plumbago larpentae
Campanula pusilla	Primula auricula (shady)
Cerastium tomentosum	Saponaria ocymoides
Chieranthus allioni	Sedum (all except spectabile)
Dianthus allwoodi	Sempervivum (all)
Dianthus arenarius	Silene alpestris
Dianthus arvernensis	Silene maritima fl.-pl.
Dianthus caesius	Silene schafta
Dianthus deltoides	Statice armeria
Dianthus neglectus	Teucrium chamaedrys
Dianthus plumarius, & garden var.	Thymus (all)
Dracocephalum	Tunica saxifraga
Erinus alpinus	Veronica pectinata
Erysimum linifolium	Veronica teucrium rupestris & var

PLANTS FOR SPACES BETWEEN FLAGSTONE
AND ROCK WALKS

Achillea lewisi	Sedum dasyphyllum
Achillea tomentosa	Sedum hispanicum
Antennaria dioica	Sedum lydium
Arenaria caespitosa	Sedum middendorffianum
Campanula pusilla	Sedum nevi
Erinus alpinus	Sedum oreganum
Erysimum pulchellum	Sedum pruinaum
Euonymus radicans minimus	Sedum sexangulare
Linaria pallida	Sedum spath. purpureum
Menthella requieni	Sedum ternatum
Nierembergia rivularis	Sempervivums (all)
Phlox subulata varieties (for large steps)	Silene alpestris
Sedum acre	Statice armeria
Sedum anglicum	Thymus (all)
Sedum brevifolium	Tunica saxifraga
	Veronica repens

GROUND COVERS

For Shady Places

Ajuga reptans
 Asarum shuttleworthi
 Chimaphylla maculata
 Convallaria majalis
 Epigaea repens
 Euonymus radicans coloratus
 Euonymus radicans minimus
 Gaultheria procumbens
 Hedera helix and varieties
 Mitchella repens
 Pachistima canbyi
 Pachysandra terminalis
 Shortia galacifolia
 Taxus canadensis
 Vaccinium vitis-idaea
 Veronica filiformis
 Veronica repens
 Vinca minor

For Sunny Places

Arctostaphylos uva-ursi
 Arenaria caespitosa
 Calluna vulgaris and varieties
 Helianthemum in variety
 Juniperus chinensis sargentii
 Juniperus communis depressa
 Juniperus communis montana
 Juniperus horizon. Bar Harbor
 Juniperus horizontalis plumosa
 Juniperus sabina tamariscifolia
 Juniperus squamata
 Leiophyllum buxifolium
 Pachysandra terminalis
 Phlox subulata
 Sedum in variety
 Thymus serpyllum
 Veronica teucrium rupestris
 Zanthorhiza apiifolia

BERRY-BEARING TREES AND SHRUBS

Red Berries

Aronia arbutifolia, 8'-10'
Benzoin aestivale, 10'-12'
Berberis aggregata pratti, 8'-10'
Berberis thunbergi, 4'-5'
Berberis verna, 5'-6'
Cornus florida, 15'-25'
Cornus kousa, 15'-20'
Cornus mas, 15'-20'
Cotoneaster apiculata, 6'-7'
Cotoneaster dielsiana, 6'-8'
Cotoneaster divaricata, 6'-7'
Cotoneaster franchetti, 7'-8'
Cotoneaster horizontalis, 1'-1½'
Cotoneaster horizon. perpusilla
Cotoneaster hupehensis, 5'-6'
Cotoneaster lemoinei, 5'-6'
Cotoneaster racem. soong., 5'-6'
Cotoneaster rotundifolia, 7'-8'
Cot. salici floccosa, 15'-16'
Cotoneaster Simonsi, 5'-6'
Crataegus coccinea, 15'-20'
Crataegus cordata, 12'-15'
Crataegus crus-galli, 15'
Elaeagnus longipes, 6'-8'
Elaeagnus umbellata, 8'-10'
Euonymus alatus, 9'-10'
Euonymus europaeus, 12'-14'
Euonymus radicans vegetus
Ilex opaca, 25'-30'
Ilex verticillata, 6'-8'
Lonicera korolk. florib., 8'-10'
Lonicera maackii, 8'-9'
Lonicera minutiflora, 7'-9'
Lonicera morrowi, 7'-8'
Lonicera syringantha wolffi, 4'
Lonicera tatarica, 9'-10'
Malus floribunda, 12'-15'
Malus sargentii, 8'-9'
Nyssa sylvatica, 60'-70'
Photinia villosa, 12'-15'
Pyracantha cocc. lalandi, 8'-10'
Rhus canadensis, 3'-5'
Rosa blanda, 4'-5'
Rosa rubiginosa, 5'-6'
Rosa rugosa, 4'-5'
Sorbus aucuparia, 25'-30'
Symphoricarpos chenaulti, 4'-5'

Symphoricarpos vulgaris, 4'-5'
Viburnum americanum, 8'-9'
Viburnum dilatatum, 8'-9'
Viburnum opulus, 9'-10'
Viburnum wrighti, 8'-10'

White Berries

Cornus alba sibirica, 8'-10'
Cornus paniculata, 10'-12'
Cornus stolonifera, 7'-8'
Myrica carolin. (gray), 2'-10'
Pachysandra terminalis, 8''-10''
Symphoricarpos racem., 5'-6'

Yellow Berries

Elaeagnus angustifolia, 15'-18'

Black Berries

Amelanchier canadensis, 25'
Aronia melanocarpa, 8'-10'
Berberis atrocarpa, 5'-6'
Berberis verruculosa, 2'-8'
Cotoneaster acutifolia, 8'-10'
Ilex crenata bullata, 4'-5'
Ilex crenata microphylla, 6'-8'
Ilex glabra, 5'-6'
Ligustrum regelianum, 4'-5'
Rhamnus cathartica, 9'-10'
Rhamnus frangula, 10'-12'
Rhodotypus kerrioides, 4'-5'
Viburnum acerifolium, 4'-5'
Viburnum lantana, 15'-18'
Viburnum prunifolium, 12'-15'
Viburnum sieboldi, 9'-10'

Deep Blue-Black Berries

Berberis gagnepaini, 5'-6'
Berberis julianae, 6'-7'
Berberis tricanthophora, 4'-5'
Vaccinium corymbosum, 4'-12'
Viburnum cassinoides, 5'-6'
Viburnum dentatum, 10'-12'
Viburnum lentago, 25'-30'

Blue Berries

Ampelopsis heterophyll., 30'-40'
Callicarpa purp. (mauve), 3'-4'
Cornus amomum, 8'-9'
Symplocos paniculata, 30'-40'

PLANTS WITH DISTINCTIVE BARK

Acer pennsylvan. (Striped bark)
Betula alba (White bark)
Betula nigra (Papery brown bk)
Betula pap. (Papery white bark)
Betula populifol. (Creamy bark)
Carpinus bet. (Blue-gray bark)
Cornus alba sib. (Bright red bk.)
Cornus paniculata (Gray bark)
Cornus stol. lutea (Yellow bark)
Cornus stolon. (Deep red bark)
Elaeagnus (Silvery bark)

Euonymus alatus (Corky-winged bark)
Fagus varieties (Gray bark)
Kerria japonica (Green bark)
Laburnum vulgare (Green bark)
Liquidambar styraciflua (Corky ridged bark)
Platanus orientalis (Spotted creamy yellow bark)
Rosa lucida alba (Green bark)
Rosa rubrifolia (Dull red bark)
Tilia platy. aurea (yellow bark)

PLANTS SUITABLE FOR HEDGES

Evergreens

TALL

Berberis julianae
Chamaecyparis pisifera and var.
Euonymus patens
Picea excelsa
Pinus strobus
Taxus cuspidata capitata
Thuja occidentalis and varieties
Tsuga canadensis

LOW

Berberis triacanthophora
Berberis verruculosa
Buxus
Chamaecyparis obtusa gracilis
Ilex crenata bullata
Ilex crenata microphylla
Juniperus chinensis pfitzeriana
Mahonia aquifolia
Taxus cuspidata
Taxus cuspidata nana
Taxus media
Thuja occidentalis compacta
and dwarf varieties
Thuja occ. Little Gem
Thuja orientalis nana aurea

Deciduous

TALL

Acer ginnala
Carpinus betulus
Cotoneaster acutifolia
Crataegus coccinea
Crataegus crusgalli
Crataegus oxycantha
Euonymus alatus
Fagus sylvatica
Hibiscus syriacus
Ligustrum ovalifolium
Lonicera minutiflora
Photinia villosa
Rhamnus frangula
Syringa vulgaris
Viburnum dentatum
Viburnum prunifolium

LOW

Berberis thunbergii
Berberis verna
Cotoneaster divaricata
Cydonia japonica
Deutzia gracilis
Ligustrum ovalifolium (clipped)
Ligustrum regelianum
Philadelphus lem. and varieties
Rhodotypos kerrioides
Rosa rugosa
Spiraea Anthony Waterer
Spiraea thunbergii
Spiraea trilobata
Spiraea van houttei
Stephanandra flexuosa
Viburnum opulus nana

VINES

Flowering

Actinidia
Bignonia
Clematis
Hydrangea petiolaris
Lonicera
Polygonum
Rosa wichuriana and varieties
Wisteria

Foliage

Actinidia
Akebia
Ampelopsis
Euonymus
Hedera
Lonicera
Rosa

Rapid Growth

Actinidia
Clematis
Polygonum

Fruiting

Actinidia
Akebia
Ampelopsis heterophylla
Celastrus
Clematis

Self-Clinging (by roots)

Ampelopsis tricuspid. (veitchi)
Ampelopsis tricuspidata lowi
Bignonia
Euonymus
Hedera
Hydrangea petiolaris

Self-Clinging (tendrils or stalks)

Actinidia
Ampelopsis heterophylla
Ampelopsis quinquefolia
Celastrus
Clematis
Lonicera
Wisteria

EVERGREEN CONIFERS

Tall

Abies concolor, 50'-60'
Abies homolepis, 60'-80'
Abies nordmanniana, 80'-100'
Abies veitchi, 50'-60'

3 1/2 x3 1/2 feet -----	3,555	9 x9 feet ----	537
4 x1 feet -----	10,890	10 x10 feet -----	435
4 x2 feet -----	5,445	11 x11 feet -----	360
4 x3 feet -----	3,630	12 x12 feet -----	302

To find the number of trees that can be planted per acre at other distances than those given above multiply the distance in feet between the rows by the distance between the plants in the row and divide the result into 43,560, which is the number of square feet in an acre of ground. The result of this division will give the number of trees per acre. For instance, trees 6 feet by 8 feet apart:

6 times 8 equals 48 sq. ft. occupied by each tree.

Square feet per acre—43,560.

43,560 divided by 48 equals 907.

Information on any matters pertaining to plants and planting will be gladly given on request, and we expect to maintain a stock of the following supplies, prices of which will be quoted as needed.

- BOOKS ON HORTICULTURE
- FERTILIZERS AND HUMUS
- LAWN GRASS SEED
- PEAT MOSS HORTICULTURAL
- SPRAY MATERIALS
- STONE FOR ROCK GARDENS
- TOOLS AND SUPPLIES

QUANTITY OF PLANTS FOR FILLING BEDS

Our table is based on round beds, the outer row being planted one-half the distance from the edge that the bulbs or plants stand apart. For a square bed, add 25% to the number required for a round bed of the same diameter. For an oval bed, length and width is to be added and then divided by 2, thus: 8 and 6 feet equals 14 feet, divided by 2, gives 7 feet. Such a bed requiring the same number of bulbs or plants as a round bed 7 feet in diameter.

Diameter of Round Bed	Planted 4 in. Apart	Planted ½ ft. Apart	Planted 1 ft. Apart	Planted 1½ ft. Apart	Planted 2 ft. Apart
3 feet	65	30	8		
4 "	125	50	13	7	
5 "	175	83	21	10	
6 "	265	118	30	15	8
7 "	350	158	40	20	10
8 "	460	206	52	25	13
10 "	720	325	82	40	20
12 "	1020	456	115	57	30
14 "	1400	615	155	78	40
16 "	1820	810	202	100	50
18 "	2290	1020	255	126	64
20 "	2840	1260	315	156	78

HOW MANY PER FRAME

When small sizes are transplanted into beds or frames, some estimate of the area required can be made from the following figures. If the frame or bed is 6 feet wide and 100 feet long, the following quantities of plants set out at these distances will fill the frame:

Planting Distance	Trees per Bed
4x 4 inches	5,400
5x 5 inches	3,456
6x 6 inches	2,400
7x 7 inches	1,763
8x 8 inches	1,333
10x10 inches	864
12x12 inches	600

MULCHING TABLE

- 1 cubic yard will cover
- 50 square feet to a thickness of 6 inches
 - 100 square feet to a thickness of 3 inches
 - 150 square feet to a thickness of 2 inches
 - 300 square feet to a thickness of 1 inch
 - 600 square feet to a thickness of ½ inch
- 1 bale of Peat will cover
- 250 square feet to a thickness of 1 inch
- 1 cubic yard of Top Soil will plant
- 5 trees or 10 shrubs of average nursery size.
- 1 cubic yard of Cow Manure will fertilize
- 30 trees or 60 shrubs of average nursery size.

SUITABLE DISTANCES FOR PLANTING

Large street trees.....	50 to 60 feet apart.
Medium street trees.....	40 to 50 feet apart.
Small street trees.....	30 to 40 feet apart.
Large shrubs.....	8 to 10 feet apart.
Medium shrubs.....	4 to 6 feet apart.
Small shrubs.....	2 to 3 feet apart.
Herbaceous Perennials.....	6 to 18 inches apart.
Ground covers	6 to 12 inches apart.

QUANTITY OF COMMERCIAL FERTILIZER TO APPLY ON SMALL AREAS

100 lbs. per acre equals approximately	1 lb. per 436 square feet.
200 " " " " " "	1 " " 218 " "

Some Facts About Controlling Insects on Ornamental Plants

Because of the many different kinds of ornamental plants and the thousands of insects attacking these plants it is impossible to give control methods here for all these insects. Therefore, this brief article is presented on some of the fundamental principles of insect control. Difficult cases of insect control should be referred to us or to your State Entomologist for advice.

IMPORTANCE OF FEEDING HABITS

The method of controlling any specific insect is largely determined by the manner it obtains its food. If it bites off, chews and swallows solid particles of the foliage, bloom or fruit it can often be best controlled by stomach poisons, such as arsenate of lead, fluorine compounds, etc.; if it obtains its food by inserting its mouth parts through the surface and sucking out the plant juice, one must use contact poisons, such as nicotine, rotenone, pyrethrum, etc. The above two methods are effective where the insects feed upon exposed surfaces. If they bore inside the leaves, fruit, stems, trunk or roots, other methods are often necessary. Thus, how the insects feed and their habits have an important place in how to control them.

STOMACH POISONS

The most common stomach poison for use on ornamental plants is arsenate of lead. It may be obtained in a white powdery material, or in a paste form. The powder is usually used at the rate of 1½ pounds to 50 gallons of water or in smaller quantities 1 ounce to 2 gallons or 1 rounding teaspoonful to 1 quart of water. Spray thoroughly all parts of the plant likely to be fed upon.

Powdered derris root or powdered pyrethrum flowers or dusts containing these insecticides also have some value as stomach poisons for ornamental plants where one does not wish to use an arsenical poison. These powders may be dusted upon the plants or applied as a spray by diluting at the rate of 1 pound to 3 to 5 gallons of water. They act as contact poisons and repellents as well as stomach poisons, but will not protect the plants for as long a time as lead arsenate against leaf eating insects.

Stomach poisons may be used against insects such as most beetles, grasshoppers, caterpillars, etc. They are not effective against plant lice, scale insects, leaf hoppers, various plant bugs, etc.

CONTACT SPRAYS

Contact sprays are of two kinds. Those used on plants during the growing season and known as summer contact sprays, and those used on hardy plants while they are in a resting or dormant stage, are known as dormant sprays.

Summer contact sprays are of many kinds. The most common ones contain either nicotine, extracts of pyrethrum flowers (pyrethrins) or extracts of derris or cube roots (principally rotenone) as the principal killing agent in water, alcohols or oils. Soaps and the so-called white oils are also effective against some insects, such as plant lice, crawling stages of scale insects or other young insects. There are so many different kinds of contact sprays and they vary so much in their composition and formulae that general directions are difficult to give. State and Federal laws require that they be true to label and directions; therefore, they should be used as directed on the containers.

Contact sprays kill by wetting the surface of the insect to be killed. Therefore, the spraying should be thoroughly applied to all parts of the plant, both upper and lower leaf surfaces. Many contact sprays contain either soap, oils or other materials to make the diluted spray wet better. If they do not contain a wetting agent or if the dilution with water is rather high they can often be made more effective by adding soap. Powdered or dry soaps should be used 1 part to about 200 parts of the diluted spray. Liquid soap should be used diluted from 2 to 4 times as much as the actual amount of soap they contain. Thus, a liquid soap containing 15% actual soap should be added 1 part to 30 to 60 parts of the diluted insecticide spray or liquid soap containing 40% actual soap should be added 1 part to 80 to 160 parts of the diluted insecticide. The concentration of soap will depend upon how hard the insects are to kill and whether the plants are tender or hardy.

The insects controlled with summer contact sprays may be divided into several groups according to their habits and difficulty of control. These groups are as follows:

PLANT LICE (also called aphids and green fly), infest many different kinds of plants. Soft bodied, whitish, green, brown or sometimes almost black in color, usually not more than ¼ inch long. Generally found clustered on the under surface of leaves, or along the new growth of stems. To control, dip or spray

plants in any of the summer contact sprays diluted with water as recommended on the container. Be careful to wet the lower surface of the leaves. It is often advisable to give a second treatment in 5 or 6 days.

PLANT BUGS. such as leaf hoppers, tarnished plant bugs, "white fly," thrips, etc. All are sucking insects and they are more active than plant lice, therefore, much more difficult to wet all the insects with the spray material. Use summer contact sprays as recommended on the container or at strength slightly stronger than recommended for plant lice. Use considerable volume of spray where possible and wet lower surface of leaves. It is often necessary to give 3 or 4 treatments at weekly intervals. Nicotine or pyrethrum dusts are very good where plants are crowded or close together.

MEALY BUGS. These are sucking insects covered with a white, powdery or woolly, wax-like material. The eggs are pinkish, small, laid in masses of 100 or more and covered with the white, woolly, wax-like material. Both the insects and egg masses are difficult to wet with the spray material. Sprays containing nicotine are usually better for mealy bugs than those containing pyrethrum or rotenone. Sprays containing summer oil or wetting agents with oil are more effective than soap or other common wetting materials. Spray with considerable force and where possible repeat the applications at 3 or 4 day intervals until the infestation is cleaned up. Large masses of mealy bugs or egg masses that are hard to wet may be painted with a solution of the spray material 4 to 6 times as strong as recommended for control of plant lice. After a few minutes or when these painted places have been wet thru syringe with clean water and spray with the regular strength recommended for mealy bugs.

SCALE INSECTS. Two types are commonly found on ornamental plants. One type is called armored scales because the body is covered with a round or oval, flat, wax-like scale, usually not more than $\frac{1}{8}$ inch in diameter. The second type is called soft scales, because they have no protecting waxy scale, or they are sometimes called lecanium scales because of their shape. They are usually oval in outline, flat to hemispherical in shape and from $\frac{1}{4}$ to $\frac{3}{8}$ inch in greatest diameter. Both types are difficult to control with summer sprays after they become half grown or more. Regular spraying at about 10-day intervals with a summer contact spray about twice as strong as recommended for control of plant lice will kill the young insects and clean up an infestation. Contact sprays containing summer oils are more effective against scale insects than those containing soap as the wetting agent. On hardy ornamental plants scale insects are best controlled by a delayed dormant application of miscible oil or concentrated lime sulfur solution.

SPIDER MITES. A number of different kinds infesting many plants. They are extremely small, greenish, reddish or brown, 4-legged creatures. They occur most abundantly on the lower surface of the leaves, often several hundred to a single leaf. Their injury can be determined by the fine speckled or mottled greenish or brownish appearance on the upper surface of the leaves. The small, round, pinkish eggs or white empty egg shells or cast skins are usually abundant and easily seen with a magnifying glass.

Summer sprays containing pyrethrum or rotenone are more effective against spider mites than those containing nicotine. Sprays containing summer oils are also more effective than those containing soap or no wetting materials. The sprays should be diluted as directed on the container or usually at a strength about twice that given for plant lice. Be careful to wet the lower surface of all leaves and give two or three applications at intervals of about a week. Thorough applications with superfine ground sulphur dust has been found most effective. The overwintering eggs of spider mites on hardy plants may be destroyed by delayed dormant applications of a miscible oil.

OTHER INSECTS. There are many other insects such as beetles of various kinds, some caterpillars, etc., that may be killed by summer contact sprays. If they are hardy insects the spray should be used from two to three times as strong as recommended for plant lice.

DORMANT CONTACT SPRAYS

Dormant sprays are used for the control of the overwintering stage of certain insects on hardy plants. The dormant condition of the trees makes possible a stronger spray solution and the absence of foliage on deciduous plants permits a more thorough application. Dormant sprays usually consist of oils made miscible with water or concentrated solutions of lime sulfur liquid. The miscible oils are usually used at dilutions of 1 part to 15 to 20 parts of water and the lime sulfur solution at a dilution of 1 part to 9 parts of water. Oil sprays are usually to be preferred but should not be used on hard maples, hickory, walnut, up-right type of junipers, or evergreen trees where the "bloom" will be destroyed. Lime sulfur should be used on such trees. Lime sulfur should not be used near buildings as it discolors badly.

Dormant sprays are usually used for the control of the eggs of plant lice, spider mites and other stages of insects that might hibernate on the trees or shrubs.

INSECTS INJURING THE ROOTS OF PLANTS

The most common forms are various plant lice, wire worms, various kinds of white grubs, such as the Japanese beetle grubs, weevil grubs of several kinds and nematodes. Plant lice may sometimes be controlled by mulching with $\frac{1}{8}$ to $\frac{1}{4}$ inch of tobacco powder or by watering the plants with a nicotine solution at the strength used for spraying plant lice. Root infesting plant lice are often attended by ants; therefore, control of the ants will help in getting rid of the root aphids.

BORING INSECTS

There are many insects that bore on the inside of the trunk, stem, twigs or even the foliage of plants. Usually they cannot be reached with either a contact spray or a stomach poison spray. When they occur in woody plants and make a distinct opening to the outside through which the borings are pushed they may be destroyed by poking with a flexible twig or by poking a small rag dipped in free nicotine into the hole or by injecting a nicotine paste material into the hole. A second type of wood borers tunnel in the cambium layer of the bark or in the sap wood. They are usually not found until considerable damage has been done. Stimulating plant growth by watering and the use of fertilizers will help to prevent their occurrence as they usually attack trees that have been transplanted or that have been weakened from some other cause.

Borers infesting herbaceous plants such as the common stalk borer, the iris borer, etc., often pass the winter in the egg stage on the foliage of dead plants. The raking up and burning of these dead plant remains will help very much in keeping down infestations of these borers.

RABBIT AND RODENT REPELLANT

Sulphonated oil is a new remedy for the protection of fruit and shade trees from the ravages of rabbits, mice and other rodents, which often do much damage in winter. Trees sprayed or painted with the oil are entirely avoided by all rodents unless they become extremely hungry and if they do attack the trees they speedily die.

The mixture is prepared by heating linseed oil until it is smoking hot—about 470 degrees Fahrenheit. The mixture should be set outdoors and flowers of sulphur added, one part to nine parts of oil by weight, making a 10 per cent solution. It is best to sift the sulphur slowly into the hot oil and stir. The mixture will become hotter until all the sulphur is dissolved. When it cools it will be ready for use; but if it is to be sprayed on the tree trunks, thinning with turpentine may be necessary to put it through the spray pump.

BORDEAUX MIXTURE

4 lbs. copper sulphate crystals
4 lbs. storelime
50 gallons water

Plant Diseases of Ornamentals

FUNGICIDES

Satisfactory control measures for the diseases of ornamental plants are preventatives rather than cures. Control measures must, therefore, to be most effective, be initiated before the appearance of disease. When a plant is once infected there is often no cure, and the removal of such individuals and their destruction should be a general sanitary practice in all growing operations.

Disinfecting and protective fungicides serve two distinct purposes. A disinfecting spray is used as a dormant and summer spray to destroy the spores of fungi which cause disease, and which may be lodged on the bark or about the buds of deciduous trees and shrubs. Lime-sulfur solution diluted 1-9 is the most commonly used dormant disinfecting spray. Some sprays and dusts prevent infection by depositing a protective coating poisonous to fungous spores on the plant surfaces. Lime-sulfur 1-49. Bordeaux mixture, sulfur dusts and wettable sulfur sprays, are the most generally known and used protective sprays.

The following recommendations cannot be expected to yield 100 per cent. control of disease, as this is rarely accomplished. However, if the measures recommended are followed, reasonable control should be obtained.

Host	Diseases	Control	How used	When
Almond (Flow'g)	Brown rot of leaves & twigs	Bordeaux	4-4-50	Spring and early summer
Ampelopsi.	Leaf Spot	Bordeaux	4-4-50	Thruout season at 10-day intervals
Androm'd (Pieris)	Leaf Spot	Bordeaux	2-3-50	Thruout season at 2-week intervals
Azalea	Leaf sc'rch Leaf Gall	Bordeaux	4-4-50	July & August
Barberry	Leaf Spot	Bordeaux Prune out dead twigs	4-4-50	Spring & early summer
Beech	Canker	Prune		Winter & spring
Birch	Leaf Spot, Rust, Mild.	Control scale Bordeaux	Dormant 4-4-50	Early March Spring
Boxwood	Canker	Prune dead twigs		At any time
		Bordeaux or Lime-sul.	4-4-50 1-49	Spring & summer Spring & summer
Buckeye (Horse- chestnut)	Leaf Spots Leaf Blotch	Bordeaux Bordeaux Lime-sul.	4-4-50 4-4-50 1-49	Spring & summer As leaves are un- folding and 10 days later
Cotoneast.	Fire Blight	Prune		Any time noticed
Crataegus	Fire Blight	Prune		Any time noticed
		Bordeaux	2-3-50	At blooming
